Great Balloon Fun For The Whole Family:

The Cranky Mom Fix Becky Kopitzke, 2019-06-04 If we're honest with ourselves almost every mom knows she can go from being kind to cranky in no time flat. When we're tired, busy, anxious, preoccupied, okay, so anytime really, we tend to default to snapping and barking at the people we love best. But life doesn't have to be this way. Through coaching other moms who share a desire to be a kinder, gentler parent, Becky Kopitzke has learned the keys to taming the momster in all of us. And in this grace-filled book, she will help you assess the triggers that spark your angry responses, understand your children better so you can minimize frustrations, learn gentle, effective responses to trying situations, and much more. Consider The Cranky Mom Fix your personal battle plan to focus on who you are and how to wield God's wisdom and strength in your family. With an extensive resource section of practical activities, tips, and self-assessment tools, this book will help you reclaim true peace for your soul and your home. The Panorama Henry Greyling, Take Off Your Glasses and See Jacob

Liberman, 2011-06-22 This revolutionary new look at vision will broaden your understanding of how you see and how you can see without your glasses or contact lenses. Take Off Your Glasses and See shows you how to free yourself from the crutch of prescription lenses to build your self-confidence and awareness and to open up your inner and outer vision in order to see more clearly. Jacob Liberman, an internationally recognized authority on holistic vision care, explains how most vision problems are the result of an unconscious decision to close your eyes to emotional discomfort or pain and how increasingly powerful corrective lenses only encourage eyesight to withdraw even further. By removing lenses and practicing breath and movement awareness techniques to shift your perception, you can reintegrate the original disruption in the mind-body system. Dr. Liberman's approach can help you join the thousands who have escaped from the self-defeating cycle of poor vision.
