William John Haggerston

Great Britain Ireland Grand Tours Of The World:

Beyond the Grand Tour Rosemary Sweet, Gerrit Verhoeven, Sarah Goldsmith, 2017-02-17 Travel in early modern Europe is frequently represented as synonymous with the institution of the Grand Tour a journey undertaken by elite young males from northern Europe to the centres of the arts and antiquity in Italy Taking a somewhat different perspective this volume builds upon recent research that pushes beyond this narrow orthodoxy and which decentres Italy as the ultimate destination of European travellers Instead it explores a much broader pattern of travel undertaken by people of varied backgrounds and with divergent motives for travelling By tapping into current reactions against the reification of the Grand Tour as a unique and distinctive practice this volume represents an important contribution to the ongoing process of resituating the Grand Tour as part of a wider context of travel and topographical writing Focusing upon practices of travel in northern and western Europe rather than in Italy particularly in Britain the Low Countries and Germany the essays in this collection highlight how itineraries continually evolved in response to changing political economic and intellectual contexts In so doing the reasons for travel in northern Europe are subjected to a similar level of detailed analysis as has previously only been directed on Italy By doing this the volume demonstrates the variety of travel experiences including the many shorter journeys made for pleasure health education and business undertaken by travellers of varying age and background across the period In this way the volume brings to the fore the experiences of varied categories of traveller from children to businessmen which have traditionally been largely invisible in the historiography of travel [The British and German Worlds in an Age of Divergence \(1600-1850\)](#) Niels Grüne, Stefan Ehrenpreis, 2024-07-22 The question of whether Britain is apart from or a part of Europe D Abulafia has gained significance in recent years This book reassesses an underexplored field of early modern transnational history the variety of ways in which connections between Britain and German speaking Europe shaped developments After a comprehensive introduction this book is divided into three parts cross border transfers and appropriations of knowledge coping with alterity in intergovernmental contacts and ideologising the cultural nation The topics range from the exchange of religious and political ideas over court life diplomacy and espionage to literary and philosophical debates Particular attention is paid to the media processes involved and to the practical value of knowledge about the other in different historical contexts The picture emerging from the case studies reveals an intriguing dynamic Mutual interest and ambiguous entanglements deepened precisely at a time when the British and German worlds diverged evermore from each other in terms of social and political structures This fascinating volume sheds new light on Anglo German relations and will be essential reading for students of early modern European history *Nagel Travel Guide Series: Great Britain-Ireland*, 1966 **Britain, Ireland and the Italian Risorgimento** N. Carter, 2015-04-28 This book offers a unique and fascinating examination of British and Irish responses to Italian independence and unification in the mid nineteenth century Chapters explore the interplay of religion politics exile feminism colonialism and romanticism in fuelling

impassioned debates on the Italian question on both sides of the Irish Sea **The Jacobites and the Grand Tour** J  r  my Filet,2025-04-22 In the first monograph to fully examine the intersecting networks of Jacobites and travellers to the continent Filet considers how small states used official diplomacy and deployed soft power embodied by educational academies to achieve foreign policy goals This work uses little known archival materials to explain how and why certain small states secretly supported the Jacobite cause during the crucial years surrounding the 1715 rising while others stayed out of Jacobite affairs At the same time the book demonstrates how early modern small states sought to cultivate good relations with Britain by attracting travellers as part of a wider trend of ensuring connections with future diplomats or politicians in case a Stuart restoration never came This publication therefore brings together a study of Britain small states Jacobitism and educational travel in its nexus at continental academies *Britannica Book of the Year 2014* Encyclopaedia Britannica, Inc.,2014-03-01 The Britannica Book of the Year 2014 provides a valuable viewpoint of the people and events that shaped the year and serves as a great reference source for the latest news on the ever changing populations governments and economies throughout the world It is an accurate and comprehensive reference that you will reach for again and again **The Problem of Empire Governance** Charles Edward Traquair Stuart-Linton,1912 **Portraits and Principles of the World's Great Men and Women with Practical Lessons on Successful Life by Over Fifty Leading Thinkers** William C. King,1900 **The Michigan Alumnus** ,1994 In volumes1 8 the final number consists of the Commencement annual *The Global Work of Art* Caroline A. Jones,2017-06-01 Global biennials have proliferated in the contemporary art world but artists engagement with large scale international exhibitions has a much longer history that has influenced the present in important ways Going back to the earliest world s fairs in the nineteenth century this book argues that globalism was incubated in a century of international art contests and today constitutes an important tactic for artists As world s fairs brought millions of attendees into contact with foreign cultures products and processes artworks became juxtaposed in a theater of nations which challenged artists and critics to think outside their local academies From Gustave Courbet s rebel pavilion near the official art exhibit at the 1855 French World s Fair to curator Beryl Madra s choice of London based Cypriot Hussein Chalayan for the off site Turkish pavilion at the 2006 Venice Biennale artists have used these exhibitions to reflect on contemporary art speak to their own governments back home and challenge the wider geopolitical realm changing art and art history along the way Ultimately Caroline A Jones argues the modern appetite for experience and event structures which were cultivated around the art at these earlier expositions have now come to constitute contemporary art itself producing encounters that transform the public and force us to reflect critically on the global condition **Men and masculinities in modern Britain** Matt Houlbrook,Katie Jones,Ben Mechen,2024-01-16 Men and masculinities provides an engaging accessible and provocative introduction to histories of masculinity for all readers interested in contemporary gender politics The book offers a critical overview of ongoing historiographical debates and the historical making of men s lives and identities and ideas of

masculinity between the 1890s and the present day In setting out a new agenda for the field it makes an ambitious argument for the importance of writing histories which are present centred and politically engaged This means that the book engages head on with ferocious debates about men s social position and the status of masculinity in contemporary public life In establishing a critical genealogy for the proliferation of this crisis talk it sets out new ways of understanding how men s lives and ideas of masculinity have changed over time while patriarchy and male power have persisted **Learning Languages**

in Early Modern England John Gallagher,2019 In the early modern period the English language was practically unknown outside of Britain and Ireland so the English who wanted to travel and trade with the wider world had to become language learners John Gallagher explores who learned foreign languages in this period how they did so and what they did with the competence they acquired **New Outlook** ,1908 **Travellers in Eighteenth Century Europe** Julie

Peakman,2025-01-16 Travellers in Eighteenth Century Europe is an edited collection with contributions by leading scholars brought together by a prolific author with expertise in eighteenth century culture The Grand Tour was considered a part of the education of a young gentleman Travellers included blossoming scholars poets writers and scientists Visits were made to Greece and Italy via France and Switzerland often taking in Turkey But women also traveled extensively though these accounts have been under explored The book will examine first hand accounts of the impact of foreign travel on both women and men seen through their letters travel diaries journals and their creative response in poems music and art Its originality is seen in its exploration of a comparison between the views of women and men abroad and the differences in what they deemed interesting and worthy of comment The book is especially relevant in light of the many past and current xenophobic views of the foreigner Here we more often see travellers viewing their experience of otherness and exoticism in a positive light a cultural appreciation rather than a cultural appropriation This book examines how men and women saw these new worlds opening up before them what delighted them what influenced them and their interaction with others in the light of domesticity antiquity politics work science sex and friendships **No Country for Travellers?** Rosemary Sweet,Richard

Ansell,2025-08-14 No Country for Travellers explores the rise and nature of British travel to Spain and Portugal between 1760 and 1820 across a region that is conventionally overlooked in studies of British travel to Europe Drawing on extensive archival and printed sources left by contemporary travellers Rosemary Sweet and Richard Ansell reveal the unheralded significance of the two countries to eighteenth century British culture and their attraction as destinations long before the Peninsular War and nineteenth century romanticism Along the way the book s compelling narrative reveals the realities of Iberian travel the different itineraries that travellers followed the place of Spanish and Portuguese cities in the British imagination and the importance of mediators in cultural exchange on the Iberian side as well as the British The travellers memoirs reflect changing perceptions of Spain and Portugal as modernisation raised new hopes that vied with pessimism and ancient prejudice and also the persistence of cultural stereotypes while the counterintuitive relationship between civilian

travel and armed conflict emerges through a case study of the Peninsular War Finally focusing on contemporary fascination with the Alhambra in Granada the authors examine the rise of British interest in Iberia s Islamic history with its significance for contemporary understandings of Europe Outlook Alfred Emanuel Smith, Francis Walton, 1890
