African-American History Evelyn Brooks Higginbotham,2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America Color-Blind Justice : Albion Tourgee and the Quest

for Racial Equality from the Civil War to Plessy v. Ferguson Mark Elliott Associate Professor of History University of North Carolina at Greensboro,2006-11-09 Civil War officer Reconstruction carpetbagger best selling novelist and relentless champion of equal rights Albion Tourgee battled his entire life for racial justice Now in this engaging biography Mark Elliott offers an insightful portrait of a fearless lawyer jurist and writer who fought for equality long after most Americans had abandoned the ideals of Reconstruction Elliott provides a fascinating account of Tourgee s life from his childhood in the Western Reserve region of Ohio then a hotbed of abolitionism to his years as a North Carolina judge during Reconstruction to his memorable role as lead plaintiff s counsel in the landmark Supreme Court case Plessy v Ferguson Tourgee s brief coined the phrase that justice should be color blind and his career was one long campaign to made good on that belief A redoubtable lawyer and an accomplished jurist Tourgee wrote fifteen political novels eight books of historical and social criticism and several hundred newspaper and magazine articles that all told represent a mountain of dissent against the prevailing tide of racial oppression Through the lens of Tourgee s life Elliott illuminates the war of ideas about race that raged through the United States in the nineteenth century from the heated debate over slavery before the Civil War through the conflict over aid to freedmen during Reconstruction to the backlash toward the end of the century when Tourgee saw his country retreat from the goals of equality and freedom and utterly repudiate the work of Reconstruction A poignant and inspiring study in courage and conviction Color Blind Justice offers us an unforgettable portrayal of Albion Tourgee and the principles to which he dedicated his life Finalist 2007 Peter Seaborg Award for Civil War Scholarship **Stepping over the Color Line** Amy Stuart Wells,Robert L. Crain,1997-05-29 This important book takes the discussion of racial inequality in America beyond simplistic arguments of white racism and black victimization to a more complex conversation about the separate but unequal

situation in many schools today Amy Stuart Wells and Robert Crain investigate the St Louis Missouri school desegregation plan a unique agreement that since 1983 has given black inner city students the right to choose to attend predominantly white suburban schools After five years of research and hundreds of interviews with policymakers administrators teachers students and parents Wells and Crain conclude that when school desegregation is examined from these many perspectives more strengths than weaknesses emerge They call for a reexamination of now popular school choice policies across the country so that these policies may help to bring about more racial and social class integration Stepping over the Color Line intertwines data on student achievement and racial isolation with stories of the people who participated in the St Louis program The authors set these individuals within a broad historical and social context and demonstrate how important linkages between the past and present help explain why efforts to overcome racial inequality in St Louis and in the larger society are so difficult The authors do a superb job of explaining how this innovative program came about placing it in a broad context that takes it beyond its immediate and local implications The book is at times heartbreaking and at times uplifting Richard Zweigenhaft co author of Blacks in the White Establishment A Study of Race and Class in America

African Americans and the Color Line in Ohio, 1915-1930 William Wayne Giffin, 2005 A study of African Americans in Ohio notably Cleveland Columbus and Cincinnati Giffin argues that the color line in Ohio hardened as the Great Migration gained force His data shows too that the color line varied according to urban area hardening progressively as one traveled South in the state *Violence as Seen Through a Prism of Color* Letha A See, 2018-12-20 So many parts of society target citizens of color for violence what can be done *Violence as Seen Through a Prism of Color* examines violence from a structural perspective including violence in prisons schools and colleges churches homes and within political corporate structures This unique hard hitting book argues that individual violence stems from the structure of our society and its institutions Most of the contributors are African American educators and practitioners who have a thorough understanding of structural violence Some have experienced political violence others have expert knowledge of structural violence within the criminal justice system educational institutions and elsewhere even in churches and homes Their writings are undeniably unflinchingly authentic it is impossible not to be moved and enraged by what they have to say The good news is that in addition to calling attention to the structural violence in our society they provide excellent insights on how the situation might be resolved *Violence as Seen Through a Prism of Color* shows that much of the violence within the criminal justice system stems from decisions made at the highest levels of government that minority offenders are much more frequently convicted and more harshly sentenced than their white counterparts how cultural racism contributes to the construction of motives for lynching hate crime and police violence against Americans of color such as Abner Louima Amadou Diallo and Rodney King how the judicial system encourages black on black violence by neglecting to halt criminal activities in non white neighborhoods how in the words of Mahatma Gandhi Poverty is the worst form of violence You ll also learn how corporations

are amassing great wealth through privatizing prisons and conscripting the labor of non violent African American prisoners how racial profiling affects people of color how the media has exploited black men imprisoned for minor drug offenses how and why violence occurs in and against the black church Helpful charts and tables like one that names the corporations that use prison labor supplement the material you ll be surprised at what you learn Extensive references are included at the end of each chapter

An American Color Andrew N. Wegmann, 2022-01-15 For decades scholars have conceived of the coastal city of New Orleans as a remarkable outlier an exception to nearly every rule of accepted U S historiography A frontier town of the circum Caribbean the popular image of New Orleans has remained a vestige of North America s European colonial era rather than an Atlantic city on the southern coast of the United States Beginning with the French founding of New Orleans in 1718 and concluding with the outbreak of the American Civil War in 1861 *An American Color* seeks to correct this vision By tracing the impact of racial science law and personal reputation and identity through multiple colonial and territorial regimes it shows how locally born mul tres in French New Orleans became part of a self conscious identifiable community of Creoles of color in the United States *An American Color* places this local history in the wider context of the North American continent and the Atlantic world This book shows that New Orleans and its free population of color did not develop in a cultural legal or intellectual vacuum More than just a study of race and law this work tells a story of humanity in the Atlantic world a story of how a people on the French colonial frontier in the mid eighteenth century became unlikely accepted parts of a vast political social and racial United States without ever leaving home
