## Great Ape Project Census:

**The Great Ape Project Census**, 2003      **The Great Ape Project** Paola Cavalieri, Peter Singer, 1994-12-15 With such assertions throughout it is no wonder that The Great Ape Project has been embroiled in controversy even before its American publication      *Killing, Capture, Trade and Ape Conservation* Arcus Foundation, 2021-04-29 An objective analysis of relevant issues and case studies to further the ape conservation agenda around killing capture and trade      **Nim Chimpsky** Elizabeth Hess, 2008 Chronicles an experiment with a young chimpanzee who was brought up with a human family and taught to use sign language proficiently until the funding for the study ended and he spent two decades shuttled in and out of various facilities      *Encyclopedia of Anthropology* H. James Birx, 2006 Focuses on physical social and applied anthropology archaeology linguistics and symbolic communication Topics include hominid evolution primate behaviour genetics ancient civilizations cross cultural studies and social theories      Peter Singer Under Fire Jeffrey A. Schaler, 2011-09-30 One of the leading ethical thinkers of the modern age Peter Singer has repeatedly been embroiled in controversy Protesters in Germany closed down his lectures mistakenly thinking he was advocating Nazi views on eugenics Conservative publisher Steve Forbes withdrew generous donations to Princeton after Singer was appointed professor of bioethics His belief that infanticide is sometimes morally justified has appalled people from all walks of life Peter Singer Under Fire gives a platform to his critics on many contentious issues Leaders of the disability rights group Not Dead Yet attack Singer's views on disability and euthanasia Economists criticize the effectiveness of his ideas for solving global poverty Philosophers expose problems in Singer's theory of utilitarianism and ethicists refute his position on abortion Singer's engaging Intellectual Autobiography explains how he came by his controversial views while detailed replies to each critic reveal further surprising aspects of his unique outlook      Natural Behavior Burton A. Weiss, 2018-06-30 Natural Behavior provides seminal insights into the evolution of animal and human behavior for enthusiasts of Comparative Psychology and Behavioral Biology Evolution and the behavior of the animal kingdom are discussed with new concepts on science learning and instinct and population phenomena Hominization interaction with Neanderthals how the brain evolved and the impact on the World are described with new views The origin of our scientific concepts and the trend away from the egocentric position placing humans at the center of the universe is considered along with the status of religion and how the fit with science is positive This volume carefully explains evolution and the central role of behavior in natural selection The range of animal behavior from single cells to people is covered as are topics like European settling of the New World first and the effects of humans on the planet      *Encyclopedia of Animal Rights and Animal Welfare* Marc Bekoff, 2009-11-25 A landmark publishing achievement on the subject the new edition of this acclaimed encyclopedia is expanded to two volumes covering the full range of issues related to animal protection Expanded to two volumes the comprehensively updated new edition Encyclopedia of Animal Rights and Animal Welfare Second Edition is an extraordinary publishing event It remains the only reference to cover the entire scope of

animal rights and welfare from a global interdisciplinary perspective with an international team of contributors assembled by Marc Bekoff covering animal treatment issues in the United States China India Kenya Australia and many other nations With a focused emphasis on fairness and justice for animals evident on every page Encyclopedia of Animal Rights and Animal Welfare Second Edition offers clear explanations of hot button topics like puppy mills endangered species in zoos no kill shelters dog fighting factory farming and disease veganism conservation ethics wildlife contraception and more The encyclopedia also explores a range of religious ethical and philosophical views on using animals as well as the latest research on animal cognition and sentience The work helps readers understand the different viewpoints of animal welfare advocates who want to improve conditions for animals and animal rights activists who don't want animals used at all Golden Gate University Law Review Golden Gate University. School of Law, 2006 **The Limbaugh Letter**, 2001 *Animal Rights* Lisa Yount, 2007 Praise for the previous edition an excellent first stop resource for research on animal rights well organized clearly written and a great starting point for research Recommended Choice comprehensive invaluable for reports on a popular current topic VOYA a very complete research guide that will be most useful at the high school and college level American Reference Books Annual The treatment of animals has become a controversial issue over the years with many questioning an animal's fundamental rights For some the issue of animal rights is merely an attempt to improve conditions of animals used for clothing food and other products while others believe animals should be granted the same legal rights afforded to humans Animal Rights Revised Edition provides an overview of the history of the animal rights movement and reactions to it as well as the issues of animal experimentation conditions on factory farms laboratory animals animals in entertainment hunting and the actions of those involved in the animal rights debate New content includes such documents as the Animal Enterprise Terrorism Act of 2006 and contemporary court cases such as Animal Legal Defense Fund v Glickman These documents provide both past and present perspectives on the issue and plot a course for future debate about animal rights A comprehensive and up to date overview essay capsule biographies a large annotated bibliography a chronology of significant events organization and agency listings and a glossary all combine to make this an ideal first stop reference to animal rights Coverage includes Whether medical testing performed on animals is ethical Whether animals should be banned from circuses and other forms of entertainment How threats against investors in companies that participate in animal drug testing should be handled **Primate to Primate** Kristina Cawthon, 2005 World Atlas of Great Apes and Their Conservation Julian Oliver Caldecott, Lera Miles, 2005 This comprehensive and authoritative review of the distribution and conservation status of Great Apes includes individual country profiles for each species and overview chapters on ape biology ecology and conservation challenges **Rescuing Ladybugs** Jennifer Skiff, 2018-08-01 Countless times throughout our lives we're presented with a choice to help another soul Rescuing Ladybugs highlights the true stories of remarkable people who didn't look away from seemingly impossible to change situations and instead worked to save animals Prepare to be

transported to Borneo to release orangutans Brazil to protect jaguars Africa to connect with chimpanzees and elephants the Maldives to free mantas and Indonesia the only place where dragons still exist in the wild      **The State of the Animals III, 2005** Deborah J. Salem, Andrew N. Rowan, 2005      **U.S. Organic Dairy Politics** B. Scholten, 2014-11-19 Based on a decade of study this book provides a scholarly overview of organic dairy politics showing how politics policy and protest both inside and outside of agriculture can determine a future of pastoral landscapes resembling an earlier time in the western world or alternatively one made of dystopian ruralities      **Encyclopedia of Animal Behavior: R-Z** Marc Bekoff, 2004 Entries examine a broad array of different species and behavior patterns using techniques that range from molecular approaches to the study of behavior to analyses of individuals populations species and ecosystems      *All Apes Great and Small* Biruté M.F. Galdikas, Nancy Erickson Briggs, Lori K. Sheeran, Gary L. Shapiro, Jane Goodall, 2006-04-11 Many of the papers in this volume were first presented at the Third International Great Apes of the World Conference held July 3 6 1998 in Kuching Sarawak Malaysia The editors of this volume the first in a two volume series are world renowned having dedicated most of their lives to the study of great apes The world's premiere primatologists ethologists and anthropologists present the most recent research on both captive and free ranging African great apes These scientists through deep personal commitment and sacrifice have expanded their knowledge of chimpanzees bonobos and gorillas With forests disappearing many of these studies will never be duplicated This volume and all in the *Developments in Primatology* book series aim to broaden and deepen the understanding of this valuable cause      *The Animals of Spain* Abel Alves, 2011-07-14 Writings from 1492 to 1826 reveal that the history of animals in the Spanish empire transcended the bullfight The early modern Spanish empire was shaped by its animal actors and authors from Cervantes to the local officials who wrote the *relaciones geográficas* were aware of this Nonhuman animals provided food clothing labor entertainment and companionship Functioning as allegories of human behavior nonhuman animals were perceived by Spanish and Amerindian authors alike as bearing some relationship to humans On occasion they even were appreciated as unique and fascinating beings Through empirical observation and metaphor some in the Spanish empire saw themselves as related in some way to other animals recognizing before Darwin a difference in degree rather than kind      *The International Encyclopedia of Primatology, 3 Volume Set* Agustín Fuentes, 2017-04-24 The International Encyclopedia of Primatology represents the first comprehensive encyclopedic reference focusing on the behaviour biology ecology evolution genetics and taxonomy of human and non human primates Represents the first comprehensive encyclopedic reference relating to primatology Features more than 450 entries covering topics ranging from the taxonomy history behaviour ecology captive management and diseases of primates to their use in research cognition conservation and representations in literature Includes coverage of the basic scientific concepts that underlie each topic along with the latest advances in the field Highly accessible to undergraduate and graduate students in primatology anthropology and the medical biological and zoological sciences Essential reference for academics researchers
