Grandpa Says Seeing Is Sometimes Believing:

Grandma Told Me to Never Believe Anything Grandpa Says Larry McCoy,2019-11-01 Larry McCoy believes in non stop fun and ice cream as every grandfather should He writes amusingly about adventures with his four grandkids on bikes skis diving boards and picnics from both his perspective and theirs McCoy won awards as a newsman but nothing has been as rewarding as hanging out with Nicholas Rachel Daniella and Cristiana Despite injuries and a pouty face or two the grandkids still speak to him Having saved them early on from the perils of parsley and pickles he wishes they would take his word that sweet potatoes are good for you **Grandpa Wouldn't Lie** Samuel D. Perry,2013-02-05 Grandpa Wouldn't Lie is the heartwarming story of a boy's relationship with his grandparents Through stories told by his grandfather the author learns not only his family heritage but important lessons about personal values and the meaning of life Although essential reading for members of the author's family this book has appeal for the general reader too The stories contained within it take the reader back to a time when life in the southern Appalachians was harsh and sometimes brutal However through the stories told by his grandfather the author learns that integrity and family honor can triumph in the face of unrelenting difficulties This is a book that will be read again and again by both young and old The reader will be long in forgetting it

The Insecure Mind of Sergei Kraev Eric Silberstein, 2021-08-05 Math is perfect people are not The year is 2100 and the chaos of the early Internet era is long behind us Mathematical proof ensures that neural implants can't be hacked and the Board of Reality Overseers blocks false information from spreading When undergraduate Sergei Kraev who dreams of becoming a professor is accepted into a prestigious graduate program in computer science he is thrilled and throws himself into his assigned research project one important enough that if he succeeds he'll earn the academic appointment of his choice But Sergei plagued by insecurity falls under the influence of Sunny Kim the beautiful and charismatic leader of a K pop cult Sergei then makes a decision that leads him into a terrifying trap and places the lives of billions at risk With the clock ticking towards catastrophe can Sergei escape and save the world Weaving together compelling characters and exotic locales *The Insecure Mind of Sergei Kraev* is a classic tale of love ambition and self interest building to a shattering finish Praise Where do we go from the global disinformation and pandemic of 2020 A history told from multiple voices an evocative projection of the world we may invent to protect us and the ways in which humans being human can game any system this is a fantastic read that I couldn't put down Cindy Alvarez I've read thousands of sci fi stories and the thing that stands out for me here is the originality it doesn't quickly fall into some typical genre or pay tribute to some other great novel This made it especially enjoyable it deserves to be read and enjoyed widely Bryan Gaensler PhD An absolutely riveting read a can't put down look at a world very much like our own but with all our trends fast forwarded Drew Hansen Sci fi isn't the genre that I usually gravitate towards but I'm honestly glad I stepped a bit out of my comfort zone It kept me hooked and I gobbled it down The tension was real and palpable The characters spoke with honest emotion and I cared about them Sergei is everyman without society's required hard masculine shell I loved him Roxanna Sue O Connor Review by Jeffrey Liss In so many ways the world Eric Silberstein shows in this debut novel is the one we all want the world we just know is coming It is a world of nice things where humans are online from birth not merely masters of our technology but finally universally enhanced and empowered by it Neural interfaces connect us to each other while protecting our privacy and gently compensating for our deficiencies Inside every utopia there's an unwelcome guest human nature What happens when a perfect world is inextricably linked to the minds of its imperfect creators Are we the reason we can't have nice things after all Has it always been this way Silberstein's answer is both an incisive critique and

jarring for its feeling of inevitability I loved and pitied Sergei for his innocence his brilliance and his ability to get lost in a crowd of his own thoughts For all his talents he suffers for want of what we all need to love and to be loved to feel a part of something lasting to make things better than they are Who am I to judge his mistakes Would I have done any better Like all great Sci Fi authors Silberstein entices us with a good story but holds up a mirror In the end I reached the conclusion I hope many other readers will enjoy reaching I am Sergei and I am why humanity can't have nice things **Believe Beyond**
