The Death of Homo Economicus Peter Fleming, 2017-09-20 In today's workplaces we work harder and longer labouring under the illusion that this will bring us more wealth As this myth becomes increasingly preposterous it's time to understand why we believe in it and where it came from The Death of Homo Economicus explores the origin of this oppressive myth in order to destroy it The story begins with the creation of a fake persona labelled the dollar hunting man invented by economists Adam Smith and Friedrich Hayek Today this persona driven by competition and ego is used by politicians and managers to draw a veil over the terrible reality of work under capitalism Creeping into all aspects of life the desire to constantly compete and accumulate must be resisted if we are to create a better way of life for all Lessons and Legacies VIII Peter Hayes, Holocaust Educational Foundation, 1991 In the courtroom and the classroom in popular media public policy and scholarly pursuits the Holocaust its origins its nature and its implications remains very much a matter of interest debate and controversy Arriving at a time when a new generation must come to terms with the legacy of the Holocaust or forever lose the benefit of its historical social and moral lessons this volume offers a richly varied deeply informed perspective on the practice interpretation and direction of Holocaust research now and in the future In their essays the authors an international group including eminent senior scholars as well those who represent the future of the field set the agenda for Holocaust studies in the coming years even as they give readers the means for understanding today's news and views of the Holocaust

whether in court cases involving victims and perpetrators international national and corporate developments or fictional documentary and historical accounts Several of the essays such as one on nonarmed amideh or resistance and others on the role of gender in the behavior of perpetrators and victims provide innovative and potentially significant interpretive frameworks for the field of Holocaust studies Others for instance the rounding up of Jews in Italy Nazi food policy in Eastern Europe and Nazi anti Jewish scholarship emphasize the importance of new sources for reconstructing the historical record Still others including essays on the 1964 Frankfurt trial of Auschwitz guards and on the response of the Catholic Church to the question of German guilt bring a new depth and sophistication to highly charged sharply politicized topics Together these essays will inform the future of the Holocaust in scholarly research and in popular understanding Publisher's description

Zygmunt Bauman and the West Jack Palmer,2023-07-15 Zygmunt Bauman was both an outsider of Western modernity and one of its foremost interpreters He was an exemplary figure in twentieth century intellectual work on exile who experienced both Nazi and Soviet forms of totalitarianism The first work to draw extensively on Bauman's personal archive Zygmunt Bauman and the West argues that the distinctive social thought that sprang from Bauman's lived experiences of exile amounts to a sustained sophisticated and hitherto unappreciated problematization of Eurocentrism and the West Through an overview of the intellectual's thought and his contribution to sociology Jack Palmer explores Bauman's experience and interpretation of the West and seeks to understand his work in a broader context outside of the Eurocentric environment from which it was born Intervening in a resurgent sociology of intellectuals Zygmunt Bauman and the West re-evaluates the place of the West in social and political thought

'A New Type of History' Beverley Southgate,2015-05-22 Linking fiction with history and historical theory A New Type of History Fictional Proposals for dealing with the Past focuses on a selection of nineteenth and twentieth century novelists Tolstoy Proust John Cowper Powys Virginia Woolf Wyndham Lewis Penelope Lively and James Hamilton Paterson who have criticized scientifically based history and proposed alternative ways of approaching the past more subjective and personal colourful and imaginative and above all ethically orientated In this it is argued they have been reverting to an earlier rhetorical model for history which is now being increasingly adopted by practising historians This new type of history may lack the claimed objectivity and truth of its immediate predecessor but it opens the way for an ethically focused subject that may be used in Nietzsche's words for the purpose of life Providing a new take on both novelists and historiography and ranging widely from the nineteenth century to the present day this cross disciplinary study will be valuable reading for all those interested in the intersection and interplay between fiction and history
