*Visualizing Law in the Age of the Digital Baroque* Richard K. Sherwin, 2011 Visualizing Law in the Age of the Digital Baroque explores the profound impact that visual digital technologies are having on the practice and theory of law Today lawyers judges and lay jurors face a vast array

of visual evidence and visual argument From videos documenting crimes and accidents to computer displays of their digital simulation increasingly the search for fact based justice inside the courtroom is becoming an offshoot of visual meaning making But when law migrates to the screen it lives there as other images do motivating belief and judgment on the basis of visual delight and unconscious fantasies and desires as well as actualities Law as image also shares broader cultural anxieties concerning not only the truth of the image but also the mimetic capacity itself the human ability to represent reality What is real and what is simulation This is the hallmark of the baroque when dreams fold into dreams like immersion in a seemingly endless matrix of digital appearances When fact based justice recedes laws proliferate within a field of uncertainty Left unchecked this condition of ontological and ethical uneasiness threatens the legitimacy of law e t m s claim to power Visualizing Law in the Age of the Digital Baroque offers a jurisprudential paradigm that is equal to the challenge that current cultural conditions present

**The Digital Image and Reality** Daniel Strutt, 2025-10-01 The media technologies that surround and suffuse our everyday life profoundly affect our relation to reality Philosophers since Plato and Aristotle have sought to understand the complex influence of apparently simple tools of expression on our understanding and experience of the world time space materiality and energy The Digital Image and Reality takes up this crucial philosophical task for our digital era This rich yet accessible work argues that when new visual technologies arrive to represent and simulate reality they give rise to nothing less than a radically different sensual image of the world Through engaging with post cinematic content and the new digital formats in which it appears Strutt uncovers and explores how digital image making is integral to emergent modes of metaphysical reflection to speculative futurism optimistic nihilism and ethical plasticity Ultimately he prompts the reader to ask whether the impact of digital image processes might go even beyond our subjective consciousness of reality towards the synthesis of objective actuality itself
