A History of Death in the Hebrew Bible Matthew Suriano, 2018-04-02 Postmortem existence in the Hebrew Bible Old Testament was rooted in mortuary practices and conceptualized through the embodiment of the dead But this idea of the afterlife was not hopeless or fatalistic consigned to the dreariness of the tomb The dead were cherished and remembered their bones were cared for and their names lived on as ancestors This book examines the concept of the afterlife in the Hebrew Bible by studying the treatment of the dead as revealed both in biblical literature and in the material remains of the southern Levant The mortuary culture of Judah during the Iron Age is the starting point for this study The practice of collective burial inside a Judahite rock cut bench tomb is compared to biblical traditions of family tombs and joining one's ancestors in death This archaeological analysis which also incorporates funerary inscriptions will shed important insight into concepts found in biblical literature such as the construction of the soul in death the nature of corpse impurity and the idea of Sheol In Judah and the Hebrew Bible death was a transition that was managed through the ritual actions of the living The connections that were forged through such actions such as ancestor veneration were socially meaningful for the living and insured a measure of immortality for the dead

The Archaeology of Israelite Society in Iron Age II Avraham Faust, 2012-06-01 Referring to several important introductory books written about the archaeology of the land of Israel William Dever once stated However adequate these may be as introductions to the basic data none makes any attempt to organize the data in terms of social structure This is a serious deficiency in Syro Palestinian and biblical archaeology when one considers that the general field of archaeology has been moving toward social archaeology for 20 years or more Dever Social Structure in Palestine in the Iron Age II Period on the Eve of Destruction in The Archaeology of Society in the Holy Land ed T E Levy London 1995 p 416 Lack of discussion of social questions has characterized the archaeology of the land of Israel for some time even though around the world these questions constitute an important component of archaeological research see for instance the work of Renfrew Flannery Gibbon Blanton Dark Bahn Hodder Trigger and many others The Archaeology of Israelite Society in Iron Age II fills this gap and analyzes the structure of society in the ancient kingdoms of Israel and Judah from an archaeological viewpoint It also applies models and theories from the field of social and cognitive archaeology using the tools of various social science disciplines anthropology sociology economics geography and so on Due to his ability to use what is probably the largest archaeological data set in the world hundreds of planned excavations thousands of salvage excavations and extensive surveys all from the small region that was ancient Israel Avi Faust contributes not only to the study of ancient Israelite society but to the most fundamental questions about ancient societies These questions include the identification of socioeconomic stratification in the archaeological record the study of family and community organization the significance of pottery small finds and architecture as indicators of wealth and more This groundbreaking monograph is one of the first attempts at a large scale study of Israelite society based primarily on the archaeological evidence The following acknowledgments were inadvertently omitted from the front matter of the volume Amihai Mazar figure 31 Amnon Ben Tor figures 40 41 Israel Antiquities Authority figures 21 24 25 26 29 30 32 33 36 and Photo 5 Israel Exploration Society figures 11 13 15 17 18 19 27 42 Israel Finkelstein figure 28 Izhak Beit Arie figures 34 35 Shimon Dar figures 22 23 The Institute of Archaeology Tel Aviv University figures 7 8 The Institute of Archaeology the Hebrew University figures 40 41 Zeev Herzog figures 6 9 10 12 14 16 20

Judaism and Hellenism in Antiquity Lee I. Levine,2012-03-01 Generations of scholars have debated the influence of Greco Roman culture on Jewish society and the degree of its impact on Jewish material culture and religious practice in Palestine and the Diaspora of antiquity *Judaism and Hellenism in Antiquity* examines this phenomenon from the aftermath of Alexander s conquest to the Byzantine era offering a balanced view of the literary epigraphical and archeological evidence attesting to the process of Hellenization in Jewish life and its impact on several aspects of Judaism as we know it today Lee Levine approaches this broad subject in three essays each focusing on diverse issues in Jewish culture Jerusalem at the end of the Second Temple period rabbinic tradition and the ancient synagogue With his comprehensive and thorough knowledge of the intricate dynamics of the Jewish and Greco Roman societies the author demonstrates the complexities of Hellenization and its role in shaping many aspects of Jewish life economic social political cultural and religious He argues against oversimplification and encourages a more nuanced view whereby the Jews of antiquity survived and prospered despite the social and political upheavals of this era emerging as perpetrators of their own Jewish traditions while open to change from the outside world

Land of Our Fathers Francesca Stavrakopoulou,2011-04-17 The biblical motif of a land divinely promised and given to Abraham and his descendants is argued to be an ideological reflex of post monarchic territorial disputes between competing socio religious groups The important biblical motif of a Promised Land is founded upon the ancient Near Eastern concept of

ancestral land hereditary space upon which families lived worked died and were buried An essential element of concept of ancestral land was the belief in the post mortem existence of the ancestors who were venerated with grave offerings mortuary feasts bone rituals and standing stones The Hebrew Bible is littered with stories concerning these practices and beliefs yet the specific correlation of ancestor veneration and certain biblical land claims has gone unrecognized The book remedies this in presenting evidence for the vital and persistent impact of ancestor veneration upon land claims It proposes that ancestor veneration which formed a common ground in the experiences of various socio religious groups in ancient Israel became in the Hebrew Bible an ideological battlefield upon which claims to the land were won and lost **Viewing**

Ancient Jewish Art and Archaeology Ann Killebrew, Gabriele Faßbeck, 2015-11-02 In honor of eminent archaeologist and historian of ancient Jewish art Rachel Hachlili friends and colleagues offer contributions in this festschrift which span the world of ancient Judaism both in Palestine and the Diaspora Hachlili s distinctive research interests synagogues burial sites and Jewish iconography receive particular attention in the volume Archaeologists and historians present new material evidence from Galilee Jerusalem and Transjordan contributing to the honoree s fields of scholarly study Fresh analyses of ancient Jewish art essays on architecture historical geography and research history complete the volume and make it an enticing kaleidoscope of the vibrant field of scholarship that owes so much to Rachel *“Follow the Wise”* Zeev Weiss, Oded Irshai, Jodi Magness, Seth Schwartz, 2010-06-30 In 1961 when Lee Israel Levine graduated from both Columbia College in New York majoring in philosophy and Jewish Theological Seminary majoring in Talmud this accomplishment was only a precursor to the brilliant career that would follow While researching his Columbia University dissertation in Jerusalem Levine established close ties with members of the Institute of Archaeology at Hebrew University and Prof Yigael Yadin who recognized the need for an interdisciplinary approach that would give graduate archaeology students a solid base in Jewish history and rabbinic sources to supplement their archaeological training Levine accepted Yadin s invitation to return to Israel after graduation to teach at the Institute of Archaeology and later was granted a joint appointment in the Institute of Archaeology and the Department of Jewish History In 1985 he was promoted to the rank of Full Professor and since 2003 he has held the Rev Moses Bernard Lauterman Family Chair in Classical Archaeology at the Hebrew University Levine was instrumental in founding and developing the TALI an acronym for Tigbur Limudei Yahadut Enriched Jewish Studies track of Israel s state school system He was also a founding member of the Seminary of Judaic Studies in Jerusalem now known as the Schechter Institute for Jewish Studies which opened its doors in 1984 In addition to teaching Lee headed the Schechter Institute first as dean and then as president from 1987 to 1994 Lee was an active member of the Masorti Movement in Israel and represented it abroad as Director of the Foundation for Masorti Judaism 1986 87 and Vice Chancellor of Israel Affairs at the Jewish Theological Seminary 1987 94 The honoree has published 12 monographs 11 edited or coedited volumes and 180 articles His scholarship encompasses a broad range of topics relating to ancient Judaism especially archaeology rabbinic

studies and Jewish history Within these disciplines he has dealt with a variety of subfields including ancient synagogues and liturgy ancient Jewish art Galilee Jerusalem Hellenism and Judaism and the historical geography of ancient Palestine He is one of the first major scholars to draw on and integrate data from all of these fields in order to afford a better understanding of ancient Judaism The 32 contributions to this volume by 35 authors are a tribute to his influence on this field of study and reflect the broad spectrum of his own interests The 26 English and 6 Hebrew essays are divided into sections on Hellenism Christianity and Judaism art and archaeology Jerusalem and Galilee rabbis the ancient synagogue sages and patriarchs and archaeology art and historical geography *Children in the Ancient Near Eastern Household* Kristine Garroway, 2014-10-21 Children were an important part of the ancient Near Eastern household This idea seems straightforward but it can be understood in many ways On a basic level children are necessary for the perpetuation of a household On a deeper level the definitions of child and member of the household are far from categorical This book begins to explore the multiple definitions of child and the way the child fits within a household It examines what membership in the household looks like for children and what factors contribute to it A study addressing what a child is and how a child's gender and social status affect her place in the household is vital to a proper understanding of the ancient Near Eastern household Despite their importance children have long been marginalized in discussions of ancient societies Only recently has this trend begun to change within biblical and ancient Near Eastern scholarship A recent wave of studies especially in relation to the Hebrew Bible has started to address children in their own right In light of the current state of scholarship on children the purpose of this book is threefold First Garroway continues to fill out the picture of the child in the ancient Near East by compiling child centric texts and archaeological realia In analyzing these materials she surveys the relationship between children and ancient Near Eastern society by examining the extent to which structuring forces in a community such as social status and gender contribute to the process of a child's becoming a member of his household and society Finally this information provides a base for future research for example a cross cultural study of children in the ancient Near East in Classical Antiquity

Scribbling through History Chloé Ragazzoli, Ömür Harmansah, Chiara Salvador, Elizabeth Froom, 2018-05-31 For most people the mention of graffiti conjures up notions of subversion defacement and underground culture Yet the term was coined by classical archaeologists excavating Pompeii in the 19th century and has been embraced by modern street culture graffiti have been left on natural sites and public monuments for tens of thousands of years They mark a position in time a relation to space and a territorial claim They are also material displays of individual identity and social interaction As an effective socially accepted medium of self definition ancient graffiti may be compared to the modern use of social networks This book shows that graffiti a very ancient practice long hidden behind modern disapproval and street culture have been integral to literacy and self expression throughout history Graffiti bear witness to social events and religious practices that are difficult to track in normative and official discourses This book addresses graffiti practices in cultures ranging from

ancient China and Egypt through early modern Europe to modern Turkey in illustrated short essays by specialists It proposes a holistic approach to graffiti as a cultural practice that plays a key role in crucial aspects of human experience and how they can be understood **Ancient West & East** G.R. Tsetschladze, 2021-11-15 **King Herod: A Persecuted Persecutor**

Aryeh Kasher, 2008-09-25 The enigma of King Herod as a cruel bloodthirsty tyrant on the one hand and a great builder on the other is discussed in a systematic modern historical and psychological study It seeks to unravel the contradictory historic mystery of the man and his deeds After A Schalit's King Herodes this study is a new comprehensive pioneering study on the intriguing personality of Herod also using the insights of psychology Herod's mental state reached an acute level consistent with the DSM IV diagnosis for Paranoid Personality Disorder He grew up with an ambiguous identity and suffered from feelings of inferiority Haunted by persecutory delusions he executed almost any suspect of treason including his wife and three sons The Hebrew original text was Winner of the Ya'akov Bahat Prize for Non Fiction Hebrew Literature for 2006

Herod's Judaea Samuel Rocca, 2008 Samuel Rocca analyzes the Herodian society The most important facet of his analysis is the relationship between Herod as ruler and the Jewish subjects over whom he ruled The author contends that Herod though a Jewish ruler regarded both Alexander the Great the embodiment of the Hellenistic ruler and Augustus as ideal models who were worthy of imitation In fact Herod pushed Judaea towards major Hellenization albeit with many elements more akin to Rome The author's research therefore is not a biographical study of King Herod Instead it deals with Herod as the head of Jewish society in Judaea It is first and foremost a study of Herodian society Thus the author analyzes the Herodian ideology of rule the court the army the administration the economy the ruling political bodies the city as microcosm the religion and the burial customs Book Jacket Web of Life Galit Hasan-Rokem, 2000 Web of Life weaves its suggestive interpretation of Jewish culture in the Palestine of late antiquity on the warp of a singular breathtakingly tragic and sublime rabbinic text Lamentations Rabbah The textual analyses that form the core of the book are informed by a range of theoretical paradigms rarely brought to bear on rabbinic literature structural analysis of mythologies and folktales performative approaches to textual production feminist theory psychoanalytical analysis of culture cultural criticism and folk narrative genre analysis The concept of context as the hermeneutic basis for literary interpretation reactivates the written text and subverts the hierarchical structures with which it has been traditionally identified This book reinterprets rabbinic culture as an arena of multiple dialogues that traverse traditional concepts of identity regarding gender nation religion and territory The author's approach is permeated by the idea that scholarly writing about ancient texts is invigorated by an existential hermeneutic rooted in the universality of human experience She thus resorts to personal experience as an idiom of communication between author and reader and between human beings of our time and of the past This research acknowledges the overlap of poetic and analytical language as well as the language of analysis and everyday life In eliciting folk narrative discourses inside the rabbinic text the book challenges traditional views about the social basis that engendered

these texts It suggests the subversive potential of the constitutive texts of Jewish culture from late antiquity to the present by pointing out the inherent multi vocality of the text adding to the conventionally acknowledged synagogue and academy the home the marketplace and other private and public socializing institutions
