Creation and Salvation: A companion on recent theological movements E. M. Conradie,2012 Christians trying to save the planet have to relate creation with salvation This volume explores the ways in which this task is approached by a wide range of recent theological movements *Doctrine in Shades of Green* Andrew J. Spencer,2022-01-13 How we come to our

conclusions about ethical issues matters as much as the specific policies or practices we commend This book argues that four key doctrines form a theological perspective for environmental ethics They are the key ideas upon which people build their ethics of the environment By looking at the doctrines of revelation creation anthropology and eschatology we can find points of contact to work together more effectively for the common good and have more meaningful debates when our positions differ This book uses examples from four different theological positions ecotheology theological liberalism fundamentalism and evangelicalism to show that a creation positive ethic is possible from all of these positions and it explores why people who stand within various theological streams may engage in environmental issues in diverse ways

Before God George W. Stroup,2004 Many Christians today have experienced a loss of enormous significance they no longer understand their daily lives to be lived before God This timely work traces the development and implications of this loss and argues for its recovery In comparing contemporary Christians with believers of previous eras author George Stroup sees an eclipse of life lived before God This eclipse is tragic because the Bible presupposes human life as a daily personal relationship with God Stroup here offers help by exploring anew the biblical view that Jesus Christ models most clearly what life lived before God and neighbor looks like He then suggests that describing Christian life as gratitude naturally evokes a sense of life lived before God The book concludes by examining whether life before God requires a sense of God s presence and whether it is possible to live before God even in those times when he seems to be absent Offering thought provoking analysis of modern faith and sound direction for spiritual renewal Before God is perfect for churches study groups pastors and individuals pursuing genuine discipleship *Manifestations of Grace* Elizabeth Dreyer,1990 This lively and wonderful book probes the presence of grace Grace is everywhere garners the timeless teachings of the New Testament and theologians and discusses grace in the light of contemporary beliefs and needs

The Eloquence of Grace James M. Childs Jr.,Richard Lischer,2012-10-12 Joseph A Sittler 1904 1987 was one of the most influential theologians of the twentieth century distinguished for his pioneering work in ecology and for his preeminence as a preacher He gave both the Beecher Lectures at

Yale and the Noble Lectures at Harvard As the preacher's theologian Sittler approached the interpretation of Scripture with a clear understanding of current critical scholarship but also in the freedom of the gospel at the center of Scripture and with the humility of a theologian of the cross In following the trajectory of the text into the preaching situation he gave a lively timeless and eloquent expression to the fact that the interpretation of texts is in the service of proclamation This collection of readings from Sittler's rich legacy contains a great many presentations and sermons that have never before appeared in print Theologically serious preaching close attention to language engagement with the best of sacred and secular culture and a deep respect for the text all characteristics of Sittler's work are the sort of features that continue to edify They remain as benchmarks for good preaching even as styles and contexts evolve

Evocations of Grace Joseph Sittler, 2000 Foreword by Martin E Marty As early as 1954 well before such popular books as Rachel Carson's *Silent Spring* the influential Lutheran theologian Joseph Sittler wrote on the need to think about a theology for earth Perhaps most famous for his eloquent and provocative address *Called to Unity* given at the 1961 World Council of Churches in New Delhi Sittler prophetically and insistently gave voice to what he called ecological commitment as theological responsibility *Evocations of Grace* introduces a new generation of readers to the thought of Joseph Sittler Gathering ten of Sittler's seminal works foundational to the field yet unavailable until now the volume conveys Sittler's powerful argument for the vital connection between Christian theology ethics and the natural world In an area where so much writing tends to be drearily repetitious Sittler even forty years later remains a fresh voice His proposal for a cosmic christology and his clarion call for the care of the earth continue to shape current eco theological reflection The book also includes a comprehensive Sittler bibliography and original essays by editors Steven Bouma Prediger and Peter Bakken that assess Sittler's pioneering contribution to environmental ethics Intended for anyone interested in the relationship between Christian faith and the environment *Evocations of Grace* provides the necessary perspective for thinking seriously about the earth and our responsibility to it

Development and Justice Rajula Annie Watson, 2004 Restoring the health of the land is indispensable not only because it is the ground of our sustenance and survival but also land has in itself the inherent worth This book challenges humanity's indulgence and activities of development science and technology and insists for human responsibility and moral duties towards the land the sustaining mother earth which is abused ransacked of its wealth and ignored of its intrinsic value The study attempts to bring together perspectives and values that are important for preserving the rights of the land and proposes the contour of a land ethic

Reconstructing a Christian Theology of Nature Anna Case-Winters, 2016-04-08 In the present ecological crisis it is imperative that human beings reconsider their place within nature and find new more responsible and sustainable ways of living Assumptions about the nature of God the world and the human being shape our thinking and consequently our acting Some have charged that the Christian tradition has been more a hindrance than a help because its theology of nature has unwittingly legitimated the exploitation of nature This book takes the current criticism of Christian tradition to heart and invites a reconsideration of the problematic elements its desacralization of nature its preoccupation with the human being to the neglect of the rest of nature its dualisms and elevation of the spiritual over material reality and its habit of ignoring or resisting scientific understandings of the natural world Anna Case Winters argues that Christian tradition has a more viable theology of nature to offer She takes a look at some particulars in Christian tradition as a way to illustrate the undeniable problems and to uncover the untapped possibilities In the process she engages conversation partners that have been sharply critical and particularly insightful feminist theology process thought and the religion and science dialogue The criticisms and insights of these partners help to shape a proposal for a reconstructed theology of nature that can more effectively fund our struggle for the fate of the earth

Diehl, 2001-09-11 Why is Christian faithfulness virtually invisible in American society today Where are God's faithful people and what do they look like In an effort to answer these questions William E.
