3,000 Years of Love David Loye, 2007-08 Biography adventure social action In this book I have brought together a private and a public story within the larger story of the lives of all of us Some may say that as convention dictates I should have kept the three stories properly apart I can only answer that love in its actuality rather than the pale mirroring usually allowed us knows no such boundaries And surely if ever stories of love across the boundaries that shut us off from one another are needed it is in our world today So begins this remarkable story of the romance return to Minoan Crete and adventures in Greece Italy Germany Africa pioneering involvement in 20th and 21st century science and social action and award winning books of Riane Eisler and David Loye We go behind the international best seller *The Chalice and the Blade* *The Power of Partnership* and *The Real Wealth of Nations* into the drama of the holocaust survivor and thinker who has been called *The New Renaissance Woman* and One of the most important visionaries of our time We go behind the award winning *The Healing of a Nation* recovery of the rest and best of Darwin's theory of evolution in the new six book Darwin Anniversary Cycle by a noted developer of the new field of evolutionary systems science and the creative explosion of 20 new books by Loye at age 82 This dual biography provides an unusually inspiring humorous and appealing guide to Eisler and Loye's work as writers to globally advance the women's human rights civil rights progressive science and partnership movements globally

Measuring Evolution David Loye, 2006-12 Second in a series of six new books for a Darwin Anniversary Book Cycle *Measuring Evolution A User's Guide to the Health and Wealth of Nations* tells the inspiring story of the development and provides a guide to the use of the Global Sounding This is a new instrument for measuring our local national and planetary health and well being on 15 basic indicators of evolution Of widespread prospective interest is the fact that for the first time this new measure bridges what both progressive scientists and progressive religious leaders increasingly view as a socially economically politically and morally disastrous gap between science and spirituality With hundreds of studies of evolution by natural social and systems scientists behind it the Global Sounding has been designed to provide a relatively simple new way of measuring the impact of our human actions or inactions on the range from cosmic chemical and biological evolution through the evolution of the brain into the spread of cultural evolution through personal social economic political educational and technological into moral and spiritual evolution capped by the evolution of consciousness and personal and social action to change our world for the better The name for the

new measure comes from Darwin's famous voyage of the Beagle the ship originally commissioned to circle the world to obtain soundings indicating peaceful harbors and safe channels for navigation The book is animated by colorful engaging and often humorous stories to illustrate how the new measure can be put to use by progressives during the customary behind scenes battles with advocates for the status quo or regressives in key decision making situations that determine whether we move ahead are checked in place or shoved backward in evolution Along with illustrative test matrixes for each of the following situations the Global Sounding has been designed to advance the successful advocacy of and motivation for globally responsible programs practices and policies by decision makers in business government politics science education foundations religions and the media The author David Loye is an internationally known evolutionary systems scientist and author of the award winning The Healing of a Nation Titles for further books in the new series are Darwin's Lost Theory Darwin on Love The Derailing of Evolution and Telling the New Story first for a series of books by leading world educators on how to globally shift from the old to the new Darwinian model in schools and the media In addition to more information on the Darwin Anniversary Book Cycle the website for the publisher www.benjaminfranklinpress.com provides a marketing analysis of prospective appeal to readers in editions for other languages in Europe Asia and South as well as North America The publisher has also launched an online Darwin Anniversary Report www.darwinanniversary.com to provide a central news source for scores of events now underway around the world during the current global buildup for the 200th Anniversary of Darwin's birth

Psychological Perspectives on Reality, Consciousness and Paranormal Experience Tony Jinks, 2019-10-03 This book explores various explanatory frameworks for paranormal encounters It opens with the story of an inexplicable human figure seen crossing a secluded hotel corridor interpreted as a ghost by the sole witness The subsequent chapters explore the three most important historical perspectives accounting for this and other types of paranormal experience Each perspective is examined from first principles with specific reference to what happened in the corridor how it happened why it happened and who might be responsible The first perspective considers the experience to be legitimate to be something real and various possibilities are presented that are grounded in the paranormal and parapsychological literature among which a ghost is one putative explanation In turn the second perspective treats the experience as being wholly illegitimate With reference to psychological theory the ghost sighting is a product of erroneous consciousness The third perspective is different yet again and considers the sighting to be authentic but argues that explaining the ghost requires a radical departure from conventional models of reality and consciousness By contrasting these three paths the book provides a valuable resource for readers interested in the philosophical and psychological origins of explanations for paranormal experiences from the 19th century to the present It will appeal to general readers in addition to students and scholars of parapsychology anomalistic psychology and consciousness studies Everyday Creativity and the Healthy Mind Ruth

The Great Turning David C. Korten, 2006-05-14 The international bestselling author shares a compelling devastating and ultimately profoundly hopeful guide to navigating our global future Van Jones Executive Director The Ella Baker Center for Human Rights David Korten argues that corporate consolidation of power is merely a contemporary manifestation of what he calls Empire the organization of society by hierarchies of domination Increasingly destructive on every level the way of Empire is leading to environmental and social collapse We now face a mounting perfect storm of climate change peak oil and the financial instability inherent in an unbalanced global trading system In The Great Turning Korten makes the case that we must change course and choose a new future as a conscious collective act We cannot avoid the unraveling We can however turn a potentially terminal crisis into an epic opportunity to bring forth a new era of Earth Community grounded in the life affirming values of ecological integrity economic justice community and democracy The Great Turning is an essential resource for those who understand this need and are prepared to engage what Thomas Berry calls the Great Work
