Great Black Men Of Masonry:

Great Black Men of Masonry Joseph Cox, 2002-05-09 Historians and biographers agree history is the record and the achievement of great men Both groups acknowledge the history of Prince Hall Freemasonry as the history of the struggling rising and advancing black men in America and in the process uplifting humanity Here the evidence is documented and speaks to all humanity worldwide This being the most eloquent testimony to the indomitability of the human spirit Indisputable evidence that the minds and hands of black people have enlarged the minds and enriched the souls of the world's people *Great Black Men of Masonry 1723-1982* Joseph Mason Andrew Cox, 1987 **Great Black Men of Masonry, 1723-1987** Joseph Mason Andrew Cox, 1987 **In The Company Of Black Men** Craig Steven Wilder, 2002-02-01 Traces the development of African American community traditions over three centuries From the subaltern assemblies of the enslaved in colonial New York City to the benevolent New York African Society of the early national era to the formation of the African Blood Brotherhood in twentieth century Harlem voluntary associations have been a fixture of African American communities In the Company of Black Men examines New York City over three centuries to show that enslaved Africans provided the institutional foundation upon which African American religious political and social culture could flourish Arguing that the universality of the voluntary tradition in African American communities has its basis in collectivism a behavioral and rhetorical tendency to privilege the group over the individual it explores the institutions that arose as enslaved Africans exploited the potential for group action and mass resistance Craig Steven Wilder's research is particularly exciting in its assertion that Africans entered the Americas equipped with intellectual traditions and sociological models that facilitated a communitarian response to oppression Presenting a dramatic shift from previous work which has viewed African American male associations as derivative and imitative of white male counterparts In the Company of Black Men provides a ground breaking template for investigating antebellum black institutions *National Imaginaries, American Identities* Larry J. Reynolds, Gordon Hutner, 2021-03-09 From the American Revolution to the present the United States has enjoyed a rich and persuasive visual culture These images have constructed sustained and disseminated social values and identities but this unwieldy sometimes untidy form of cultural expression has received less systematic attention than other modes of depicting American life Recently scholars in the humanities have developed a new critical approach to reading images and the cultural work they perform This practice American cultural iconography is generating sophisticated analyses of how images organize our public life The contributions to this volume exhibit the extraordinary scope and interpretive power of this interdisciplinary study while illuminating the dark corners of the nation's psyche Drawing on such varied texts and visual media as daguerreotypes political cartoons tourist posters and religious artifacts these essays explore how pictures and words combine to teach us who we are and who we are not They examine mimesis in elegant portraits of black Freemasons industrial age representations of national parks and postwar photographs of atomic destruction They consider how visual

culture has described and disclosed the politics of racialized sexuality whether subconsciously affirming it in the shadows of film noir or deliberately contesting it through the interethnic incest of John Sayles's *Lone Star* Students of literature film and history will find that these essays extend the frontier of American studies The contributors are Maurice Wallace Dennis Berthold Alan Trachtenberg Shirley Samuels Jenny Franchot Cecelia Tichi Eric Lott Bryan C Taylor and Jos E Lim n

Ebony, 1983-01 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine [Black and White Masculinity in the American South, 1800-2000](#) Sergio Lussana, Lydia Plath, 2009-10-02 This book consists of a range of essays written by historians and literary critics which examine the historical construction of Southern masculinities rich and poor white and black in a variety of contexts from slavery in the antebellum period through the struggle for Civil Rights right up to the recent South Building on the rich historiography of gender and culture in the South undertaken in recent years this volume aims to highlight the important role Southern conceptions of masculinity have played in the lives of Southern men and to reflect on how masculinity has intersected with class race and power to structure the social relationships between blacks and whites throughout the history of the South The volume highlights the multifaceted nature of Southern masculinities demonstrating the changing ways black and white masculinities have been both imagined and practised over the years while also emphasizing that conceptions of black and white masculinity in the American South rarely seem to be divorced from wider questions of class race and power **Proceedings of the M. W. Grand Lodge of Washington, Free and Accepted**

Masons Freemasons. Grand Lodge of Washington, 1899 [African American Authors, 1745-1945](#) Emmanuel S. Nelson, 2000-01-30 There has been a dramatic resurgence of interest in early African American writing Since the accidental rediscovery and republication of Harriet Wilson's *Our Nig* in 1983 the works of dozens of 19th and early 20th century black writers have been recovered and reprinted There is now a significant revival of interest in the Harlem Renaissance of the 1920s and in the last decade alone several major assessments of 18th and 19th century African American literature have been published Early African American literature builds on a strong oral tradition of songs folktales and sermons Slave narratives began to appear during the late 18th and early 19th century and later writers began to engage a variety of themes in diverse genres A central objective of this reference book is to provide a wide ranging introduction to the first 200 years of African American literature Included are alphabetically arranged entries for 78 black writers active between 1745 and 1945 Among these writers are essayists novelists short story writers poets playwrights and autobiographers Each entry is written by an expert contributor and provides a biography a discussion of major works and themes an overview of the author's critical reception and primary and secondary bibliographies The volume concludes with a selected general bibliography

and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 [Abolition and Antislavery](#) Peter Hinks, John McKivigan, 2015-07-14 The clearly and concisely written entries in this reference work chronicle the campaign to end human slavery in the United States bringing to life the key events leading figures and socioeconomic forces in the history of American antislavery abolition and emancipation The struggle to abolish human slavery is one of the most important reform campaigns in history The eventual success of this decades long struggle serves as an inspiring example that even the most deeply rooted social wrongs can be corrected This valuable reference work details the history of antislavery abolition and emancipation to illustrate the various forms of these forces and the courses they followed in the bitterly contested struggle against the institution of slavery affording readers the most current compendium of the diverse scholarship of this important historical topic Geared toward readers seeking to learn about antislavery and abolition in U S or African American history *Abolition and Antislavery A Historical Encyclopedia of the American Mosaic* addresses a period of particular significance the years that shaped the sectional debates leading up to the Civil War The coverage encompasses both white abolitionists such as Theodore Dwight Weld and William Lloyd Garrison and black abolitionists such as Frederick Douglass Martin Delaney and Sojourner Truth Each alphabetically organized entry contains cross references as See Also at the end of each entry text An introductory essay ensures that all readers have a clear framework for understanding the subject regardless of their previous background knowledge [Manliness and Its Discontents](#) Martin Summers, 2005-12-15 In a pathbreaking new assessment of the shaping of black male identity in the early twentieth century Martin Summers explores how middle class African American and African Caribbean immigrant men constructed a gendered sense of self through organizational life work leisure and cultural production Examining both the public and private aspects of gender formation Summers challenges the current trajectory of masculinity studies by treating black men as historical agents in their own identity formation rather than as screens on which white men projected their own racial and gender anxieties and desires *Manliness and Its Discontents* focuses on four distinct yet overlapping social milieus the fraternal order of Prince Hall Freemasonry the black nationalist Universal Negro Improvement Association or the Garvey movement the modernist circles of the Harlem Renaissance and the campuses of historically black Howard and Fisk Universities Between 1900 and 1930 Summers argues dominant notions of what it meant to be a man within the black middle class changed from a Victorian ideal of manliness characterized by the importance of producer values respectability and patriarchy to a modern ethos of masculinity which was shaped more by consumption physicality and sexuality Summers evaluates the relationships between black men and black women as well as relationships among black men themselves broadening our understanding of the way that gender works along with class sexuality and age to shape identities and produce relationships of power **Black Leadership for Social Change** Jacob U. Gordon, 2000-08-30 This book presents a

comprehensive overview of Black leadership in every aspect of American life including movements for social justice education business and politics In the quest for human rights and social advancement African American leaders have emerged to lead the fight to overcome racial and economic barriers This struggle has influenced the exercise of Black leadership in many other areas and the author uses an interdisciplinary approach to reveal the changes continuities and variety of African American approaches to effective leadership The book also suggests a theoretical framework for future research on the impact of Black leadership in America A wide range of issues are considered in this volume beginning with the definition of leadership and the concept of Black leadership Gordon then considers outstanding examples of Black leadership in contemporary America in a variety of fields Scholars and students in history political science and ethnic studies will find this an important resource for understanding Black leadership and its impact on American life *Equal Rites* Clyde R. Forsberg (Jr.), 2004 Both the Prophet Joseph Smith and his Book of Mormon have been characterized as ardently indeed evangelically anti Masonic Yet in this sweeping social cultural and religious history of nineteenth century Mormonism and its milieu Clyde Forsberg argues that masonry like evangelical Christianity was an essential component of Smith s vision Smith s ability to imaginatively conjoin the two into a powerful and evocative defense of Christian or Primitive Freemasonry was Forsberg shows more than anything else responsible for the meteoric rise of Mormonism in the nineteenth century This was to have significant repercussions for the development of Mormonism particularly in the articulation of specifically Mormon gender roles Mormonism s unique contribution to the Masonic tradition was its inclusion of women as active and equal participants in Masonic rituals Early Mormon dreams of empire in the Book of Mormon were motivated by a strong desire to end social and racial discord lest the country fall into the grips of civil war Forsberg demonstrates that by seeking to bring women into previously male exclusive ceremonies Mormonism offered an alternative to the male dominated sphere of the Master Mason By taking a median and mediating position between Masonry and Evangelicism Mormonism positioned itself as a religion of the people going on to become a world religion But the original intent of the Book of Mormon gave way as Mormonism moved west and the temple and polygamy indeed the quest for empire became more prevalent The murder of Smith by Masonic vigilantes and the move to Utah coincided with a new imperialism and a new polygamy Forsberg argues that Masonic artifacts from Smith s life reveal important clues to the precise nature of his early Masonic thought that include no less than a vision of redemption and racial concord Encyclopedia of Antislavery and Abolition Peter Hinks, John McKivigan, 2006-11-30 The emergence of a sophisticated antislavery ideology and the rise of organized opposition to slavery in the Atlantic World in the eighteenth and nineteenth centuries represented nothing less than one of the great intellectual and social revolutions in the history of the world An institution which by the early eighteenth century was near axiomatically accepted as necessary useful and thoroughly in accord with Judaeo Christian tenets and virtues and which profoundly informed the lives of millions of people had by the mid nineteenth century come increasingly to be viewed as the chief vector

of evil and the Devil in the world the very quintessence of evil as some called it and the chief repository of all that was socially politically and especially economically archaic and stagnant This encyclopedia is organized around three principal concerns the illustration and explication of the various forms of antislavery and its emergence as an organized movement the immediate precipitants of abolition and the processes of its passage and the enactment of emancipation and its consequences While the earliest expressions of antislavery may have only comprised one or a few isolated voices the antislavery most commonly reviewed here is that animated by a systematic and ardent opposition to slavery and intended to mobilize large numbers of people to attack and end the institution A wide variety of people and organizations nurtured and extended this antislavery religious figures political economists slaves sailors artisans missionaries planters captains of slave ships democratic enthusiasts and others were all involved along with the various organizations secular religious or otherwise with which they were associated Antislavery was by no means exclusively or even principally the work of an intellectual elite and the force of all from the lowly and unlearned to the privileged and prominent is represented The presence of slavery continued to be attacked in the contracting Ottoman Empire in the early twentieth century in Liberia in the 1930s in Saudi Arabia in the mid twentieth century and even in the latter years of the century in countries like Sudan Pakistan India and others in Southeast Asia The entries have a worldwide focus covering antislavery movements and important developments in slavery abolition and slave emancipation in many places around the globe Other entries cover individuals groups events documents and organizations related to the history of abolition and emancipation over the last two centuries Coverage also address a wide range of topics issues and ideas related to the broad topic of ending historical systems of slavery and human bondage Besides over 400 cross referenced entries most of which conclude with lists of additional readings the encyclopedia also includes an Introduction tracing the history of abolition and emancipation a selected general bibliography a guide to related topics numerous illustrations and a detailed subject index

The Men of Mobtown Adam Malka, 2018-03-22 What if racialized mass incarceration is not a perversion of our criminal justice system's liberal ideals but rather a natural conclusion Adam Malka raises this disturbing possibility through a gripping look at the origins of modern policing in the influential hub of Baltimore during and after slavery's final decades He argues that America's new professional police forces and prisons were developed to expand not curb the reach of white vigilantes and are best understood as a uniformed wing of the gangs that controlled free black people by branding them and treating them as criminals The post Civil War triumph of liberal ideals thus also marked a triumph of an institutionalized belief in black criminality Mass incarceration may be a recent phenomenon but the problems that undergird the new Jim Crow are very very old As Malka makes clear a real reckoning with this national calamity requires not easy reforms but a deeper more radical effort to overcome the racial legacies encoded into the very DNA of our police institutions
