**Revisited** Thomas G. Alexander, 2014-05-13 This book poses issues about land use and settlement in the West explores the myths surrounding irrigation and reflects aspects of the Mormon Western experience **Great Basin Kingdom** Leonard J. Arrington, 2005 Leonard Arrington who died in 1999 is considered by most if not all serious scholars of Mormon and western history as the single most important figure to write on LDS history *Great Basin Kingdom* is perhaps his greatest work A classic in Mormon studies and western history *Great Basin Kingdom* offers insights into the underdeveloped American economy a comprehensive treatment of one of the few native American religious movements and detailed exciting stories from little known phases of Mormon and American history This edition includes thirty new photographs and an introduction by Ronald W Walker that provides a brief biography of Arrington as well as the history of the work its place in Mormon and western historiography and its lasting impact [The Oxford Handbook of Mormonism](#) Terryl Givens, Philip L. Barlow, 2015 For this handbook Terryl Givens and Philip Barlow two leading scholars of Mormonism have brought together other top people in the field to construct a collection of essays that offers a comprehensive overview of scholarship on Mormons

[Utah Historians and the Reconstruction of Western History](#) Gary Topping, 2003 Among historians of Utah and the American West few names have greater resonance than Bernard DeVoto Dale Morgan Juanita Brooks Wallace Stegner and Fawn Brodie Each of these writers made enduring contributions not only to our knowledge of the American West but also to our view of the region and its history In many ways their writing set the standard for scholarship and interpretation and their influence is still felt today Yet they were not flawless As Gary Topping explains in this the first comprehensive appraisal of their work each had serious shortcomings DeVoto and Stegner master storytellers distorted their histories with excessive use of literary and artistic techniques Morgan the thorough researcher failed to see larger contexts and interpretive possibilities Brooks courageous in finding damning new information on the Mountain Meadows massacre stopped short of drawing conclusions that might alienate her from her fellow Mormons and Brodie psychobiographer extraordinaire nonetheless succumbed to reading too much into the lives of her subjects based on her own emotions and conflicts All five writers experienced Mormon Utah in the formative stages of their lives and whether they wanted to or not fashioned their work on

the American West under that indelible influence Topping shows ultimately how despite weaknesses each created exemplary models of diligent research and narrative elegance while establishing new traditions in western historical scholarship

**Homelands** Richard L. Nostrand, Lawrence E. Estaville, 2003-05-01 What does it mean to be from somewhere If most people in the United States are from some place else what is an American homeland In answering these questions the contributors to *Homelands A Geography of Culture and Place* across America offer a geographical vision of territory and the formation of discrete communities in the U S today *Homelands* discusses groups such as the Yankees in New England Old Order Amish in Ohio African Americans in the plantation South Navajos in the Southwest Russians in California and several other peoples and places *Homelands* explores the connection of people and place by showing how aspects of several different North American groups found their niche and created a homeland A collection of fifteen essays *Homelands* is an innovative look at geographical concepts in community settings It is also an exploration of the academic work taking place about homelands and their people of how factors such as culture settlement and cartographic concepts come together in American sociology There is much not only to study but also to celebrate about American homelands As the editors state Underlying today's pluralistic society are homelands large and small strong and weak that endure in some way The mosaic of homelands to which people bonded in greater or lesser degrees affirms in a holistic way America's diversity its pluralistic society The authors depict the cultural effects of immigrant settlement The conviction that people need to participate in the life of the homeland to achieve their own self realization within the traditions and comforts of that community *Homelands* gives us a new map of the United States a map drawn with people's lives and the land that is their home *Mormon History* Ronald Warren Walker, David J. Whittaker, James B. Allen, 2001

**Believing In Place** Richard V. Francaviglia, 2016-02-01 The austere landscape of the Great Basin has inspired diverse responses from the people who have moved through or settled in it Author Richard V Francaviglia is interested in the connection between environment and spirituality in the Great Basin for here he says faith and landscape conspire to resurrect old myths and create new ones As a geographer Francaviglia knows that place means more than physical space Human perceptions and interpretations are what give place its meaning In *Believing in Place* he examines the varying human perceptions of and relationships with the Great Basin landscape from the region's Native American groups to contemporary tourists and politicians to determine the spiritual issues that have shaped our connections with this place In doing so he considers the creation and flood myths of several cultures the impact of the Judeo Christian tradition and individualism Native American animism and shamanist traditions the Mormon landscape the spiritual dimensions of gambling the religious foundations of Cold War ideology stories of UFOs and alien presence and the convergence of science and spirituality *Believing in Place* is a profound and totally engaging reflection on the ways that human needs and spiritual traditions can shape our perceptions of the land That the Great Basin has inspired such a complex variety of responses is partly due to its enigmatic vastness and isolation partly to the remarkable range of peoples who have

found themselves in the region Using not only the materials of traditional geography but folklore anthropology Native American and Euro American religion contemporary politics and New Age philosophies Francaviglia has produced a fascinating and timely investigation of the role of human conceptions of place in that space we call the Great Basin

Adventures of a Church Historian Leonard J. Arrington, 1998 *Adventures of a Church Historian* details how Leonard J Arrington opened up archival resources and presided for a time over an unprecedented era of enlightenment as he and those working under his aegis produced path breaking works of Mormon scholarship Arrington was the first professional historian and the first noncentral authority to serve as church historian of the Church of Jesus Christ of Latter day Saints a position he held from 1972 to 1982 Arrington s church appointment came at a crucial point in LDS history when the institution was being transformed from a regional church whose ecclesiastical hierarchy directly presided over its congregants into a modern worldwide church with an elaborate bureaucracy His description of conducting research in the LDS Church Archives in the days of Elder Joseph Fielding Smith and Brother A Will Lund provides a rare glimpse into the inner workings of the LDS First Presidency and Quorum of the Twelve Apostles Riveting chapters on the actions of the controversial Historical Department reveal details of Arrington s release and replacement as the old system gave way to the new **American Sociology of Religion** Anthony J. Blasi, 2007 First ever collection of histories of American sociology of religion including accounts of early dissertations changes in theory and studies of denominations globalization feminism new religions and Latino a American religion *Excavating Mormon Pasts* Newell C. Bringhurst, Lavina Fielding Anderson, 2004-08-31 Winner of the Special Book Award from the John Whitmer Historical Association *Excavating Mormon Pasts* assembles sixteen knowledgeable scholars from both LDS and the Community of Christ traditions who have long participated skillfully in this dialogue It presents their insightful and sometimes incisive surveys of where the New Mormon History has come from and which fields remain unexplored It is both a vital reference work and a stimulating picture of the New Mormon History in the early twenty first century **United States History** James Warren Oberly, 1995 A Foreign Kingdom Christine Talbot, 2013-12-30 The years from 1852 to 1890 marked a controversial period in Mormonism when the church s official embrace of polygamy put it at odds with wider American culture In this study Christine Talbot explores the controversial era discussing how plural marriage generated decades of cultural and political conflict over competing definitions of legitimate marriage family structure and American identity In particular Talbot examines the Mormon question with attention to how it constructed ideas about American citizenship around the presumed separation of the public and private spheres Contrary to the prevailing notion of man as political actor woman as domestic keeper and religious conscience as entirely private Mormons enfranchised women and framed religious practice as a political act The way Mormonism undermined the public private divide led white middle class Americans to respond by attacking not just Mormon sexual and marital norms but also Mormons very fitness as American citizens Poised at the intersection of the history of the American West Mormonism and

nineteenth century culture and politics this carefully researched exploration considers the ways in which Mormons and anti Mormons both questioned and constructed ideas of the national body politic citizenship gender the family and American culture at large
