Economic Decline And Nationalism In The Balkans:

Economic Decline and Nationalism in the Balkans Milica Zarkovic Bookman,1994 Two dominant characteristics of the Balkans in the early 1990s seem to be precipitous economic decline and rampant nationalism This study addresses the following three questions What internal and external factors have deepened the economic crises in the Balkan states over the past three years What is the nature of nationalism in the Balkans And what is the relationship between economic decline and the rise of nationalism

Deciphering the Balkan Enigma William Thomas Johnsen,1993 *Outcast Europe: The Balkans, 1789-1989* Tom Gallagher,2013-11-14 Examining two centuries of Balkan politics from the emergence of nationalism to the retreat of Communist power in 1989 this is the first book to systematically argue that many of the region s problems are external in origin A decade of instability in the Balkan states of southeast Europe has given the region one of the worst images in world politics The Balkans has become synonymous with chaos and extremism Balkanization meaning conflict arising from the fragmentation of political power is a condition feared across the globe This new text assesses the key issues of Balkan politics showing how the development of exclusive nationalism has prevented the region s human and material resources from being harnessed in a constructive way It argues that the proximity of the Balkans to the great powers is the main reason for instability and decline Britain Russia Austria Hungary France and finally the USA had conflicting ambitions and interests in the region Russia had imperial designs before and after the 1917 Revolution The Western powers sometimes tolerated these or encouraged undemocratic local forces to exercise control in order to block further Soviet expansion Leading authority Tom Gallagher examines the origins of these Western prejudices towards the Balkans tracing the damaging effects of policies based on Western lethargy and cynicism and reassesses the negative image of the region its citizens their leadership skills and their potential to overcome crucial problems

Radical Ethnic Movements in Contemporary Europe Stefan Troebst, Farimah Daftary, 2004-11-01 Nation states and minorities resort more and more to violence when safeguarding their political interests Although the violence in the Middle East has been dominating world politics for some time now European governments have had their share of ethnic violence to contend with as this volume demonstrates And as the case studies show ranging as they do from the Basque Country to Chechnya from Northern Ireland to Bosnia Herzegovina this applies to western Europe as much as to eastern Europe However in contrast to other parts of the world instances where political struggles for power and social inclusion between minorities and majorities lead to full fledged inter ethnic warfare are still the exception in the majority of cases conflicts are successfully de escalated and even resolved In a comprehensive conclusion the volume offers a theoretical framework for the development of strategies to deal with violent ethnic conflict

Yugoslavia Unraveled Raju G. C. Thomas, 2003-10-13 Unlike many of the works on the Yugoslav wars written during and just after the crisis Yugoslavia Unraveled delves beyond who did what to whom to examine underlying issues regarding the sources of religious nationalism and inter ethnic conflict the territorial integrity and sovereignty of states and the principle of self determination and the right of secession from an existing state This volume raises essential questions pertaining to the legality and morality of military intervention by external powers without U N sanction and to nation building by outside powers in war devastated territories The book also explores the nature of media propaganda in times of war Editor Raju G C Thomas and the prominent contributors provide fresh views and alternative explanations for the unraveling of a sovereign independent state following the end of the Cold War and in a world without countervailing power

The Balkans Beyond Nationalism and Identity Pavlos Hatzopoulos, 2007-12-19 For decades we have come to accept that nationalism formed the basis of the modern history of the Balkans In this bold and controversial study Pavlos Hatzopoulos turns this assumption on its head Through a ground breaking examination of the non nationalist ideologies in the Balkans during the interwar period Hatzopoulos calls into question the supposedly inherent connection between the Balkans and nationalism and argues that nationalism does not form the sole ordering principle of the modern history of the Balkan region Focusing on the ideologies of communism liberal internationalism and agrarianism Hatzopoulos examines how these interact with nationalist ideology He demonstrates how non nationalist theories challenge the nationalist view of the Balkans as the sum of several national spaces He even questions the nationalist understanding of the very term the Balkans The Balkans Beyond Nationalism and Identity revisits contemporary debates on a region that is still a European crisis point and challenges the nation centric understanding that permeates it In proposing a description of the Balkans as a contested political concept the book argues for a completely fresh interpretation of the region s composition

The Soviet Union - Federation or Empire? Tania Raffass, 2012-06-14 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate

colonial units sought independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state
