Taylor, 1997-05-15 Economics is full of puzzles and paradoxes that often frustrate and challenge everyone including economists This engaging book includes fifty puzzles and focuses on three types of paradox First everyday observations that appear to belie common sense such as why some supermarket items sell for more per ounce in larger sizes Secondly those paradoxes which have perplexed economists in the past but have since been fairly resolved such as the diamond water paradox Finally empirical or conceptual anomalies that remain unresolved and present a challenge to today's economists such as the voting paradox *Economics,*

Race, Politics, and Economic Development James Jennings, 1992-12-17 In April 1992 the world

witnessed a renewal in South Central Los Angeles of the urban violence that had exploded there over a quarter of a century earlier. As in the Watts rebellion of 1965, the spark that ignited the firestorm was Black rage over police brutality. But in both eras the tinder was prepared by decades of social neglect and political disenfranchisement that have left the predominantly non-white urban poor trapped and virtually without hope. *Race, Politics and Economic Development* examines the underlying causes of Black urban poverty and recommends means to escape the seemingly endless cycle of retributive violence that it spawns. The book brings together Black activists and scholars, including two former mayors of American cities, to analyze the theoretical and practical problems facing the Black community in the United States. The essays argue that political influence, power, and wealth are major factors in determining social welfare policies; that both liberal and conservative policies are no longer effective in alleviating a growing human service crisis among Blacks; and that political mobilisation of the Black community is absolutely critical in resolving the problem of poverty in urban America. Drawing on work in the social sciences, political theory, and economics, and also on the contributors' activist experiences, these essays present an agenda for the participation of grassroots Black leaders in developing and implementing urban policy.
