The New Horizon of China's Economic Law Theory Shouwen Zhang, 2020-10-26 This book presents the development and reformation of economic law in China and explores the three relationships between the government and market between reform and rule of law and between the constitution and economic law On this basis it subsequently focuses on development theory distribution theory risk theory and crisis theory Further it addresses effective development fair distribution and prevention and resolution of related risks and crises which are important functions of economic law In order to achieve the above functions and objectives the book argues we must vigorously promote the integration of rule of law in economic law and constantly refine the theory of economic rule of law employed in China The book demonstrates that no matter how the three major relationships are adjusted or the relevant systems are reformed i.e. regarding the implementation of the concept of coordinated development or the optimization of economic structures the solution of distribution problems or the improvement of distribution systems the prevention of risks or the response to crises any such changes depend on economic rule of law The above mentioned theoretical discussion presents a new horizon of contemporary Chinese economic law theory which will be of great value to the future development of economic law theory **Research on China's Market Economy**

Development Wei Liu, 2024-08-15 This book first analyzes the institutional changes and historical value orientations brought about by China's economic reforms and then explores the justice and progressiveness of changes in social production relations as well as the uniqueness of economic growth and macro control in China's institutional changes It further delves into the effectiveness and qualitative improvement during the growth process including the evolution of structural height the

formation of structural benefits and the improvement of factor productivity and input output efficiency Finally the book dissects the systemic motivation of China s economic growth and development and proposes the requirements for systemic changes to achieve sustainable development The main innovation of this book lies in revealing the basic driving factors of the debate on the justice of institutional change from the perspective of value theory deepening the understanding of China s reform and development experience and emphasizing the importance of economic growth structure efficiency and total factor efficiency

Capitalising Economic Power in the US Mattia Tassinari,2018-05-25 This book examines the American industrial strategy from the late 70s to the present day in what is now known as the neoliberal era The author illustrates the ways in which the protection and promotion of American companies and industries took place in the context of the international free market He provides clear evidence of how the economic power of the United States wielded to influence the formal and informal institutions of the neoliberal order has been used as a tool for enhancing its competitive advantage against other world economies

Economic Management and Transition Towards a Market Economy Anthony T.H. Chin,1996 Much attention has been focused in recent years on the transformation of the economies of Eastern and Central Europe and the former Soviet Union However a growing demand for policy advice technical assistance and expertise is also coming from Asian reforming countries such as China Mongolia Vietnam Laos and Cambodia In addition business communities abroad are increasingly interested in exploring investment and marketing opportunities in these reforming countries Such developments are too important to overlook or ignore The transformation of socialist economies towards market based systems entails an unusually wide range of problems Studies of related topics are complicated by the speed of the changes and the lack of clear historical precedents Although the structural features of Asian reforming economies are in important ways different from those of the Eastern European economies all socialist economies share similar fundamental conditions on the eve of economic reform which raise a similar set of reform issues This volume brings together a rich collection of expertise and information in an attempt to shed some light on the transitional process in Asia The contributions are by no means exhaustive However they provide the reader and analyst with an excellent starting point to the problems and prospects which are specific to Asian transforming economies

The China Path to Economic Transition and Development Yinxing Hong,2016-04-01 This book by the renowned Chinese scholar Dr Yinxing Hong provides the reader with a perceptive analysis of what has worked in China s development model Over the past 30 years China has experienced a remarkable economic rise but it now faces the challenge of switching the drivers of this economic growth which have proven so successful The path has not been an easy one and many challenges lie ahead However the rise of the Chinese economy has been the most significant global development in recent years Is there a specific Chinese model How was the Chinese transition from a Soviet style economic structure to one that is more open to market influences and the global market achieved In 15 essays Dr Hong provides fascinating insights to these and other key questions The essays cover the challenges

involved in transition and how the market oriented reforms progressed what the consequences of the transition were for public goods provision and how China opened up its economic system The essays in Part II address the remaining challenges facing rural areas trying to develop a more consumer driven economic base and how to effectively modify the model of economic development This book provides a sound basis for policymakers and scholars alike as well as anyone who wants to get an insider s view of the progress and challenges faced by China s economic development **Resources, Power, and**

Economic Interest Distribution in China Zhang Yishan,Yu Weisheng,Wang Guangliang,2021-03-30 Based on an investigation of economic and resource allocation factors and their close relation to economic power this book puts forward the power paradigm a new economic research paradigm revealing the relationship among power institutions and resource allocation mechanisms helping to establish a valid connection between macroeconomics and microeconomics and shedding light on real world economic issues Drawing on classical neoclassical and institutional economics and how these schools of thought have impacted on economic development in China over the past century the book sheds light on distribution processes and argues that enterprise contracts market pricing policies laws and regulations can all be classified as interest distribution mechanisms informed by a variety of power games The power paradigm suggests that to achieve full utility and an optimal allocation of resources to foster social welfare power reciprocity needs to be shared among different economic agents at the same hierarchy level while making sure that power and responsibility are equivalent for each economic agent The book will appeal to research students and academics interested in heterodox economics pluralist approaches institutional economics and game theory [The Indian Economy Since 1991: Economic Reforms and Performance](#), 2/e B. Dictionary of Contemporary Chinese Economics Hong Yinxing,2025-05-26 This Dictionary provides the

theoretical summary and conceptual framework around the milestones obtained through Chinese reform and development and highlights the research achievements of Chinese economics over the past 40 years. It also presents Chinese economics to the world featuring the Belt and Road Initiative and the Chinese theory and Chinese system to be known and shared internationally with a Chinese intellectual foundation. It sets out to frame the theoretical achievements of extraction and summary of practice experience from Chinese reform and development. The choice of entries in the Dictionary seeks to embody the very Chinese characteristics of economics and the combination of theory and practice is illuminated. Furthermore, the dictionary explores examples of scientific achievements that traditional economics has brought forward and how they fit and unify within both a Chinese as well as an international context.

Chinese Economists on Economic Reform - Collected Works of Lou Jiwei Lou Jiwei, 2013-12-04. This book is part of a series which makes available to English speaking audiences the work of the individual Chinese economists who were the architects of China's economic reform. The series provides an inside view of China's economic reform revealing the thinking of the reformers themselves unlike many other books on China's economic reform which are written by outside observers. Lou Jiwei 1950 has been a leading researcher on economic restructuring and macroeconomic policy in a range of Chinese policy making organisations. He has made important contributions to policy in the fields of tax accounting finance and banking. In the 1990s a vice minister of finance and from 2007 deputy secretary general of the State Council he is also at present head of China's sovereign wealth fund. The book is published in association with China Development Research Foundation one of the leading economic and social think tanks in China where many of the theoretical foundations and policy details of economic reform were formulated.

Making a Market Economy Ning Wang, 2013-10-31. This study investigates the rise and growth of a market economy in the Longlake region Hubei province China. Well known in China as the land of fish and rice the Longlake region has a long tradition of fresh water fishery. Yet it is the last two decades of the twentieth century that have witnessed the dramatic transformation of fishery from subsistence oriented sideline production to a thriving market oriented economy. Based on ethnographic fieldwork this study aims to examine the making of this burgeoning market economy focusing on a set of vital economic institutions including property rights and markets as well as the changing organizational forms in fishery. Their evolution and the dynamics between them

and the social cultural legal and political settings in which both economic institutions and organizations are deeply embedded constitutes the main substantive theme of this study Handbook of Chinese Economics Zhuoyuan Zhang, 2023-06-30 This book reviews the development of Chinese economics since the reform and opening up associated with the history and experience of China's economic growth This book makes a systematic study of the direction of reform the method of reform the path of reform the main body of reform and the motive force of reform accumulates more experiences that can be used for reference for the exploration of new reforms to be opened and probes into the way of reform in the next period The topics cover all key concepts and theories relating to the China's economic reform
