The Economics of Social Responsibility Carlo Borzaga, Leonardo Becchetti, 2010-06-10 This book offers a rethinking of the burgeoning research on not for profit organizations and socially responsible economics Adopting a comparative approach the chapters explore and reinterpret the impact of social enterprises on the provision of general interest services work integration microfinance and fair trade and show how these enterprises form the hub of an emerging economy of social responsibility The book provides a new interpretation of social enterprises as entrepreneurial organizations that pursue social objectives and are successful due to the non self seeking motives of their members This book will be of interest to postgraduate students professionals working in the not for profit sector and scholars interested in socially responsible economics It is particularly suitable for seminars and workshops focusing on the management of not for profit organizations sustainable development and globalization

Wine Economics Stefano Castriota, 2020-11-17 A comprehensive and interdisciplinary approach to the economics of the production distribution and consumption of wine Wine economics is a growing subfield that examines the economics of the production distribution and consumption of wine In this book Stefano Castriota takes a comprehensive and interdisciplinary approach to the study of wine economics drawing on literature from industrial organization welfare economics economic policy political economy management finance health economics law and criminology Castriota explores how wine markets operate and how they are regulated covering such diverse topics as the health economics of wine consumption both the positive health effects associated with moderate wine intake and the negative effects of alcohol abuse the competition and profitability of wineries the function of wine as an investment and the quality of wine He examines differences between the wine industries in the Old World and the New World comparing small family owned wineries with larger conglomerates and analyzes the regulation of wine in the United States versus the European Union He concludes with a series of recommendations to ensure open and efficient wine markets while protecting public health Originally published in Italy as *Economia del Vino* this English translation has been extensively revised It includes additional material focusing on the English speaking countries of the New World particularly the regulatory environment of the United States and the lingering effects of Prohibition

American Foundations Helmut K. Anheier, David C. Hammack, 2010-09-01 Foundations play an essential part in the philanthropic activity that defines so much of American life No other nation provides its foundations with so much autonomy and freedom of action as does the United States Liberated both from the daily discipline of the market and from direct control by government American foundations understandably attract great attention As David Hammack and Helmut Anheier note in this volume Americans have criticized foundations for their alleged conservatism liberalism elitism radicalism devotion to religious tradition hostility to religion in short for commitments to causes whose significance can be measured in part by the controversies they provoke Americans have also criticized foundations for ineffectiveness and even foolishness Their size alone conveys some sense of the

significance of American foundations whose assets amounted to over 530 billion in 2008 despite a dramatic decline of almost 22 percent in the previous year And in 2008 foundation grants totaled over 45 billion But what roles have foundations actually played over time and what distinctive roles do they fill today How have they shaped American society how much difference do they make What roles are foundations likely to play in the future This comprehensive volume the product of a three year project supported by the Aspen Institute's program on the Nonprofit Sector and Philanthropy provides the most thorough effort ever to assess the impact and significance of the nation's large foundations In it leading researchers explore how foundations have shaped or failed to shape each of the key fields of foundation work American Foundations takes the reader on a wide ranging tour evaluating foundation efforts in education scientific and medical research health care social welfare international relations arts and culture religion and social change *Cambridge International AS and A Level Sociology Coursebook* Chris Livesey, 2014-08-28 This revised set of resources for Cambridge International AS and A Level Sociology syllabus 9699 is thoroughly updated for the latest syllabus Written by a highly experienced author the Coursebook provides comprehensive support for the syllabus Accessible language combined with the clear visually engaging layout makes this an ideal resource for the course Discussion of significant sociological research case studies explanation of key terms and questions within the text reinforce knowledge Stimulating activities build interpretation and application as well as analytical and evaluation skills Revision checklists help in consolidating understanding The book provides complete exam support with each chapter culminating in exam style questions and a further chapter dedicated to revision and examination skills and practice A Teacher's CD ROM is also available *A Research Agenda for Cultural Economics* Samuel Cameron, 2019 A Research Agenda for Cultural Economics explores the degree of progress and future directions for the field An international range of contributors examine thoroughly matters of data quality statistical methodology and the challenge of new developments in technology This book is ideal for both emerging researchers in cultural economics and experienced practitioners It is also relevant to workers in other fields such as cultural policy public policy media studies and digital economics Operating Grants for Nonprofit Organizations 2005 Grants Program, 2005-04-30 Few needs are more important to a nonprofit organization than funding for operating costs In this new directory nonprofits and other organizations seeking grants and funding opportunities to support general operating expenses will find over 1 300 current operating grants organized by state with contact and requirement information for each Three user friendly indexes subject sponsor and geographic restriction help grantseekers quickly find the ideal funding opportunity Enterprising Education in UK Higher Education Gary Mulholland, Jason Turner, 2018-11-08 The UK may be ranked as one of the best countries in the world to start a business but evidence from growing skills gaps and the decline in graduates entrepreneurial aspirations suggest that higher education may not be contributing as it should to the enterprise environment Enterprising Education in UK Higher Education brings together the challenges of embedding enterprise education in universities and colleges

identifies current debates around their roles and explores research theory and practice to deliver roadmaps for innovative enterprise education This book provides solid and clear guidance to practitioners and academics who are starting their journey into enterprising education as well as those who are more experienced but understand that the traditional approaches limit the options of future graduates It collates the theory and practice of enterprise education in the UK higher education sector and business engagement with wider stakeholders Drawing on theory and best practice and illustrated with a wide range of the examples and cases it will provide invaluable guidance to researchers educators practitioners and policy makers

Trafficking Culture Simon Mackenzie, Neil Brodie, Donna Yates, Christos Tsirogiannis, 2019-08-15 Trafficking Culture outlines current research and thinking on the illicit market in antiquities It moves along the global trafficking chain from source to market identifying the main roles and routines involved Using original research the authors explore the dynamics of this grey market where legal and illegal goods are mixed and conflated It compares and contrasts this illicit trade with other transnational criminal markets such as the illegal trades in wildlife and diamonds The analytical frames of organized crime and white collar crime drawn from criminology provide a fresh perspective on a problem that has tended to be seen as archaeological rather than criminological Bringing insights from both disciplines together this book represents a productive discourse between experts in these two fields working together for several years to produce the evidence base that is reported here Innovative forms of regulation are the most productive way to explore crime control in this field and this book provides a series of propositions about practical crime reduction measures for the future It will be invaluable to academics working in the fields of archaeology criminology art history museum studies and heritage The book will also be a vital resource for professionals in the field of cultural property protection and preservation
