Economic Restructuring in East Asia and India P. Agrawal, S. Gokarn, V. Mishra, K. Parikh, K. Sen, 2016-05-02 This book provides a comparative picture of the restructuring experiences of five Asian economies South Korea Singapore Indonesia Thailand and India In the case of Indonesia and Thailand the focus is on short run structural adjustment measures and in the case of South Korea and Singapore the emphasis is on longer term industrial trade labour and financial sector policies The chapter on India views the country's economic development in the light of the above analysis The political economy of the policy making process is examined in each case Economic Restructuring In East Asia And India Pradeep Agrawal, Subir V Gokarn, Veena Mishra, Kirit S Parikh Kunal Shah, 1995 This book examines the process of structural adjustment that some of the East Asian countries had gone and thereby draw some lessons for India Industrial Restructuring in East Asia Seiichi Masuyama, Donna Vandenberg, Siow Yue Chia, 2001 Divided into three parts this volume covers industrial restructuring in Southeast Asian economies restructuring in Asia's newly industrialized economies and industrial restructuring in the two large Asian economies **Economic Restructuring in East Asia** Arnold E. Oliva, Carleton University. Dissertation. International Affairs, 1988 **Neoliberalism and Institutional Reform in East Asia** Meredith Jung-En Woo, 2007-11-06 This book brings together scholars of political economy law and sociology to interrogate the seemingly unproblematic notions the rules of law good corporate governance and flexible labour market that inform neoliberal policy prescriptions It also discusses how these concepts have been translated and practiced in East Asia Institutions for Economic Reform in Asia Philippa Dee, 2009-12-16 Consisting of theoretical chapters and six country case study chapters this book sets out some of the principles that are critical to success in regional cooperation and the ways APEC can promote structural reform efforts in APEC economies *Economic Reform Processes in South Asia* Philippa S. Dee, 2012 While South Asia's economic reform initiatives of the last two decades were often born in crisis this alone does not account for their occurrence This book looks at the processes and institutional arrangements behind these reforms and analyses what lessons can be learnt about how South Asia can improve its policy efficiency The book develops ideas about how to overcome the political restraints to reform by drawing on recent theories of political economy and policy learning It tests these ideas against authoritative case studies of actual reform initiatives in South Asia which illustrate processes and institutional arrangements that have helped South Asian governments to sustain reform efforts even in the absence of a strong political base This offers valuable lessons for the global economy as it moves into a phase of rebalancing with the structural adjustments that this will require The book goes on to identify weaknesses that could be addressed by South Asian national governments and regional forums It is an important contribution to studies on South Asian Politics and International Political Economy Transforming Gender and Development in East Asia Esther Ngan-ling Chow, 2013-12-02 Transforming Gender and Development in East Asia brings together a collection of original essays from top scholars in the United States

and Asia to explore the centrality of gender in the process of economic development in East Asia Contributors demonstrate through ethnography personal narratives field observation and in depth interviews the essential parts women have played in the national growth economic restructuring and industrialization of East Asian countries including South Korea Taiwan China Hong Kong Singapore and China International Trade and Capital Flows in Economic Restructuring and Growth: East Asian experiences Pierre-Bruno Ruffini, 2002-01-01 Touchés en 1997 par une crise d'une ampleur inégalée les économies d'Asie de l'Est ont dû adapter leurs appareils de production et leurs régimes de change et de redéfinir leur position sur l'échiquier de la mondialisation Le livre écrit en anglais analyse les mécanismes de reconstruction indispensables à la survie et au développement de ces économies Communism and Reform in East Asia (RLE Modern East and South East Asia) David Goodman, 2015-04-10 The West no longer regards communism in East Asia as a threat On the contrary because the communist party states of East Asia appear to be undergoing a process of reform directed primarily at economic modernization it is now regarded as a potential market The West's attitude is reinforced by the recognition of East Asia's economic importance more generally a perception which in itself undoubtedly stimulated reform in the region's communist party states The causes extent and consequences of reform in the East Asian communist party states are the concerns of the contributors to this volume first published in 1988 It includes chapters on the reform process in China North Korea Vietnam and Mongolia as well as examinations of the roles played by both China and the Soviet Union in the Asia Pacific region They demonstrate that a belief in a simple single process of economic and political liberalization brought about by the drive for economic modernization the production imperative is a misleading argument Although the production imperative might act as a stimulus to reform it is neither a sufficient nor even a necessary condition In individual countries the communist party's search for legitimacy a change of leadership or the relationship with the USSR have equally been the spur to reform The drive for economic modernization may even be a consequence of the communist party's desire to reform rather than a cause The absence of a uniform pattern does not detract from the potential consequences of economic and political change These challenge socialist thinking on the nature of collective life ownership and rural society **The Everyday Impact of Economic Reform in China** Ying Zhu, Michael Webber, John Benson, 2010-05-11 During the past 30 years China has undergone extensive economic reform replacing the government's administration of enterprises with increasing levels of market oriented enterprise autonomy At the heart of the reform are changes in the employment relationship where state control has been superseded by market relationships These reforms have had far reaching implications for many aspects of everyday life in Chinese society This book appraises the impact of the economic reforms on the employment relationship and in turn examines the effects on individual workers and their families including salaries working conditions and satisfaction job security and disparities based on location gender age skill position and migrant status In particular it focuses on how changes in the employment relationship have affected the livelihood strategies of households It explores the changing human

resource management practices and employment relations in different types of enterprises including State Owned Enterprises Foreign Owned Enterprises and Domestic Private Enterprises throughout different industries focusing especially on textiles clothing and footwear and the electronics industry and in different regions and cities within China Beijing Haerbin Lanzhou Hangzhou Wuhan and Kunming Overall this book provides a detailed account of the everyday implications of economic reform for individuals and families in China

pre condition to Vietnam's entry to the WTO in 2006 *China After Socialism: In the Footsteps of Eastern Europe or East Asia?* Barrett L. McCormick, Jonathan Unger, 2017-07-05 Nine specialists from four continents address the following questions: is China moving toward the type of developmental state and sophisticated economic powerhouse associated with the East Asian miracle? Does China's Leninist political system and the heritage of a state-run heavy industrial sector present too great a burden for successful transformation? and what is the likelihood that China's party state will ultimately collapse in a fashion similar to the Leninist governments of Europe? The findings and analyses should prove interesting to followers of China East Asia as a whole and the European postcommunist transition **Economic Reform And Cross-strait Relations: Taiwan**

And China In The Wto Julian Chang, Steven M Goldstein, 2007-07-26 This book provides a discussion of the general impact of WTO membership on both sides of the Taiwan Strait and addresses the political and economic impact on cross Strait relations of common membership. The book begins with an introduction which analyzes the state of cross Strait economic and political relations on the eve of dual accession to the WTO and briefly introduces the chapters which follow. The first chapter discusses the concessions made by both sides in their accession agreements and is followed by two chapters which describe the manner in which the Taiwan economy was reformed to achieve compliance as well as the specific restrictive trade regime that was put into place to manage mainland trade. The next two chapters deal with the implications of that restrictive trade regime for the Taiwan economy in Asia and with the nature of the interactions between the two sides within the WTO. The final four chapters of the volume examine the impact of membership on four sectors of the economy: finance, agriculture, electronics, and automobiles. There is a post script which briefly covers developments since the chapters were completed.

The Political Economy of East Asia Ming Wan, 2007-10-17 For students of international political economy it is hard to ignore the growth dynamism and global impact of East Asia. Japan and China are two of the largest economies in the world in a region now accounting for almost 30 percent more trade than the United States. Canada and Mexico combined. What explains this increasing wealth and burgeoning power? In his new text Ming Wan illustrates the diverse ways that the domestic politics and policies of countries within East Asia affect the region's production, trade, exchange rates, and development and are in turn affected by global market forces and international institutions. Unlike most other texts on East Asian political economy that are essentially comparisons of major individual countries, Wan effectively integrates key thematic issues and country-specific examples to present a comprehensive overview of East Asia's role in the world economy. The text first takes a comparative look at the region's economic systems and institutions to explore their evolution, a rich and complex story that looks beyond the response to Western pressures. Later chapters are organized around close examination of production, trade, finance, and monetary relations. While featuring extended discussion of China, Japan, South Korea, and Taiwan, Wan is inclusive in his analysis with coverage including Myanmar, Thailand, Laos, Vietnam, Cambodia, Malaysia, Singapore, Indonesia, Brunei, and the Philippines. The text is richly illustrated with more than fifty tables, figures, and maps that

present the latest economic and political data to help students better visualize trends and demographics Each chapter ends with extensive lists of suggested readings **Banking Reform in Southeast Asia** Malcolm Cook,2008-05-13 Providing a detailed account of the history of banking reform in Southeast Asia this book analyzes the major developments in the global economic system over the past three decades including the globalization of finance the debt crisis of the 1980s and the 1997 1998 Asian financial crisis Economic Reform in India Nicholas Hope,2013-01-21 In this volume leading economists assess India s economic performance policies and institutions East Asia in Transition: Robert S. Ross,2015-03-26 Has uniformly good essays on economic and political change the policies of the great and local powers and the prospects for building a new regional order Foreign Affairs
