Geboren Vor Aller Zeit Der Streit Um Christi Ursprung:

The Oxford Handbook of Johannine Studies Judith M. Lieu, Martinus C. de Boer, 2018-07-19 The contribution of the Johannine literature to the development of Christian theology and particularly to Christology is uncontested although careful distinction between the implications of its language especially that of sonship in a first century Jewish context and in the subsequent theological controversies of the early Church has been particularly important if not always easily sustained Recent study has shaken off the weight of subsequent Christian appropriation of Johannine language which has sometimes made readers immune to the ambiguities and challenging tensions in its thought The Oxford Handbook of Johannine Studies begins with chapters concentrating on discussions of the background and context of the Johannine literature leading to the different ways of reading the text and thence to the primary theological themes within them before concluding with some discussion of the reception of the Johannine literature in the early church Inevitably given their different genres and levels of complexity some chapters pay most if not all attention to the Gospel whereas others are more able to give a more substantial place to the letters All the contributors have themselves made significant contributions to their topic They have sought to give a balanced introduction to the relevant scholarship and debate but they have also been able to present the issues from their own perspective The Handbook will help those less familiar with the Johannine literature to get a sense of the major areas of debate and why the field continues to be one of vibrant and exciting study and that those who are already part of the conversation will find new insights to enliven their own on going engagement with these writings

Studies in Early Christology Martin Hengel, 2004-12-30 An important collection of Martin Hengel's studies on early Christology including previously unpublished work The essays include Jesus the Messiah of Israel Jesus as Messianic Teacher of Wisdom and the Beginnings of Christology Sit at My Right Hand The Song about Christ in Earliest Worship The Dionysiac Messiah The Kingdom of Christ in John Christological Titles in Early Christianity A substantial foreword describes the context of the essays in contemporary scholarship

The Ascension of the Messiah in Lukan Christology Arie W. Zwiep, 2014-04-09 Building on the form critical assessment of the Lukan ascension story Lk 24:50-53 Acts 1:1-12 as a rapture story and motivated by the consideration that the monotheistic principle almost inevitably must have led to a reestimate of the meaning and function of rapture in comparison with heathen rapture stories immortalisation and deification the present study seeks to investigate the Lukan ascension story in the light of the first century Jewish rapture traditions Enoch Elijah Moses Baruch Ezra etc The author argues that first century Judaism provides a more plausible horizon of understanding for the ascension story than the Graeco Roman rapture tradition and that Luke develops his rapture christology not as a reinterpretation of the primitive exaltation kerygma G. Lohfink but as a response to the eschatological question i.e. the delay of the parousia so as to secure the unity of salvation history

The Son of God in the Roman World Michael Peppard, 2011-07-18 Winner of the 2013 Manfred Lautenschlaeger Award for Theological Promise Michael Peppard examines the social and political meaning of

divine sonship in the Roman Empire He begins by analyzing the conceptual framework within which the term son of God has traditionally been considered in biblical scholarship Then through engagement with recent scholarship in Roman history including studies of family relationships imperial ideology and emperor worship he offers new ways of interpreting the Christian theological metaphors of begotten and adoptive sonship Peppard focuses on social practices and political ideology revealing that scholarship on divine sonship has been especially hampered by mistaken assumptions about adopted sons He invites fresh readings of several early Christian texts from the first Gospel to writings of the fourth century By re interpreting several ancient phenomena particularly divine status adoption and baptism he offers an imaginative refiguring of the Son of God in the Roman world

Engaging the Doctrine of Jesus (and Mary) Matthew Levering, 2025-03-10 The six chapters of this book focus upon Jesus conception and birth from a virgin his authoritative teaching his miracles his cross his resurrection and his ascension The purpose of the book is to articulate and defend the truth of these salvific mysteries as presented to us in Scripture In addition to conversing extensively with historical critical biblical scholarship the chapters make recourse to the theological tradition from the church fathers onward with Thomas Aquinas as a touchstone Levering seeks to make a case for believing in Jesus At the same time he shows how each of these mysteries is intimately linked with a truth about Mary the Mother of Jesus thus arguing for the integral relationship of Christology and Mariology Mary enacts the reception of the Lord by God s faithful people the New Adam never chooses to be without the New Eve in God s new covenant family The Christology offered in this book is therefore both attuned to historical studies of Jesus and Second Temple Judaism and at the same time deeply traditional in a contemporary Catholic and ecumenical way

Crucified and Resurrected Ingolf U. Dalferth, 2015-11-10 This major work now available in English is considered by many to be one of the finest and most significant contributions to modern Christology Preeminent scholar and theologian Ingolf Dalferth argues for a radical reorientation of Christology for historical hermeneutical and theological reasons He defends an orthodox vision of Christology in the context of a dialogue with modernity showing why the resurrection not the incarnation ought to be the central idea of Christological thinking His proposal is both pneumatological and Trinitarian and addresses themes such as soteriology the doctrine of atonement and preaching

Religious Pluralism and Christian Truth Joseph S. O'Leary, 2016-02-25 This is the second of three essays in fundamental theology along with Questioning Back 1985 and Conventional and Absolute Truth 2015 which attempt to reassess the status of Christian doctrinal language within the contemporary regime of truth Reflecting on the reality of religious pluralism as the governing horizon of theology today it proposes that the very notion of religious truth needs to be rethought In a dialogue with Derrida it argues that the effects of dissemination and difference have indeed unsettled any project of pinning down truth in a definitive substantial way while at the same time it defends the objectivity of concretely situated truth judgments as more than merely an effect of the play of

language The Buddhist conceptions of emptiness conventional truth and skillful means further explored in Philosophie occidentale et concepts bouddhistes 2011 allow a positive religious significance to be found in this mutation in the status of Christian truth

Divine Speech in Human Words Emmanuel Durand, OP, 2022-06-10 Is the portrait of God revealed in Scripture fundamentally intelligible The biblical accounts of God reveal seemingly contradictory themes God s holiness and narratives telling of his anger the Divine Omnipotence faced with the Impossible the suffering Christ upon the Cross and the transcendent Trinity of Persons in God the unique Savior and the universality of God s salvific will and so forth How are we to hold together all of this data without denying any aspect of the mystery of God Must we give into our ambient culture s sense that the biblical God cannot be taken seriously by truly discerning and rational minds when they try to understand the Divine Or in the midst of this apparent contradiction can we find the lines of harmony in the revealed mysteries In *Divine Speech in Human Words* Fr Emmanuel Durand unties some of the knots that face us when we reflect on the God of biblical Revelation In each of the essays gathered here Fr Durand sympathetically articulates the tensions and apparent contradictions experienced by contemporary minds as

they strive to understand the revealed truth of God A whole host of topics are covered in this volume the Cross and the revelation of the Trinity God's holiness and transcendence divine immutability and the sorrow of a loving God Divine Providence and human prayer the fatherhood of God and eschatology Christ's way of life and many others Drawing philosophical insights from the Thomistic tradition as his intellectual tools Fr Durand nonetheless emphasizes the importance of a properly theological mode of reflection allowing these issues to be illuminated by the revealed truth of Sacred Scripture Thus for each of these difficult topics he shows that a vital theological response must not limit itself to mere logical rigor but rather requires metaphysical insight and above all sapiential appreciation of God's revealed word With such instruments in hand each essay approaches the tensions of biblical revelation with an eager readiness to show how a thoughtful Thomistic practice of biblical theology can guide faith as it seeks an understanding of both contemporary and perennial theological problems

The Uniqueness and Universality of Jesus Christ Massimo Serretti, 2004 Seven Catholic theologians explore whether and to what extent the theories of knowledge on which the pluralistic theology of religions bases its account of religion and the religions are adequate The volume represents the first phase of an international research project in Christology under the Pon

New Testament Theology Eckhard J. Schnabel, 2023-11-21 Southwestern Journal of Theology 2023 Book Award Honorable Mention Theological Studies New Testament Theology is a major new contribution to New Testament scholarship by renowned scholar Eckhard Schnabel While many New Testament theologies approach the material through a particular thematic construct e.g covenant Schnabel takes a different approach First he focuses on Jesus Messiah and his significance for the early church Second he seeks to describe the theology of the New Testament as it was written and read in its historical context This approach honors the fact that the authors and original readers of the New Testament were real people dealing with real issues in their specific ecclesiological cultural and missiological settings Schnabel comprehensively combines a historical description of the New Testament's theology with a systematic reflection on the New Testament's message and the convictions of Jesus and his early followers This valuable contribution to the field will be insightful reading for students scholars and pastors

Transformative Change in Western Thought Ingo Gildenhard, 2017-07-05 This groundbreaking volume maps the shifting place and function of marvelous transformations from antiquity to the present day Shape shifting taking animal bodies miracles transubstantiation alchemy and mutation recur and echo throughout ancient and modern writing and thinking and continue in science fiction today as tales of gene splicing and hybridisation The idea of metamorphosis lies in uneasy coexistence with orderly world views and it is often cast out or attributed to enemies Augustine and the church fathers consider shape shifting ungodly Enlightenment thinkers suppress alchemy as unscientific genetically modified wheat and stem cell research are stigmatised as unnatural Yet the very possibility of radical transformation inspires hope just as it frightens A provocative theorising trans historical history this book ranges across classics literature history philosophy theology and anthropology From Homer and Ovid to Proust and H P

Lovecraft and through figures from Proteus to Kafka's Fly and to Spiderman four historical surveys are combined with nine case studies to show the malleable yet persistent presence of transformation throughout Western cultural history
