Geheimprojekt Mittelbau:

A History of the Dora Camp Andre Sellier, 2003-05-27 In mid 1943 Nazi Germany entered a crisis from which it was to emerge vanquished Faced with a shortage of manpower in armaments factories the Third Reich sent concentration camp prisoners to work as slaves While the genocide of the Jews and the Gypsies continued at extermination camps numerous outside Kommandos were set up in the vicinity of the large concentration camps The Dora Camp located in the center of Germany was one of the most notorious Originally a mere Kommando attached to Buchenwald it became one of the largest Nazi concentration camps There prisoners were put to work in a huge underground factory building V 2 rockets the secret weapon developed by German scientists in an attempt to reverse the course of the war under the direction of Wernher von Braun In this dispassionate but powerful account Andr Sellier himself a former prisoner at Dora tells the dramatic story of the camp the tunnel factory and the underground work sites He has utilized all available documents as well as unpublished testimony from several dozen fellow prisoners He recounts the horrors of everyday life at Dora prisoners dying by the hundreds and indescribable suffering and the murderous evacuation of the camp by railroad convoys and death marches which took place in early 1945 and led to the death of thousands of prisoners Illustrated with 20 pages of photographs and drawings and 24 maps

The Business of Genocide Michael Thad Allen, 2005-02-01 Examines the Business Administration Main Office of the SS which built up the slave labor system in Nazi concentration camps

The Policies of Genocide (RLE Nazi Germany & Holocaust) Gerhard Hirschfeld, 2014-09-19 One of the darkest passages in German history is examined in this book originally published in 1986 by five leading German historians of the Third Reich The authors establish that a direct link existed between the widespread deaths of Soviet prisoners of war and the extermination of Jews and implicate the German army in the policies of genocide to a far greater degree than was previously thought The situation of the inmates of camps is analysed and evidence provided of resistance action even among those facing death Von Braun

Michael Neufeld, 2017-04-12 Curator and space historian at the Smithsonian s National Air and Space Museum delivers a brilliantly nuanced biography of controversial space pioneer Wernher von Braun Chief rocket engineer of the Third Reich and one of the fathers of the U S space program Wernher von Braun is a source of consistent fascination Glorified as a visionary and vilified as a war criminal he was a man of profound moral complexities whose intelligence and charisma were coupled with an enormous and some would say blinding ambition Based on new sources Neufeld s biography delivers a meticulously researched and authoritative portrait of the creator of the V 2 rocket and his times detailing how he was a man caught between morality and progress between his dreams of the heavens and the earthbound realities of his life

The Order of Terror Wolfgang Sofsky, 2013-06-17 During the twelve years from 1933 until 1945 the concentration camp operated as a terror society In this pioneering book the renowned German sociologist Wolfgang Sofsky looks at the concentration camp from the inside as a laboratory of cruelty and a system of absolute power built on extreme violence starvation terror labor

and the business like extermination of human beings Based on historical documents and the reports of survivors the book details how the resistance of prisoners was broken down Arbitrary terror and routine violence destroyed personal identity and social solidarity disrupted the very ideas of time and space perverted human work into torture and unleashed innumerable atrocities As a result daily life was reduced to a permanent struggle for survival even as the meaning of self preservation was extinguished Sofsky takes us from the searing unforgettable image of the Muselmann Auschwitz jargon for the walking dead to chronicles of epidemics terror punishments selections and torture The society of the camp was dominated by the S S and a system of graduated and forced collaboration which turned selected victims into accomplices of terror Sofsky shows that the S S was not a rigid bureaucracy but a system with ample room for autonomy The S S demanded individual initiative of its members Consequently although they were not required to torment or murder prisoners officers and guards often exploited their freedom to do so in passing or on a whim with cause or without The order of terror described by Sofsky culminated in the organized murder of millions of European Jews and Gypsies in the death factories of Auschwitz and Treblinka By the end of this book Sofsky shows that the German concentration camp system cannot be seen as a temporary lapse into barbarism Instead it must be conceived as a product of modern civilization where institutionalized state run human cruelty became possible with or without the mobilizing feelings of hatred

The Truth of the Technological World Friedrich A Kittler, 2014-09-17 Twenty three essays that document the intellectual itinerary of the philosopher and cultural historian one of the most original thinkers in recent times Friedrich Kittler 1943 2011 combined the study of literature cinema technology and philosophy in a manner sufficiently novel to be recognized as a new field of academic endeavor in his native Germany Media studies as Kittler conceived it meant reflecting on how books operate as films poetry as computer science and music as military equipment This volume collects writings from all stages of the author's prolific career Exemplary essays illustrate how matters of form and inscription make heterogeneous source material e g literary classics and computer design interchangeable on the level of function with far reaching consequences for our understanding of the humanities and the hard sciences Rich in counterintuitive propositions sly humor and vast erudition Kittler's work both challenges the assumptions of positivistic cultural history and exposes the over abstraction and language games of philosophers such as Heidegger and Derrida

The Wages of Destruction Adam Tooze, 2008-02-26 Masterful A painstakingly researched astonishingly erudite study Tooze has added his name to the roll call of top class scholars of Nazism Financial Times An extraordinary mythology has grown up around the Third Reich that hovers over political and moral debate even today Adam Tooze's controversial book challenges the conventional economic interpretations of that period to explore how Hitler's surprisingly prescient vision ultimately hindered by Germany's limited resources and his own racial ideology was to create a German super state to dominate Europe and compete with what he saw as America's overwhelming power in a soon to be globalized world The Wages of Destruction is a chilling work of originality and tremendous scholarship

that set off debate in Germany and will fundamentally change the way in which history views the Second World War

Reading Matters Joseph Tabbi, Michael Wutz, 2018-05-31 The convergence of twentieth century narrative and technology is one of the most important developments in current literary study A decade after the founding of the Society for Literature and Science and the appearance of such influential books as Kathleen Woodward's *Culture of Information* and William Paulson's *The Noise of Culture* Joseph Tabbi and Michael Wutz have edited a landmark volume to summarize this still emerging field Twelve original essays and the editors' introductory overview show how these theoretical concerns can contribute to the practical study of narrative *Reading Matters* covers the range of contemporary literature from the canonical novels of high modernism and postmodernism through subjects new to the academic agenda such as cyberpunk and hypertext fiction In an age that has proclaimed the death of the novel many times over the contributors argue persuasively for the continued vitality of literary narrative By responding in ingenious ways to the capabilities of other media they assert the novel has enlarged and redefined its territory of representation and its range of techniques and play while maintaining its viability in the new media assemblage

KL Nikolaus Wachsmann, 2015-04-14 The deeply researched groundbreaking first comprehensive history of the Nazi concentration camps Adam Kirsch *The New Yorker* In a landmark work of history Nikolaus Wachsmann offers an unprecedented integrated account of the Nazi concentration camps from their inception in 1933 through their demise seventy years ago in the spring of 1945 The Third Reich has been studied in more depth than virtually any other period in history and yet until now there has been no history of the camp system that tells the full story of its broad development and the everyday experiences of its inhabitants both perpetrators and victims and all those living in what Primo Levi called the gray zone In *KL* Wachsmann fills this glaring gap in our understanding He not only synthesizes a new generation of scholarly work much of it untranslated and unknown outside of Germany but also presents startling revelations based on many years of archival research about the functioning and scope of the camp system Closely examining life and death inside the camps and adopting a wider lens to show how the camp system was shaped by changing political legal social economic and military forces Wachsmann produces a unified picture of the Nazi regime and its camps that we have never seen before A boldly ambitious work of deep importance *KL* is destined to be a classic in the history of the twentieth century Praise for *KL* *A Wall Street Journal* Best Book of 2015 *A Kirkus Reviews* Best History Book of 2015 Finalist for the National Jewish Book Award in the Holocaust category A monumental study a work of prodigious scholarship with agonizing human texture and extraordinary detail Wachsmann makes the unimaginable palpable That is his great achievement Roger Cohen *The New York Times* Book Review Wachsmann's meticulously detailed history is essential for many reasons not the least of which is his careful documentation of Nazi Germany's descent from greater to even greater madness To the persistent question How did it happen Wachsmann supplies voluminous answers Earl Pike *The Plain Dealer* Cleveland *The Rocket and the Reich* Michael J. Neufeld, 2013-09-10 WINNER OF THE DEXTER PRIZE OF THE SOCIETY FOR THE HISTORY OF

TECHNOLOGY Launched by the Third Reich in late 1944 the first ballistic missile the V 2 fell on London Paris and Antwerp after covering nearly two hundred miles in five minutes It was a stunning achievement one that heralded a new age of ballistic missiles and space launch vehicles Michael J Neufeld gives the first comprehensive and accurate account of the story behind one of the greatest engineering feats of World War II At a time when rockets were minor battlefield weapons Germany ushered in a new form of warfare that would bequeath a long legacy of terror to the Cold War as well as the means to go into space Both the US and USSR s rocket programs had their origins in the Nazi state A German Catastrophe? Bas Von Benda-Beckmann,2010 Academisch proefschrift ter verkrijging de graad van doctor aan de Universiteit van Amsterdam op gezag van de Rector Magnificus prof dr D C van den Boom ten overstaan van een door het college voor promoties ingestelde commissie in het openbaar te verdedigen in de Agnietenkapel op woensdag 20 oktober 2010 te 12 00 uur **The History of German Space Policy** Niklas Reinke,2007 *Literature, Media, Information Systems* Friedrich

Kittler,2013-07-04 John Johnston s background combines expertise in modern literature poststructuralist philosophy and high technology s production Like Kittler he draws on historic fact anecdote and literature From this vantage point he explicates the theoretical and practical consequences of Friedrich Kittler s insights into the social and psychological effects of the processes by which metaphor in one medium is made real by another **German Historians and the Bombing of**

German Cities Bas Benda-Beckmann,2025-10-01 Today strategic aerial bombardments of urban areas that harm civilians at times intentionally are becoming increasingly common in global conflicts This book reveals the history of these tactics as employed by nations that initiated aerial bombardments of civilians after World War I and during World War II As one of the major symbols of German suffering the Allied bombing left a strong imprint on German society Bas von Benda Beckmann explores how German historical accounts reflected debates on postwar identity and looks at whether the history of the air war forms a counternarrative against the idea of German collective guilt Provocative and unflinching this study offers a valuable contribution to German historiography The V2 and the German, Russian and American Rocket Program ,

Rockets and People Boris Evseevich Chertok,2005 V 1 no special title v 2 Creating a rocket industry v 3 Hot days of the Cold War v 4 The moon race *Himmler's Diary 1945: A Calendar of Events Leading to Suicide* Stephen Tyas,Peter Witte,2014-03-24 Himmler s Diary 1945 A Calendar of Events Leading to Suicide is an exceptional work with unpublished diary entries made by Himmler that shows in detail how The Third Reich fell to ruin in its final bloody year Reichsfuhrer SS Heinrich Himmler was instigator of the largest programme of racial mass murder in history 1 January 1945 saw Heinrich Himmler at his peak in Nazi Germany controlling the entire German police force including the Gestapo all SS organisations and Nazi Minister of the Interior His powers extended into the German Army and included Commander of the Replacement Army and two Army Groups Two field commands revealed his limitations and failure as army commander Between January and May 1945 Heinrich Himmler vacillated showing a lack of vision action and decision At least he was able to gain control of

V 2 rocket production and their launch against Britain He ordered all concentration camp inmates be shot before rescinding the order When his SS generals asked for instructions Himmler ordered them to show backbone as their commands had few bounds The Swedes and Swiss negotiated with Himmler who allowed over 10 000 concentration camp prisoners taken to safety before Hitler intervened Himmler conducted peace feelers via the Swedes before the German surrender in May 1945 while trying to make contact with British Field Marshal Montgomery These contacts went unanswered Himmler was captured by the British and then committed suicide on 23 May 1945

St. Georgen - Gusen - Mauthausen Rudolf A. Haunschmied, Jan-Ruth Mills, Siegi Witzany-Durda, 2007 This study discusses the Mauthausen concentration camp complex with facilities in St Georgen and Gusen Austria Using information from local sources camp survivors and archives it focuses on the SS industrial infrastructure and the underground earth and stone works factory where concentration camp prisoners were forced to labor
