Dictionary of Gems and Gemology Mohsen Manutchehr-Danai,2013-03-09 Since World War II the amount of information generated in the science of

Gemology has increased tremendously Therefore this book Dictionary of Gems and Gemology was written with the aim of providing a relatively complete dictionary to assist all students hobbyists scientists and interested parties in the fields of Gems and Gemology The forerunner to this book was called Dictionary of Gems and Gemology English Persian Persian English published in Tehran Iran in 1997 It was written with the aid of more than thirty reference books relating to gemology In response to the effort required to clarify the terms within I decided to compile a book that brings all the relevant terms into one book This new book eliminates the use of different reference books and compiles nearly all the relevant terms into a one stop useful text It took twenty five years to collect the terms and the information so as to present a complete and functional lexicon The text is supported by nearly 170 illustrations and 21 tables to provide detailed and succinct information I hope and trust that this book will reach the high standard of other gemological dictionaries If you have criticisms or suggestions please feel free to contact me Professor Dr Mohsen Manutchehr Danai Los Angeles Tehran Regensburg

The Syntax of Multiple-que Sentences in Spanish Julio Villa-García,2015-03-20 Complementizers offer a window into the architecture of the left periphery and further our understanding of the demarcation of the boundaries between the C complementizer and Tense domains Using the articulated left periphery as a laboratory and Spanish constructions featuring more than one

complementizer as a point of departure the author delivers new insights into the syntactic positions and behavior of Spanish complementizer *que* along the left edge These observations have far reaching consequences to such fundamental linguistic concepts as the derivation of left dislocations ellipsis and locality of movement Of great interest to syntax graduate students and researchers in general this volume provides a stepping stone to cracking the code on several current syntactic questions including the widely contested position of preverbal subjects in null subject languages like Spanish In addition it offers the linguist a bountiful toolbox for the cross linguistic investigation of a number of left peripheral and clausal phenomena
