Gender And Civil Society:

Gender and Civil Society Jude Howell, Diane Mulligan, 2005 Over the last two decades there has been considerable enthusiasm for the concept of civil society amongst researchers practitioners and activists Yet despite this enthusiasm for the concept the gendered nature of civil society and the impact of feminist organizing on civil society has received minimal attention This edited volume seeks to address this gap and considers how the political environment and nature of the state shapes the way women organize the issues they address and their capacity to affect changes in state policies on gender is the women s movement structurally different from other civil society organizations does the gender lens alter our vision of civil society The chapters in this volume pursue two or more of these questions and cover a diversity of contexts including the US East and Central Europe China the Middle East Africa South East Asia Central America and Chile This book not only draws together the concepts of gender and civil society but also adopts an international perspective highlighting the diverse trajectories of women organizing in different country contexts and the historical cultural and political specificities of civil society

Gender and Civil Society Jude Howell, Diane Mulligan, 2004-09-30 The international scope of the case studies means that the book will appeal to the international market Civil society and gender studies are both widely studied and previous titles in these areas have sold well There are no competing titles that consider both civil society and women s political activities

New Pathways in International Development Maurizio Carbone, Marjorie Lister, 2017-11-30 Gender considerations and civil society are both major issues in the current debate about the implementation of EU development policy This volume provides a new perspective and focus on the increasingly important issues of gender equality democracy and participation to explain how they impact on policy This book will appeal to those interested in the European Union in EU external relations gender issues civil society and development

Civil Society and Gender Justice Karen Hagemann, Sonya Michel, Gunilla-Friederike Budde, 2008 Civil society and civic engagement have increasingly become topics of discussion at the national and international level The editors of this volume ask does the concept of civil society include gender equality and gender justice Or to frame the question differently is civil society a feminist concept Conversely does feminism need the concept of civil society This important volume offers both a revised gendered history of civil society and a program for making it more egalitarian in the future An interdisciplinary group of internationally known authors investigates the relationship between public and private in the discourses and practices of civil societies the significance of the family for the project of civil society the relation between civil society the state and different forms of citizenship and the complex connection between civil society gendered forms of protest and nongovernmental movements While often critical of historical instantiations of civil society all the authors nonetheless take seriously the potential inherent in civil society particularly as it comes to influence global politics They demand however an expansion of both the concept and project of civil society in order to make its political opportunities available to all

Civil Society and Gender Relations in Authoritarian and Hybrid Regimes

Gabriele Wilde,Annette Zimmer,Katharina Obuch,Isabelle-Christine Panreck,2018-09-10 Is civil society's influence favorable to the evolution of democratic structures and democratic gender relations While traditional approaches would answer in the affirmative the authors highlight the ambivalences Focusing on women's organizations in authoritarian and hybrid regimes they cover the full spectrum of civil society's possible performance from its important role in the overcoming of power relations to its reinforcement as backers of government structures or the distribution of antifeminist ideas

Women's Emancipation and Civil Society Organisations Christina Schwabenland,Chris Lange,Jenny Onyx,Sachiko Nakagawa,2016-10-05 Available Open Access under CC BY NC ND licence Women are at the heart of civil society organisations Through them they have achieved many successes challenged oppressive practices at a local and global level and have developed outstanding entrepreneurial activities Yet Civil Service Organisation CSO research tends to ignore considerations of gender and the rich history of activist feminist organisations is rarely examined This collection examines the nexus between the emancipation of women and their roles in these organisations Featuring contrasting studies from a wide range of contributors from different parts of the world it covers emerging issues such as the role of social media in organising the significance of religion in many cultural contexts activism in Eastern Europe and the impact of environmental degradation on women's lives Asking whether involvement in CSOs offers a potential source of emancipation for women or maintains the status quo this anthology will also have an impact on policy and practice in relation to equal opportunities

The ^AOxford Handbook of Gender and Politics Georgina Waylen,Karen Celis,Johanna Kantola,S. Laurel Weldon,2013-03-11 The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and it shows how these contributions produce a richer understanding of politics and societies *Gender, Society and Development* Maitrayee Mukhopadhyay,Shamim Meer,2008 This is an area that needs considerable research and this publication explores some of the key issues at stake

New Pathways in International Development Maurizio Carbone,2017 Gender considerations and civil society are both major issues in the current debate about the implementation of EU development policy This volume provides a new perspective and focus on the increasingly important issues of gender equality democracy and participation to explain how they impact on policy This book will appeal to those interested in the European Union in EU external relations gender issues civil society and development Provided by publisher Women, Civil Society and the Geopolitics of Democratization Denise M. Horn,2010-04-19 Over the past decade democratization and civil society promotion became key variables in preserving global security and the liberal economic market This book examines the prevalence of democratization policies as a hegemonic geopolitical tool these policies represent a concerted political effort in which civil society organizations are manipulated through funding strategies Denise Horn offers a fresh innovative feminist constructivist perspective by arguing that Western gender norms i.e. those norms that determine degrees of participation within civil society inform the policies of

hegemonic powers and transform the foundations of civil society in transitional states This powerful volume will be of interest to students and scholars in Gender and Women s Studies Political Science and International Relations

Mainstreaming Gender in Government Gender Advocacy Programme (Cape Town).,2001 *Governing Women* Anne Marie Goetz,2009-01-13 Using case studies from around the world this volume argues that good governance from a gender perspective requires more than just additional women in politics it requires fundamental incentive changes to orient public action and policy to support gender equality

Women's voices in civil society organizations: Evidence from a civil society mapping project in Mali Bleck, Jaimie,Gottlieb, Jessica,Kosec, Katrina,Boss, Lindsey,2021-04-19 Tremendous optimism prevails around bottomup accountability a situation in which citizens effectively hold their government to account This contrasts with top down accountability whereby higher tiers of governments donors or nongovernmental organizations NGOs fulfill this role by restraining monitoring and rewarding or sanctioning government Bottom up accountability can involve direct citizen participation often involving efforts to provide them information voice and involvement in policymaking or can be mediated through civil society organizations CSOs that monitor and potentially reward or sanction government A large variety of different types of CSOs exist distinguished both by their organizational purpose and the composition of their membership possibly with different willingness and ability to hold government accountable Civil Society, Care Labour, and the Women, Peace and Security Agenda Caitlin Hamilton,Anuradha Mundkur,Laura J. Shepherd,2021-03-31 This book proposes that work on the Women Peace and Security agenda undertaken by civil society actors can be interpreted as a form of care labour that nourishes and sustains the agenda without which the agenda could not in fact succeed The care labour of civil society is thus a condition of the Women Peace and Security agenda s success United Nations Security Council resolution 1325 is the foundation of a diverse and pluralising policy framework known as the Women Peace and Security agenda Over the 20 years since the adoption of the foundational resolution despite sustained resistance from some quarters and a general lack of adequate resourcing and political will the agenda has continued to see many successes and to achieve elements of political transformation large and small This book explores how the supporting constituency of the agenda has made 1325 work Based on new interviews with representatives of diverse civil society organisations working on WPS the book offers a novel intervention into WPS scholarship which has thus far paid relatively little attention to the labours of civil society actors working on WPS particularly on an individual level The authors consider the motivations pressures and frustrations experienced by WPS civil society actors as well as the goals and challenges This book is based on original research and will be of interest to scholars policymakers and practitioners working on WPS specifically and those working in Political Science International Relations Development Studies and on the global governance of peace and security It will also be relevant for students in WPS focused programs and of peace and security studies more broadly

Women, Civil Society and Policy Change in the Arab World Nasser Yassin,Robert Hoppe,2019-03-19 This book examines the ways in

which Arab civil society actors have attempted to influence public policies In particular the book studies the drive towards a change of policies that affect women and their well being It does so through the lens of women civil society activism and through analysis of cases of policy reform in three Arab countries namely Lebanon Morocco and Yemen The book addresses the tension between policy change and state repression between Islamic traditional religious values and civil secular ones between the formal and the informal channels for policy making One of the first books to reflect on the capability of Arab civil society actors to influence change it traces recent policy evolution from before the Arab Uprisings in 2011 until the present day and describes the limited ability of civil society actors to induce change and substantiate it over recent decades The book explores the use of policy theories in the analysis of cases and reflects on the possibility of applying and adapting those concepts largely applied in the Western world to encompass policymaking in the Arab world without conceptual overstretch

Beyond the Barricades Tracy Fitzsimmons, 2021-07-28 First published in 2000 Beyond the Barricades explores how a transition to democracy affects civil society by tracing the levels and arenas of organized participation both before and after democratization The group hardest hit by this transition to democracy is women who are often surprised to discover that democracies do not necessarily yield more gender equality or more opportunities for participation than dictatorships

Gender, Activism, and International Development Intervention in Kyrgyzstan Joanna Pares Hoare, 2021-04-19 The collapse of the Soviet Union brought about the sudden expansion of the developing world as the populations of many of the former Soviet republics were abruptly plunged into poverty and international development agencies rushed to their aid In this account of development intervention since 1991 in Kyrgyzstan one of these republics Joanna Pares Hoare draws on feminist critiques to chart how concepts of gender equality civil society and activism came to be instrumentalised in development interventions in the post Soviet space Ethnographic data gathered through interviews and observation with employees and volunteers in local NGOs provides further insight into what this has meant for activists in Kyrgyzstan who are striving for progressive social change

Gender and Politics in Kuwait Meshal Al-Sabah, 2013-07-11 The role of women in politics in the Gulf is a much debated and often little understood subject in the West In Gender and Politics in Kuwait the author sheds new light on the struggle of Kuwaiti women for political participation examining both the positions women hold in society and politics and the discourses surrounding feminism and civil rights He charts the history of women and their contribution to the Kuwaiti state from independence and the writing of the constitution in the 1960s through the Iraqi occupation in 1990 to the struggle for the right to vote and stand for election in the twenty first century Drawing on the experiences of women in a range of roles in Kuwaiti society including government education employment civil society and the media this is a comprehensive examination of gender politics and its impact in the Middle East

All Equally Real: Femininities and

Masculinities Today Anna Pilińska, Harmony Sigamoria, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume is a collection of research papers which deem gender identities to be dynamic and multiple categories refusing resolutely to reduce their complexity to fit neat extant binaries It attempts to grapple with the dialectic which emerges from the fact that while there is a certain resistance to being labeled in contemporary discourses on sexuality gender identities actively influence how we interpret the world and how we function within it we exist amongst patterns models and behaviours as well as among people who virtually demand to be labeled because to them this forms the basis of a stable identity Various cultural perspectives and realities are here given voice bringing to bear upon the reader the need to identify privileges they might take for granted but which are unobtainable elsewhere As the curtain of one's own cultural context is lifted this volume hopes that these privileges are even if for a moment no longer invisible
