Everyday Crime, Criminal Justice and Gender in Early Modern Bologna Sanne Muurling, 2020-12-15 Female protagonists are commonly overlooked in the history of crime especially in early modern Italy where women's scope of action is often portrayed as heavily restricted This book redresses the notion of Italian women's passivity arguing that women's crimes were far too common to be viewed as an anomaly Based on over two thousand criminal complaints and investigation dossiers Sanne Muurling charts the multifaceted impact of gender on patterns of recorded crime in early modern Bologna While various socioeconomic and legal mechanisms withdrew women from the criminal justice process the casebooks also reveal that women as criminal offenders and savvy litigants had an active hand in keeping the wheels of the court spinning

Gender and Petty Violence in London, 1680-1720 Jennine Hurl-Eamon, 2005 Looking at a heretofore overlooked set of archival records of

London in the late 17th and early 18th centuries Hurl Eamon reassesses the impact of gender on petty crime and its prosecution during the period This book offers a new approach to the growing body of work on the history of violence in past societies By focusing upon low cost prosecutions in minor courts Hurl Eamon uncovers thousands of assaults on the streets of early modern London Previous histories stressing the masculine nature of past violence are questioned here women perpetrated one third of all assaults In looking at more mundane altercations rather than the homicidal attacks studied in previous histories the book investigates violence as a physical language with some forms that were subject to gender constraints but many of which were available to both men and women Quantitative analyses of various circumstances surrounding the assaults including initial causes weapons used and injuries sustained outline the patterns of violence as a language Hurl Eamon also stresses the importance of focusing on the prosecutorial voice In bringing the court s attention to petty attacks thousands of early modern men and women should be seen as agents rather than victims This view is especially interesting in the context of domestic violence where hundreds of wives and servants prosecuted patriarchs for assault and in the Mohock Scare of 1712 where London s populace rose up in opposition to aristocratic violence The discussion is informed by a detailed knowledge of assault laws and the rules governing justices of the peace

**Revisiting Gender in European History, 1400-1800** Elise M. Dermineur, Åsa Karlsson Sjögren, Virginia Langum, 2018-04-17 Do women have a history Did women have a renaissance These were provocative questions when they were raised in the heyday of women s studies in the 1970s But how relevant does gender remain to premodern history in the twenty first century This book considers this question in eight new case studies that span the European continent from 1400 to 1800 An introductory essay examines the category of gender in historiography and specifically within premodern historiography as well as the issue of source material for historians of the period The eight individual essays seek to examine gender in relation to emerging fields and theoretical considerations as well as how premodern history contributes to traditional concepts and theories within women s and gender studies such as patriarchy

**Gender in Late Medieval and Early Modern Europe** Marianna Muravyeva, Raisa Maria Toivo, 2013-02-15 This project is an attempt to challenge the canonical gender concept while trying to specify what gender was in the medieval and early modern world Despite the emphasis on individual identity and difference that past research claims much of this history still focuses on hierarchical or dichotomous paring of masculinity and femininity or male and female The emphasis on differences has been largely based on the research of such topics as premarital sex religious deviance rape and violence these are topics that were in the early modern society criminal or at least easily marginalizing The central focus of the book is to test verify and challenge the methodology and use the concept s of gender specifically applicable to the period of great change and transition The volume contains two theoretical sections supplemented by case studies of gender through specific practices such as mysticism witchcraft crime and legal behaviour The first section Concepts analyzes certain useful notions such as patriarchy and morality The second section Identities seeks to deepen this

analysis into the studies of female identities in various situations cultures and dimensions and to show the fluidity and flexibility of what is called femininity nowadays The third part Practises seeks to rethink the bigger narratives through the case studies coming from Northern Europe to see how conventional ideas of gender did not work in this particular region The case studies also challenge the established narratives in such well research historiographies as witchcraft and sexual offences and at the same time suggest new insights for the developing fields of study such as history of homicide Police Courts in Nineteenth-Century Scotland, Volume 1 David G.
