From Gender to Nation Julie Mostov, Rada Ivekovic (eds.), 2004-01-01 The essays in the volume consider the significance of nation and gender in the context of post 1989 transitions in the former Soviet Union and Yugoslavia and in the context of post partition India The texts critique the ways in which narratives of nationhood and womanhood naturalize and essentialize difference and hierarchy The authors explore uses of sexualized gendered imagery in defining the space of the nation and sexualized gendered metaphors of state fatherhood and motherhood in defining the distribution of power within that space of the nation e.g. feminized landscapes and battlefields and sexualized gendered metaphors of state fatherhood and motherhood in defining the distribution of power within that space The particular histories of nationalism and partition are different in the countries involved but commonalities in the narrative structures state and nation building strategies patriarchal patterns of control and mechanisms of inclusion and exclusion are striking This is particularly so with respect to the ways in which exclusive national identities are constituted through gendered representations of the nation and its members

Mackie, Ulrike Wöhr, 2014-07-25 *Gender Nation and State in Modern Japan* makes a unique contribution to the international literature on the formation of modern nation states in its focus on the gendering of the modern Japanese nation state from the late nineteenth century to the present. References to gender relations are deeply embedded in the historical concepts of nation and nationalism and in the related symbols, metaphors and arguments. Moreover, the development of the binary opposition between masculinity and femininity and the development of the modern nation state are processes which occurred simultaneously. They were the product of a shift from a stratified hereditary class society to a functionally differentiated social body. This volume includes the work of an international group of scholars from Japan, the United States, Australia and Germany which in many cases appears in English for the first time. It provides an interdisciplinary perspective on the formation of the modern Japanese nation state including comparative perspectives from research on the formation of the modern nation state in Europe, thus bringing research on Japan into a transnational dialogue. This volume will be of interest in the fields of modern Japanese history, gender studies, political science and comparative studies of nationalism. *Dangerous Liaisons*, 1997. *From Gender to Nation* Rada Iveković, Julie Mostov, 2004. This volume considers the significance of nation and gender in the context of post 1989 transitions in the former Soviet Union and Yugoslavia and in the context of post partition India. The texts critique the ways in which narratives of nationhood and womanhood naturalize and essentialize difference and hierarchy. The authors explore uses of sexualized gendered imagery in defining the space of the nation and sexualized gendered metaphors of state fatherhood and motherhood in defining the distribution of power within that space. *Gender, Nation and Women Politicians in Serbia and Kosovo* Gordana Subotić, 2022-03-30. This book examines the ways women politicians in Serbia and Kosovo have imagined, constructed and politicised national identity and gender while engaging with politics in the context of the democratisation process. The first book to focus on the work of women inside political structures, it draws on participant observation and interview material to answer the question of how women in positions of power and influence deal with their national identity and gender in societies deeply divided along ethnic lines. Based on close studies of the work of a small number of women from different ethnic backgrounds, the author offers comparative analyses of the ways in which women politicians of different ethnicities respond to similar events in their everyday work. An original political ethnography that considers engagement of women in formal politics, this volume will appeal to scholars across the social sciences with interests in political structures and political participation, particularly as these relate to questions of gender, nation and ethnicity. **Gender. Nation. Text.** Lorraine Kelly, Tina-Karen Pusse, Jennifer Wood, 2017. The selected essays focus primarily on Europe and Latin America and consider the implications of colonialism, dictatorship and the transition to

democracy on national identities as well as the deliberate use of gendered language and images in the development of discourses of hegemony frequently used to underpin support for individual political regimes or as a call to arms to defend national patrimony Series Cultural Studies Kulturwissenschaft Estudios Culturales Etudes Culturelles Vol 55 Subject Gender Studies Politics Sociology Cultural Studies **The ^AOxford Handbook of Gender and Politics** Georgina Waylen, Karen Celis, Johanna Kantola, S.
