Gender, Development, and Climate Change Rachel Masika, 2002 This book considers the gendered dimensions of climate change. It shows how gender analysis has been widely overlooked in debates about climate change and its interactions with poverty and demonstrates its importance for those seeking to understand the impacts of global environmental change on human communities. *Distributional Impacts of Climate Change and Disasters* Matthias Ruth, Northeastern University, US and , 2009-01-01 Climate change tends to increase the frequency and intensity of weather related disasters which puts many people at risk. Economic, social and environmental impacts further increase vulnerability to disasters and tend to set back development, destroy livelihoods and increase disparity nationally and worldwide. This book addresses the differential vulnerability of people and places, introducing concepts and methods for analysis and illustrating the impact on local, regional, national and global scales. The chapters in the first section set the stage by focusing on the relationship between climate change and disasters and by broadly exploring their economic and social aftermaths. Further chapters explore particular impacts of climate change including the social, political and even military conflicts that may arise over scarce natural resources as well as the effects on biodiversity and thus the natural environment. Chapters in the last section discuss responses to climate change in terms of information sharing and preparedness, adaptation and mitigation, particularly the relevance of improving the role of markets through investment and insurance to face these challenges. Researchers and policymakers involved in the study of climate change and disaster prevention will find this comprehensive volume of great interest. **Climate Change Impacts and Women's Livelihood** Salim Momtaz, Muhammad Asaduzzaman, 2018-10-08 Very few studies have been conducted to explore the vulnerability of women in the context of climate change. This book addresses this absence by investigating the structure of women's livelihoods and coping capacity in a disaster vulnerable coastal area of Bangladesh. The research findings suggest that the distribution of livelihood capitals of vulnerable women in rural Bangladesh is heavily influenced by several climatic events such as cyclones, floods and seasonal droughts that periodically affect the region. Women face several challenges in their livelihoods including vulnerability to their income, household assets, lives and health, food security, education, water sources, sanitation and transportation systems because of ongoing climate change impacts. The findings have important policy relevance for all involved in disaster and risk management both within Bangladesh and the developing countries facing climate change impacts. Based on the research findings, the book also provides recommendations to improving the livelihoods of women in the coastal communities. This book will appeal to academics, researchers and professionals in environmental management, gender and development and climate change governance, looking at the effects of and adaptation to climate change, gender issues and natural disaster management strategies. Woman's Role in Economic Development Ester Boserup, Su Fei Tan, Camilla Toulmin, 2013-07-04 Boserup's contribution to our thinking on women's role in development cannot be underestimated. Her keen observations, her use of

empirical data and her commitment to greater gender equality are still an inspiration to students researchers and activists who are interested in a better and more equal world From the new Introduction by Nazneen Kanji Su Fei Tan and Camilla Toulmin *Women s Role in Economic Development* has become a key reference book for anyone student scholar or practitioner interested in gender and development analyses This book is important not only because it provided the intellectual underpinning of the Women in Development WID analysis but also because of the lasting influence it had on the development of theoretical conceptual and policy thinking in the fields of women gender and development The re editing of *Women s Role in Economic Development* with its new introduction ensures students academics and practitioners continued access to an essential reference for those interested in the women and development literature Gender and Development This classic text by Ester Boserup was the first investigation ever undertaken into what happens to women in the process of economic and social growth throughout the developing world thereby serving as an international benchmark In the context of the ongoing struggle for women s rights massive urbanization and international efforts to reduce poverty this book continues to be a vital text for economists sociologists development workers activists and all those who take an active interest in women s social and economic circumstances and problems throughout the world A substantial new Introduction by Nazneen Kanji Su Fei Tan and Camilla Toulmin reflects on Boserup s legacy as a scholar and activist and the continuing relevance of her work This highlights the key issue of how the role of women in economic development has or has not changed over the past four decades in developing countries and covers crucial current topics including women and inequality international and national migration conflict HIV and AIDS markets and employment urbanization leadership property rights global processes including the Millennium Development Goals and barriers to change

[Climate Change, Gender Roles and Hierarchies](#)  
Phuong Ha Pham, Donna L. Doane, 2020-11-18 This book examines changing gender roles relations and hierarchies in an ethnic minority community in Central Viet Nam After decades of war the community continued its self sufficient way of life in this remote forested mountainous region but in recent years has been forced to respond to severe climate threats combined with sudden and destabilizing socioeconomic and regulatory change Through the use of both qualitative interview based and

quantitative research methods the book offers insights into the complex interactions between climate regulatory and socioeconomic changes including paradoxically the emergence of significant problems for both the community and the environment in the wake of policies designed to protect the natural environment Facing greatly increased food and livelihood insecurity the women and men of the community were pushed into the mainstream market economy without being fully prepared to participate in an economy that is still very new to them These sudden transitions caused major shifts in gender roles and hierarchies opening up new possibilities for women to increase their social status in a highly patriarchal context but also at a cost for both women and men as women s burdens increased and men s traditional roles and livelihoods were lost The book examines recent trends including unanticipated changes and new possible policy related approaches and draws international comparisons with other ethnic minority indigenous and remote communities facing similar complex forces of change This book will be of interest to scholars and postgraduate students of climate change gender environment and public policy and development studies

**The World's Women ...**, 2010      **Training module - How to integrate gender issues in climate-smart agriculture projects** Food and Agriculture Organization of the United Nations, 2017-01-01 The purpose of the training module is to provide learners with a better understanding of what the gender roles in CSA are and their critical impact on project outcomes and sustainability The training will teach them about different methods and tools to identify formulate implement monitor and evaluate gender responsive actions and practices in CSA development projects Through the training learners will become familiar with the main concepts of gender climate change and climate smart agriculture They will also understand the relevance of gender dimensions in climate change adaptation and mitigation and in developing gender responsive CSA interventions Furthermore they will learn the steps to take and tools and approaches available for conducting gender analysis and promoting gender mainstreaming in CSA project design implementation and monitoring The manual also presents available gender climate change and CSA guidelines and other relevant materials to support learners in their work in implementing gender responsive interventions This training module provides basic information for organizing a short training workshop to develop gender mainstreaming capacities in CSA related projects throughout the whole project cycle The module mainly focuses on activities in the field It is important to recognize however that gender responsive CSA development also requires actions at the institutional and policy level as well as changes in the existing social and cultural norms The module also provides some recommendations for better integration of gender issues in governments CSA policies and strategies

**Just Transitions** Seema Arora-Jonsson, Kavya Michael, Manish Kumar Shrivastava, 2023-10-04 This book turns critical feminist scrutiny on national climate policies in India and examines what transition might really mean for marginalized groups in the country A vision of just transitions is increasingly being used by activists and groups to ensure that pathways towards sustainable futures are equitable and inclusive Exploring this concept this volume provides a feminist study of what it would take to ensure just transitions in India where gender in relation to its interesting dimensions of power is at the centre of analysis With case studies on climate mitigation and adaptation from different parts of India the book brings together academics practitioners and policymakers who provide commentary on sectors including agriculture forestry and renewables Overall the book has relevance far beyond India's borders as India's attempt to deal with its diverse population makes it a key litmus test for countries seeking to transition against a backdrop of inequality both in the Global North and South This volume will be of great interest to students and scholars of climate policy gender studies sustainable development and development studies more broadly

**Environmental Security and Gender** Nicole Detraz, 2014-08-21 Over the past 20 years scholars policymakers and the media have increasingly recognized the links between both traditional

and non traditional security issues and the changing condition of the global environment Concepts such as environmental security and resource conflict have been used to hint at these significant linkages While there has been a good deal of scholarly work conducted that seeks to identify the ways that actors link these concepts there has been little examination of the intersection between approaches to environmental security and gender This book explores this intersection to provide an insight into the gendered nature of both global environmental politics and security studies It examines how the issues of security and the environment are linked to theory and practice and the extent to which gender informs these discussions By adopting a feminist environmental security discourse this book provides crucial redefinitions of key concepts and offers new insights into the ways we understand security environment connections Case studies evaluate if and how environment and security discourses are being used to understand a range of environmental issues and how a feminist environmental security discourse contributes to our understanding of security environment connections This multidisciplinary volume draws on literature from the environmental sciences security studies and sociology to highlight the complex human insecurities that often accompany environmental change As conceptualizations of security continue to shift and broaden to include environmental issues and concerns it is imperative that gender informs the debate

Mainstreaming Gender in Global Climate Governance Joanna Flavell, 2023-02-27 This book explores the role of feminist activists in The United Nations Framework Convention on Climate Change and highlights the progress they have made in mainstreaming gender as a key issue in global climate governance It is now commonplace for gender to be framed as a political issue in global climate politics within academic scholarship but there is typically a lack of robust empirical analysis of existing advocacy approaches Filling this lacuna Joanna Flavell interrogates the political strategies of the Women and Gender Constituency WGC in the UNFCCC The United Nations Framework Convention on Climate Change Through a conceptual framework that integrates climate change with intersectional critical inquiry and political practice Flavell analyses hundreds of historical documents coupled with interviews and observations from two UNFCCC conferences This research uncovers a so far untold story about the history of the UNFCCC that foregrounds gender and feminist advocacy highlighting the importance of the WGC in shaping dominant narratives of global climate governance through a series of rhetorical and procedural strategies Overall the book draws important conclusions around power in global climate governance and opens up new avenues for advancing a feminist green politics This volume will be of great interest to students and scholars of environmental justice climate politics and governance environmental activism and gender studies more broadly An electronic version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license thanks to the support of libraries working with Knowledge Unlatched KU KU is a collaborative initiative designed to make high quality books Open Access for the public good The Open Access ISBN for this book is 9781003306474 More information about the initiative and links to the Open Access version can be found at [www.knowledgeunlatched.org](http://www.knowledgeunlatched.org)

**Gender and Social Protection in the Developing World** Rebecca Holmes, Nicola Jones, 2013-03-14 Millions of pounds of international development funds are invested annually in social protection programmes to tackle poverty Poverty is perpetuated by risk and vulnerability much of which is gendered Despite this little attention has been paid to gender sensitive policy and programme design and implementation Gender and Social Protection in the Developing World introduces a much needed gender lens to these debates Drawing on empirical evidence from poor households and communities in Africa Asia and Latin America the book provides rich insight into the effects of a range of social protection instruments It concludes that with relatively simple changes to design and with investment in implementation capacity social protection can contribute to transforming gender relations at the individual intrahousehold and community levels With a foreword by Stephen Devereux *The gender box: A framework for analysing gender roles in forest management* Carol J Pierce Colfer, 2013-01-23 Recognising widespread uncertainty about how to address gender within the forestry world from researchers as well as natural resource development and conservation practitioners this paper strives to provide targeted guidance We divide gender methods into three main approaches based on the availability of resources In the first section we provide a brief discussion of theory and method Then after discussing some all purpose methods we classify methods loosely into categories of quick and more or less dirty systematic academic studies and collaborative studies We argue that although there is legitimate space for all three approaches the last is the most likely to result in long term and meaningful improvements in forests and human well being
