Gender Drink And Drugs:

Gender, Drink and Drugs Maryon McDonald, 2020-08-18 Why do so many people feel compelled to drink alcohol or take drugs And why do so many men drink and so many women refrain Using ideas from social anthropology this book attempts to provide a novel answer to these questions The introduction surveys both gender and addiction It points out that we cannot say what men or women are really like in any culturally innocent sense for gender is always even in the realm of biology a cultural matter The ethnographic chapters ranging from Ancient Rome to modern Japan similarly suggest how any substance from alcohol to tea to heroin inevitably takes its meaning or reality in the cultural system in which it exists This book will be of interest to medical anthropologists medical sociologists anyone with an interest in the contemporary direction of anthropology as well as those working in the fields of alcohol and addiction

Alcohol, Gender and Culture Dimitra Gefou-Madianou, 2002-01-04 Europeans constitute 12 and a half per cent of the world's population but consume 50 per cent of the recorded world production alcohol and this consumption plays a significant role in the cultural religious and social identities of these countries The contributors show how different groups define the proper use of alcohol how State policies may effect drinking behaviour and highlight how beverages and comestibles must be seen in relation to each other From this it is shown how important socio cultural distinctions are made between and within communities gender relations ethnic groups and socio economic groups and within religious ideologies what one drinks how one drinks with whom and where all influence not how alcoholic substances are regarded but how social relations are experienced *Alcohol Gender and Culture* clearly demonstrates how the social construction of drinking may provide an analytical tool with which to approach different socio cultural groups and illustrates how any cultural group can be compared to another by its attitudes to alcohol It will be invaluable reading for students and lecturers of anthropology cultural history and gender studies
