## **Gender In Modern Britain:**

*Gender in Modern Britain* Nickie Charles, 2002 Nickie Charles discusses theoretical developments in the sociological study of gender providing an overview of how conceptual shifts have affected not only what is studied which is itself changing but also how it is studied and the questions that are asked The empirical areas that provide the focus of the book are paid employment domestic labour parenting education the crisis of masculinity sexuality and politics Although the book is centrally concerned with gender attention is paid to other bases of inequality and social identities such as class ethnicity and sexuality Throughout the author engages with contemporary debates about the significance of changes in gender relations showing that while there has been very real change in some areas of social life in others there has been remarkable continuity Finally gender relations in Britain are situated in international context and linked to global social and economic processes and divisions of labour This important new study of gender in modern Britain provides a succinct and clearly written textbook for students on gender studies women s studies and sociology of gender courses [Gender, Labour, War and Empire](#) Philippa Levine, Susan R. Grayzel, 2008-12-11 A lively collection of essays on the cultures of nineteenth and twentieth century Britain Topics range from prostitution and slavery to the effect of war on fashion magazine reporting to inter racial marriage in the postwar years Particular areas of focus include the Second World War its legacies and the reactions to postwar decolonization *Women Making News* Michelle Elizabeth Tusan, 2005 Starting in the mid nineteenth century female editors and journalists created a new genre of political journal they proclaimed to be both for and by women Specialized periodicals like Women s Penny Paper and Shafts fostered the proliferation of diverse political agendas aimed at reimagining women s status in society At the same time the institutional infrastructure of the women s press provided women with job opportunities in a nontraditional field Michelle Tusan tells two stories First she examines alternative print based political cultures that women developed during the late nineteenth and early twentieth centuries Second she explores how British female subjects forged a wide range of new political identities through the pages of their press Tusan employs social and cultural historical analysis in the reading of popular printed texts as well as rare and previously unpublished personal correspondence and business records from archives throughout Britain Insightful and filled with fascinating detail *Women Making News* uncovers how the relationship between print culture and gender politics provided a vehicle for women s mobilization in the political culture of modern Britain [Men and masculinities in modern Britain](#) Matt Houlbrook, Katie Jones, Ben Mechen, 2024-01-16 *Men and masculinities* provides an engaging accessible and provocative introduction to histories of masculinity for all readers interested in contemporary gender politics The book offers a critical overview of ongoing historiographical debates and the historical making of men s lives and identities and ideas of masculinity between the 1890s and the present day In setting out a new agenda for the field it makes an ambitious argument for the importance of writing histories which are present centred and politically engaged This means that the book engages head on with ferocious

debates about men's social position and the status of masculinity in contemporary public life. In establishing a critical genealogy for the proliferation of this crisis talk it sets out new ways of understanding how men's lives and ideas of masculinity have changed over time while patriarchy and male power have persisted. *Precarious Professionals* Heidi Egginton, Zoë Thomas, 2021-04-30 *Making Youth: A History of Youth in Modern Britain* Melanie Tebbutt, 2017-09-16 This new study explores how British youth was made and how it made itself over the nineteenth and twentieth centuries. Urbanisation and industrialisation brought challenges that altered how young people were both perceived and understood. As adults found it difficult to comprehend the rapidity of societal change focus on the young intensified and they became a symbol of uncertainty about the future. Highlighting both change and striking continuity Melanie Tebbutt traces the origins and development of key themes and debates in the history of modern British youth. Current issues such as the ageing of western societies, high levels of youth unemployment and the potential for social and political unrest make this a timely study.

Seeking Love in Modern Britain Zoe Strimpel, 2020-03-05 Seeking Love in Modern Britain charts the emergence of the modern British single through an account of the dating industry that sprang up to serve men and women. It shows how amid a period of unprecedented sexual and social change the single became a key unisex identity and lifestyle. From around 1970 a growing cottage style matchmaking industry in Britain was offering the romantically solo a choice between computer dating firms such as Dateline or Computate introduction agencies and the lonely hearts pages of Private Eye, Time Out and others. Zoe Strimpel reveals how this rapidly expanding landscape of services was catering to a new breed of single people and how by the late 1990s singleness had become the culturally mainstream, wholly expected part of the romantic life cycle that it is today. Refuting the widespread idea that the Internet invented modern dating this book uses an eclectic and engaging range of first person accounts and snapshots from the time to show that the story of contemporary romance mediated courtship and singleness began in a time long before Tinder.

**Gender in Late Medieval and Early Modern Europe** Marianna Muravyeva, Raisa Maria Toivo, 2013 This project is an

attempt to challenge the canonical gender concept while trying to specify what gender was in the medieval and early modern world Despite the emphasis on individual identity and difference that past research claims much of this history still focuses on hierarchical or dichotomous pairing of masculinity and femininity or male and female The emphasis on differences has been largely based on the research of such topics as premarital sex religious deviance rape and violence these are topics that were in the early modern society criminal or at least easily marginalizing The central focus of the book is to test verify and challenge the methodology and use the concepts of gender specifically applicable to the period of great change and transition The volume contains two theoretical sections supplemented by case studies of gender through specific practices such as mysticism witchcraft crime and legal behaviour The first section Concepts analyzes certain useful notions such as patriarchy and morality The second section Identities seeks to deepen this analysis into the studies of female identities in various situations cultures and dimensions and to show the fluidity and flexibility of what is called femininity nowadays The third part Practises seeks to rethink the bigger narratives through the case studies coming from Northern Europe to see how conventional ideas of gender did not work in this particular region The case studies also challenge the established narratives in such well researched historiographies as witchcraft and sexual offences and at the same time suggest new insights for the developing fields of study such as history of homicide

**Gender and Policing in Early Modern England** Jonah Miller, 2023-06-15 This book traces the beginnings of a shift from one model of gendered power to another Over the course of the seventeenth and early eighteenth centuries traditional practices of local government by heads of household began to be undermined by new legal ideas about what it meant to hold

office In London this enabled the emergence of a new kind of officeholding and a new kind of policing rooted in a fraternal culture of official masculinity London officers arrested searched and sometimes assaulted people on the basis of gendered suspicions especially poorer women Gender and Policing in Early Modern England describes how a recognisable form of gendered policing emerged from practices of local government by patriarchs and addresses wider questions about the relationship between gender and the state

*Gender, Work and Education in Britain in the 1950s* S. Spencer, 2005-08-17 Improvements in education and economic expansion in the 1950s ensured a range of school leaving employment opportunities Yet girls' full acceptance as adult women was still confirmed by marriage and motherhood rather than employment This book examines the gendered nature of career Using both written sources and oral history it enters the theoretical debate over the significance of gender by considering the relationship between individual women and the dominant representation of Woman

and Margery Allingham but also those who have received comparatively little such as Christianna Brand Ngaio Marsh Gladys Mitchell Josephine Tey and Patricia Wentworth Through its original readings this book explores the ambivalent nature of modes of femininity depicted in golden age crime fiction and shows that seemingly conservative resolutions are often attempts to provide a modern yet safe solution to the conflicts raised in the texts

**Gender Inequalities, Households and the Production of Well-Being in Modern Europe** Tindara Addabbo, Marie-Pierre Arrizabalaga, Alastair

Owens, 2016-04-22 Feminist scholars have long pointed out the relevance of the unpaid work that goes on within European households in sustaining the well being of the continent's populations However care work and domestic labour continue to be largely unremunerated and unequally distributed by gender This unique volume of interdisciplinary essays casts new light on the roles that households play in securing the well being of individuals and families uncovering the processes of bargaining and accommodation and conflict and compromise that underpin them Contributors put gender at the centre of their analyses demonstrating the uneven experiences of men and women as both providers and receivers of welfare in European households in both the past and the present As European states grapple with changing family forms a growing population of dependent people increased participation of women in labour markets and a profound shift in the nature and organisation of work this book makes a timely contribution to our understanding of the critical role played by households in mediating processes of economic and social change It offers new challenges to scholars researchers and policy makers eager to address gender inequalities and enhance well being This book is the second of four volumes being published as part of Ashgate's Gender and Well Being series that arise from a programme of international symposia funded by the European Science Foundation under the auspices of COST European Cooperation in the field of Scientific and Technical Research
