Gender In Translation Culture Identity And Politics Of Transmission:

Gender in Translation Sherry Simon, 2003-09-02 *Gender in Translation* is a broad ranging imaginative and lively look at feminist issues surrounding translation studies. Students and teachers of translation studies, linguistics, gender studies and women's studies will find this unprecedented work invaluable and thought provoking. She takes a close look at specific issues which include the history of feminist theories of language and translation studies, linguistic issues including a critical examination of the work of Luce Irigaray, a look at women translators through history from the Renaissance to the twentieth century, feminist translations of the Bible, an analysis of the ways in which French feminist texts such as De Beauvoir's *The Second Sex* have been translated into English. Considering established topics such as censorship, gender, translation under fascism, translators and interpreters at war, as well as emerging topics such as translation and development, the politics of localization, translation and interpreting in democratic movements and the politics of translating popular music, the handbook offers a global and interdisciplinary introduction to the intersections between translation and interpreting studies and politics. Translation and Identity in the Americas Edwin Gentzler, 2012-11-12 Translation is a highly contested site in the Americas where different groups often with competing literary or political interests vie for space and approval. In its survey of these multiple and competing groups and its study of the geographic, socio-political and cultural aspects of translation, Edwin Gentzler's book demonstrates that the Americas are a fruitful terrain for the field of translation studies. Building on research from a variety of

disciplines including cultural studies linguistics feminism and ethnic studies and including case studies from Brazil Canada and the Caribbean this book shows that translation is one of the primary means by which a culture is constructed translation in the Americas is less something that happens between separate and distinct cultures and more something that is capable of establishing those very cultures Using a variety of texts and addressing minority and oppressed groups within cultures Translation and Identity in the Americas highlights by example the cultural role translation policies play in a discriminatory process the consequences of which can be social marginalization loss of identity and psychological trauma Translation and Identity the Americas will be critical reading for students and scholars of Translation Studies Comparative Literature and Cultural Studies
