Gender Perspectives On Health And Medicine Key Themes:

Gender Perspectives on Health and Medicine Marcia Texler Segal, Vasilikie Demos, Jennie Jacobs Kronenfeld, 2003-10-23 Offers a critique of biomedical approaches to personal and public health and calls for more sociological input qualitative research and an intersectional approach to help us understand various aspects of health and illness This volume is about gender health and medicine broadly defined

Gendered Perspectives on Conflict and Violence Marcia Texler Segal, Vasilikie (Vicky) Demos, 2013-10-25 The chapters in this two part volume explore components of the emerging global discourse regarding gender and violence from a feminist and social scientific perspective The authors address gender based violence broadly as an attribute of social structures as well as individuals and include LGBTQ individuals in its conceptualization of gender

Gendered Perspectives on Conflict and Violence Vasilikie (Vicky) Demos, Marcia Texler Segal, 2014-05-12 This volume offers understandings of the relationship between violence and gender from the global to the domestic level Authors trace the history of feminist antiviolence efforts theorize the reproduction of symbolic gender violence and show how violence might be re conceptualized in comparative and intersectional perspectives

Women's Health in Canada Marina Morrow, Olena Hankivsky, Colleen Varcoe, 2008-05-03 In recent years healthcare professionals have recognized the distinctly different healthcare needs and concerns of men and women Women's health in particular has come into its own in the last two decades In Canada however there has been little available in the way of a general text on women's health This volume works toward filling that gap by providing a resource for teaching and understanding women's health in this country To lay out the methodological and theoretical foundations for their study editors Olena Hankivsky Marina Morrow and Colleen Varcoe bring together an interdisciplinary group of scholars and practitioners from economics anthropology sociology nursing political studies women's studies and psychology Contributors draw on the rich history of the Canadian women's health movement providing analysis of that history and of the emergent theory policy and practice Aimed at undergraduate and graduate students as well as practitioners the collection adopts an intersectional approach looking closely at social factors such as gender race ethnicity class sexuality and gender identity and analysing how they relate both to each other and to women's health Connections between the social economic and cultural contexts of women's lives and their physical spiritual and mental well being are a primary focus Providing a much needed resource for teachers students and practitioners of women's health in Canada this comprehensive volume makes an important contribution to the literature

Analyzing Gender, Intersectionality, and Multiple Inequalities Esther Ngan-Ling Chow, Marcia Texler Segal, Tan Lin, 2011-06-09 Includes papers presented at the conference Gender and Social Transformation Global Transnational and Local Realities and Perspectives Beijing China in 2009 This title addresses topics such as divisions of labor migration war and peace building

Technology and Equality Sven Ove Hansson, Colleen Murphy, 2024-12-15 We live in a world of rapidly growing gaps between rich and poor In the rich parts of the world new

resource consuming devices are launched every year But at the same time about a fourth of the world's population does not have access to clean drinking water and more than half lack safely managed sanitation What role does technology have in these growing global inequalities Is technological development the root cause of inequality Or is the unequal distribution of technology just a mirror of social inequities that have other causes And can new technologies be instrumental in making the world less unfair In *Technology and Equality* these issues are addressed from a wide range of perspectives by scholars in disciplines such as history sociology gender studies anthropology economics law ethics and philosophy Case studies highlight technology related inequalities for instance in climate mitigation public transport access to water waste management sanitation air pollution healthcare digital communication and law enforcement The more theoretical chapters provide tools and concepts that are helpful for analyzing and understanding the relationships between technology and inequality in other applications and in more general perspectives

Gender Equity in Health Gita Sen, Pirooska Östlin, 2009-10-16 This volume brings together leading researchers from a variety of disciplines to examine three areas health disparities and inequity due to gender the specific problems women face in meeting the highest attainable standards of health and the policies and actions that can address them

Perceiving Gender Locally, Globally, and Intersectionally Vasiliki (Vicky) Demos, Marcia Texler Segal, 2009-06-26 Addresses questions about how feminist scholars conceptualize gender and view it in relationship to other attributes of individuals and of social systems This book strives for intersectional analyses broadening that approach beyond the gender race and class paradigm to include sexuality employing a variety of methodologies

Interactions and Intersections of Gendered Bodies at Work, at Home, and at Play Marcia Texler Segal, 2010-07-16 Includes articles that examine the intersection of gender with other characteristics in a variety of settings including factory floors and corporate offices welfare offices state legislatures the armed forces universities social clubs and playing fields

Applied Philosophy for Health Professions Education Megan E. L. Brown, Mario Veen, Gabrielle Maria Finn, 2022-05-17 This book increases the accessibility of philosophical concepts to a wider audience within medical education translating knowing to doing It prompts health professions educators and researchers to consider the dynamics and structure of contemporary issues within health professions education in new philosophical ways Through considering the practical implications of applying philosophical concepts to contemporary issues the book recommends avenues for further research and pedagogical change Individual educators are considered with practice points for teaching generated within each chapter Readers will acquire practical ways in which they can change their own practice or pedagogy that align with the new insight offered through our philosophical analysis These practical recommendations may be systemic in nature but the authors of this book also offer micro level recommendations for practitioners that can be considered as ways to improve individual approaches to education and research

Disability, Gender and the Trajectories of Power Asha Hans, 2024-09-30 This book explores the gendered experience of disability It investigates how women with disabilities fare in society focusing on the experiences of

women and their interactions with family society and medical and legal institutions Women with disabilities face unprecedented levels of violence oppression and marginalisation in their daily lives as well as a lack of visibility proper care and opportunities for socio economic development This book examines the reasons and consequences of the stigmatisation of disabilities and neurodivergence denial of proper care and various forms of exclusion and violence women with disabilities face both within and outside of their homes It brings together the perspectives of academicians and activists that try and understand the various challenges faced by women with disabilities and highlights the fight for their right to autonomy respect equality and justice Filling the gap in the existing feminist research this revised edition seeks to influence the way in which society treats women with disabilities and will be of interest to scholars and researchers in the field of women s rights disability rights rehabilitation social policy and the body

Advancing Gender Research from the Nineteenth to the Twenty-First Centuries Marcia Texler Segal,Vasilikie (Vicky) Demos,2008-08-30 Consists of essays that discuss and analyze the 19th Century writings of Harriet Martineau British Author considered to be early examples of sociology and gender studies Continuing in the tradition established by the Advances in Gender Research series this title explores gender as a social institution and social construct

An Introduction to the Geography of Health Helen Hazen,Peter Anthamatten,2019-11-26 In the second edition of *An Introduction to the Geography of Health* Helen Hazen and Peter Anthamatten explore the ways in which geographic ideas and approaches can inform our understanding of health The book s focus on a broad range of physical and social factors that drive health in places and spaces offers students and scholars an important holistic perspective on the study of health in the modern era In this edition the authors have restructured the book to emphasize the theoretical significance of ecological and social approaches to health Spatial methods are now reinforced throughout the book and other qualitative and quantitative methods are discussed in greater depth Data and examples are used extensively to illustrate key points and have been updated throughout including several new extended case studies such as water contamination in Flint Michigan microplastics pollution West Africa s Ebola crisis and the Zika epidemic The book contains more than one hundred figures including new and updated maps data graphics and photos The book is designed to be used as the core text for a health geography course for undergraduate and lower level graduate students and is relevant to students of biology medicine entomology social science urban planning and public health

Population Health in Canada Ivy Lynn Bourgeault,Ronald Labonté,Corinne Packer,Vivien Runnels,2017-12-15 Drawing on the latest research and statistics *Population Health in Canada* presents critical analyses of the most pressing population health equity issues in Canada Comprising research papers and briefs written by some of the top scholars in the field this edited collection illustrates fundamental concepts of population health including social inclusion and exclusion health as a public good and the social determinants of health The editors careful selection of the framework and contents has been designed to encourage a social justice lens to address health inequities that are systemic socially produced and unfair Sections on methodological tools

population health equity community action and current issues introduce students to the components needed to understand population health in Canada With an emphasis on theory methods interventions policy and knowledge translation this timely volume is well suited to a variety of courses on population health in social science and health studies programs

Medicalized Masculinities Christopher A. Faircloth, 2009-09-04 The first book to examine the male body in relation to the sociology of health and gender
Criminological Theory Stephen G. Tibbetts, Craig Hemmens, 2009-10-15 This book provides the best of both worlds authored text sections with carefully selected accompanying readings covering criminological theory from past to present and beyond The articles from leading journals in criminology and criminal justice reflect both classic studies and state of the art research Key Features Begins with an introductory chapter that presents a succinct overview of criminological theory and briefly describes the organization and content of the book Features How to Read a Research Article a perfect introduction to understanding how real world research is organized and delivered in the journal literature Includes a mini chapter for each Section with figures and tables that present basic concepts and provide a background for the Readings that follow Provides key terms web resources and thought provoking discussion questions for each Section along with questions for each Reading to help students develop their critical thinking skills Instructor Resources on CD include a test bank PowerPoint slides for each section classroom activities and more A Student study site provides additional articles self study quizzes e flashcards and more
Redistributing Health Thomas Allan

McIntosh, Bonnie Jeffery, Nazeem Muhajarine, 2010 What too few people realize is that as Andre Picard writes in his Foreword to *Redistributing Health* social justice or lack thereof has a greater impact on the health of the population than the human genome lifestyle choice and medical treatment The truth is that things like poverty social exclusion lack of meaningful employment and lack of access to education or good housing contribute significantly to ill health in Canada and none of these will be remedied by doctors or hospitals or pill bottles
At the center Vasilikie (Vicky) Demos, Marcia Texler

Segal, 2015-08-24 This volume reflects on how the study of gender has changed and how studying gender has affected our research methods and our knowledge of the world around us The interdisciplinary nature of gender studies and the cross pollination of theoretical perspectives are illustrated as is the globalization of gender theory research and policies
Aging Men, Masculinities and Modern Medicine Antje Kampf, Barbara L. Marshall, Alan Petersen, 2013-05-07 *Aging Men Masculinities and Modern Medicine* explores the multiple socio historical contexts surrounding men s aging bodies in modern medicine from a global perspective The first of its kind it investigates the interrelated aspects of aging masculinities and biomedicine allowing for a timely reconsideration of the conceptualisation of aging men within the recent explosion of social science studies on men s health and biotechnologies including anti aging perspectives This book discusses both healthy and diseased states of aging men in medical practices bringing together theoretical and empirical conceptualisations Divided into four parts it covers Historical epistemology of aging bodies and masculinity and the way in which the social sciences have

theorised the aging body and gender Material practices and processes by which biotechnology medical assemblages and men s aging bodies relate to concepts of health and illness Aging experience and its impact upon male sexuality and identity The importance of men s roles and identities in care giving situations and medical practices Highlighting how aging men s bodies serve as trajectories for understanding wider issues of masculinity and the way in which men s social status and men s roles are made in medical cultures this innovative volume offers a multidisciplinary dialogue between sociology of health and illness anthropology of the body and gender studies *Handbook of Research on Global Indicators of Economic and Political Convergence* Das, Ramesh Chandra, 2016-07-27 The development of a nation can be influenced by a wide range of factors In the modern era of globalization under developed countries must strive to catch up to developed nations and establish themselves in the global market The Handbook of Research on Global Indicators of Economic and Political Convergence is a pivotal reference source for the latest scholarly research on social political and environmental variables that affect the ability of developing countries to reach an equal standing in the global economy Highlighting theoretical foundations critical analyses and real world perspectives this book is ideally designed for researchers analysts professionals and upper level students interested in emerging convergence and divergence trends in modern countries

The Enigmatic Realm of **Gender Perspectives On Health And Medicine Key Themes**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Gender Perspectives On Health And Medicine Key Themes** a literary masterpiece penned with a renowned author, readers attempt a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of those that partake in its reading experience.
