Embodied Entanglements: Gender, Identity, and the Corporeal in Asia

Zawiszová, Halina, Strafella, Giorgio, Lavička, Martin, Ideas on the human body gender and identity lie at the core of many socio political issues and cultural trends in Asia today while also inspiring innovative research on artistic expression from Asia's past. By focusing on socio political as well as cultural issues from diverse geographical and historical contexts this book highlights complex links and interactions that bind these three interpretative axes. How do bodies become conduits for the expression and negotiation of gender and other identities? What do the lived experiences of women and LGBTQ people in Asia reveal about biopolitics, normative expectations and value systems in different societies? How does art reflect the representation and fashioning of gendered bodies and ambiguous identities? Cutting across the quotidian and the avant garde, activism and art, violence and pleasure as well as the intimate and the political, this book sheds new light on Asian cultures and societies spanning India, Indonesia, Japan, mainland China, Taiwan and Thailand, affirming thus the region's significance in broader debates on biopolitics, gender and human dignity.

Gendered Violence at International Festivals Louise Platt, Rebecca Finkel, 2020-03-24. Gendered Violence at International Festivals is a groundbreaking collection that focusses on this highly important social issue for the first time. Including a diverse range of interdisciplinary studies on the issue, the book contests the widely held notion that festivals are temporal spaces free from structural sexism, inequalities or gender power dynamics. Rather, they are spaces where these concerns are enhanced and enacted more freely and where the experiential environment is used as an excuse or as an opportunity to victim blame and shame. In this emerging and under researched area, the chapters not only present original work in terms of topics but also in theoretical and methodological approaches. All of the chapters are cross or interdisciplinary, drawing on gender, sexualities, cultural and ethnicity studies. Studies from a range of highly regarded academics based around the world examine the subject by looking at examples from a wide range of destinations including Spain, Argentina, Nigeria, Zimbabwe, Australia, Canada and the UK. This significant book progresses understanding and debates about gendered festival experiences and emphasises the symbolic and physical violence often associated with them. This will be of great interest to undergraduate and postgraduate students and academics in the field of Events Studies. It will also be of use to practitioners or non profit workers in the festival industries, including festival management organisations and planning committees.
