groundbreaking essays show the varied and complex ways in which ideas about sexuality gender and the body have shaped and been influenced by Russian literature history art and philosophy from the medieval period to the present day *Gender in Russian History and Culture* L. Edmondson, 2001-07-11 This volume charts the changing aspects of gender in Russia s

cultural and social history from the late seventeenth century to the Stalinist era and the collapse of the Soviet Union The works while focusing on women as a primary subject highlight in particular gender difference the construction of both femininity and masculinity in a culture that has undergone major transformation and disruptions over the period of three centuries *Libertinage in Russian Culture and Literature* Alexei Lalo, 2011-09-09 Much of the previous scholarship on

Russia s literary discourses of sexuality and eroticism in the Silver Age was built on applying European theoretical models from psychoanalysis to feminist theory to Russia s modernization This book argues that at the turn into the twentieth century Russian popular culture for the first time found itself in direct confrontation with the traditional high cultures of the upper classes and intelligentsia producing modernized representations of sexuality This Russian tradition of conflicted representations heretofore misassessed by literary history emerges as what Foucault would call a full blown bio history of Russian culture a history of indigenous representations of sexuality and the eroticized body capable of innovation on its own terms not just those derivative from Europe Translation and the Making of Modern Russian Literature Brian James

Baer,2015-11-19 Brian James Baer explores the central role played by translation in the construction of modern Russian literature Peter I s policy of forced Westernization resulted in translation becoming a widely discussed and highly visible practice in Russia a multi lingual empire with a polyglot elite Yet Russia s accumulation of cultural capital through translation occurred at a time when the Romantic obsession with originality was marginalizing translation as mere imitation The awareness on the part of Russian writers that their literature and by extension their cultural identity were born in translation produced a sustained and sophisticated critique of Romantic authorship and national identity that has long been obscured by the nationalist focus of traditional literary studies By offering a re reading of seminal works of the Russian literary canon that thematize translation alongside studies of the circulation and reception of specific translated texts Translation and the Making of Modern Russian Literature models the long overdue integration of translation into literary and cultural studies **Gender in Late Medieval and Early Modern Europe** Marianna Muravyeva,Raisa Maria

Toivo,2013-02-15 This project is an attempt to challenge the canonical gender concept while trying to specify what gender was in the medieval and early modern world Despite the emphasis on individual identity and difference that past research claims much of this history still focuses on hierarchical or dichotomous paring of masculinity and femininity or male and female The emphasis on differences has been largely based on the research of such topics as premarital sex religious deviance rape and violence these are topics that were in the early modern society criminal or at least easily marginalizing The central focus of the book is to test verify and challenge the methodology and use the concept s of gender specifically applicable to the period of great change and transition The volume contains two theoretical sections supplemented by case studies of gender through specific practices such as mysticism witchcraft crime and legal behaviour The first section Concepts analyzes certain useful notions such as patriarchy and morality The second section Identities seeks to deepen this analysis into the studies of female identities in various situations cultures and dimensions and to show the fluidity and flexibility of what is called femininity nowadays The third part Practises seeks to rethink the bigger narratives through the case studies coming from Northern Europe to see how conventional ideas of gender did not work in this particular region The case studies also challenge the established narratives in such well research historiographies as witchcraft and sexual offences and at the same time suggest new insights for the developing fields of study such as history of homicide **Gender**

focuses on the metaphorical role the intelligentsia plays as Russia's rejected or ineffectual suitor Rutten finds that this metaphor which she covers from its prehistory in folklore to present day pop culture references to Vladimir Putin is still powerful but has generated scarce scholarly consideration Unattainable Bride Russia locates the cultural thread and places the political metaphor in a broad contemporary and social context thus paying it the attention to which it is entitled as one of Russia's modern cultural myths
