major urban and metropolitan areas      It Still Takes a Candidate Jennifer L. Lawless, Richard L. Fox, 2010-06-21 *It Still Takes A Candidate* serves as the only systematic nationwide empirical account of the manner in which gender affects political ambition Based on data from the Citizen Political Ambition Panel Study a national survey conducted of almost 3 800 potential candidates in 2001 and a second survey of more than 2 000 of these same individuals in 2008 Jennifer L Lawless and Richard L Fox find that women even in the highest tiers of professional accomplishment are substantially less likely than men to demonstrate ambition to seek elective office Women are less likely than men to be recruited to run for office They are less likely than men to think they are qualified to run for office And they are less likely than men to express a willingness to run for office in the future This gender gap in political ambition persists across generations and over time      *Women and American Politics* Susan J. Carroll, 2003 *Women and American Politics* brings together leading scholars in the field of women and politics to provide an account of recent developments and the challenges that the future brings for the study of gender and American Politics The book examines women s participation in the electoral arena and the emerging scholarship on the relationship between the media and women in politics the participation of women of colour and women s activism outside the electoral arena This volume demonstrates both the wealth of knowledge about women and American politics by the current generation of scholars and the vast number and range of important research questions which pose a challenge for the next generation      *Cambridge Handbook of Experimental Political Science* James N. Druckman, 2011-06-06 This volume provides the first comprehensive overview of how political scientists have used experiments to transform their field of study

Foreman, Marcia L. Godwin, Walter Clark Wilson, 2021-11-20 This book analyzes changes to campaigning and voting in the United States in 2020 The global pandemic caused by COVID 19 upended traditional campaign strategies posed unprecedented challenges to candidates and possessed the potential to fundamentally alter how campaigns think about running for office At the same time the Trump administration s divisive handling of twin crises stemming from the pandemic

**Gender, Race, and Office Holding in the United States** Becki Scola, 2013-12-04 Over the past several decades the number of women elected to higher office in the United States has grown substantially However when the electoral gains of women are considered on a state by state basis there are observable variations in the rate by state at which women are elected to state legislative office Scholars have noted an additional variation in women office holders that women of color serve at higher rates than white women Becki Scola's book provides an explanation for these two interrelated puzzles on electoral gender gaps She examines the factors surrounding the uneven proportional distribution of female legislators and then explores why gender appears to be an advantage for women of color office holders Through an examination of the divergent state level institutional and environmental conditions Scola maps out the factors that contribute to more or less female legislative service and how race ethnicity intersects with these conditions She reveals that the common conceptions and theories that help us understand

women's office holding in general do not equally apply to both white women and women of color's legislative service The first book length study to analyze how race informs gender in terms of patterns of office holding **Gender Race and Office Holding in the United States** provides insight into both underrepresentation in general as well as the underlying dynamics of representation within specific groups of women **The Palgrave Handbook of Women's Political Rights** Susan Franceschet, Mona Lena Krook, Netina Tan, 2018-10-26 This Palgrave Handbook provides a definitive account of women's political rights across all major regions of the world focusing both on women's right to vote and women's right to run for political office This dual focus makes this the first book to combine historical overviews of debates about enfranchising women alongside analyses of more contemporary efforts to increase women's political representation around the globe Chapter authors map and assess the impact of these groundbreaking reforms providing insight into these dynamics in a wide array of countries where women's suffrage and representation have taken different paths and led to varying degrees of transformation On the eve of many countries celebrating a century of women's suffrage as well as record numbers of women elected and appointed to political office this timely volume offers an important introduction to ongoing developments related to women's political empowerment worldwide It will be of interest to students and scholars across the fields of gender and politics women's studies history and sociology **Gender and Candidate Communication** Dianne G. Bystrom, Terry Robertson, Mary Christine Banwart, Lynda Lee Kaid, 2005-01-01 A poll as recently as 2000 revealed that a third of the population thinks there are general characteristics about women that make them less qualified to serve as president As the public and the media rely on long held stereotypes female candidates must focus even harder on the way they want to define their own image through traditional mass media such as television and new forms such as the internet **Gender and Candidate Communication** digs deep into the campaigns of the last decade sifting through thousands of ads websites and newspaper articles to find out how successful candidates have been in breaking down these gender stereotypes Among their findings are that female candidates dress more formally smile more act tougher when they can and prefer scare tactics to aggressive attack ads **Gender and Candidate Communication** also presents the most comprehensive systematic method yet for identifying and understanding self presentation strategies on the web The internet may be the medium of the future but Bystrom has found that coverage on the web tends to draw even more heavily on old stereotypes No close observer of campaigns gender or the internet will be able to ignore their findings **Social Media and Politics** Glenn W.
