Gender Genre And Victorian Historical Writing:

Gender, Genre, and Victorian Historical Writing Rohan Amanda Maitzen, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company Women Writers and the Nation's Past 1790-1860 Mary Spongberg, 2018-12-27 1790 saw the publication of Edmund Burke's Reflections on the Revolution in France the definitive tract of modern conservatism as a political philosophy Though women of the period wrote texts that clearly responded to and reacted against Burke's conception of English history and to the contemporary political events that continued to shape it this conversation was largely ignored or dismissed and much of it remains to be reconsidered today Examining the works of women writers from Jane Austen and Mary Wollstonecraft to the Strickland sisters and Mary Anne Everett Green this book begins to recuperate that conversation and in doing so uncovers a more complete and nuanced picture of women s participation in the writing of history Professor Mary Spongberg puts forward an alternate feminized historiography of Britain that demonstrates how women writers recourse to history caused them to become generically innovative and allowed them to participate in the political debates that framed the emergence of modern British historiography and to push back against the Whig interpretation of history that predominated from 1790 1860 **British Women Writers and the Writing** of History, 1670-1820 Devoney Looser, 2003-05-01 Chosen by Choice Magazine as an Outstanding Academic Title Until recently history writing has been understood as a male enclave from which women were restricted particularly prior to the nineteenth century. The first book to look at British women writers and their contributions to historiography during the long eighteenth century British Women Writers and the Writing of History 1670 1820 asks why rather than writing history that included their own sex some women of this period chose to write the same kind of history as men one that marginalized or excluded women altogether But as Devoney Looser demonstrates although British women s historically informed writings were not necessarily feminist or even female focused they were intimately involved in debates over and conversations about the genre of history Looser investigates the careers of Lucy Hutchinson Lady Mary Wortley Montagu Charlotte Lennox Catharine Macaulay Hester Lynch Piozzi and Jane Austen and shows how each of their contributions to historical discourse differed greatly as a result of political historical religious class and generic affiliations Adding their contributions to accounts of early modern writing refutes the assumption that historiography was an exclusive men's club and that fiction was the only The Palgrave Encyclopedia of Victorian Women's Writing Lesa Scholl, Emily prose genre open to women Morris, 2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement Novel Histories Lisa Kasmer, 2012-01-16 Novel Histories British

Women Writing History 1760 1830 argues that British women's history and historical fiction in the late eighteenth and early nineteenth centuries changed not only the shape but also the political significance of women s writing At a time when women s participation in the republic of letters was both celebrated and reviled these authors took cues from developments that revolutionized British history writing to push the limits of narrated history to respond to contemporary national politics Through an examination of the conventions of historical and literary genres historiography during the period and the gendering of civic and literary roles this study shows not only a social political and literary lineage among women s history Time, Space, and Gender in the writing and fiction but also among women s writing and the writing of history Nineteenth-Century British Diary R. Steinitz, 2011-10-24 Through close examinations of diaries diary publication and diaries in fiction this book explores how the diary s construction of time and space made it an invaluable and effective vehicle for the dominant discourses of the period it also explains how the genre evolved into the feminine emotive private form we continue to privilege today Reimagining the Historian in Victorian England Elise Garritzen, 2023-08-08 What constitutes a historian What skills and qualities should a historian cultivate Who is entitled to define historians physiognomy Victorians sought to answer these questions as history transformed from a Romantic literary pursuit into a modern discipline during the second half of the nineteenth century This book offers a novel interpretation of this critical historiographical period by tracing how historians forged themselves a collective scholarly persona that legitimized their new disciplinary status By combining historiography and book history Elise Garritzen argues that historians appropriated titles prefaces footnotes and other paratexts as an institutionalized space for fashioning the persona Yet historians did not have a monopoly on the persona as readers and reviewers offered their interpretations of the persona and publishers influenced the paratextual presentation of the persona By ascribing agency to paratexts and the literary marketplace Garritzen makes an important shift in the way we perceive the formation of scholarly personae and modern disciplines. The book offers a novel approach to the role which scholarly virtues held in the Victorian society the formation of scholarly communities the commodification of knowledge and the management of scientific reputations It provides new insights for scholars interested in the history of humanities science and knowledge book history and Victorian culture Writing Women's History Since the Renaissance Mary Spongberg, 2017-03-08 The complaint of Catherine Morland in Jane Austen's Northanger Abbey that history has hardly any women at all is not an uncommon one Yet there is evidence to suggest that women have engaged in historical writing since ancient times This study traces the history of women's historical writing reclaiming the lives of individual women historians recovering women's historical writings from the past and focusing on how gender has shaped the genre of history Mary Spongberg brings together for the first time an extensive survey of the progress of women's historical writing from the Renaissance to the present demonstrating the continuities between women s historical writings in the past and the development of a distinctly woman centred historiography Writing Women's History since the Renaissance also examines the

relationship between women s history and the development of feminist consciousness suggesting that the study of history has alerted women to their unequal status and enabled them to use history to achieve women s rights Whether feminist or anti feminist women who have had their historical writings published have served as role models for women seeking a voice in the public sphere and have been instrumental in encouraging the growth of a feminist discourse Construction of the Child in Early British Children's Literature Jackie C. Horne, 2016-04-22 How did the flat characters of eighteenth century children's literature become round by the mid nineteenth While previous critics have pointed to literary Romanticism for an explanation Jackie C Horne argues that this shift can be better understood by looking to the discipline of history Eighteenth century humanism believed the purpose of history was to teach private and public virtue by creating idealized readers to emulate Eighteenth century children's literature with its impossibly perfect protagonists and its equally imperfect villains echoes history s exemplar goals Exemplar history however came under increasing pressure during the period and the resulting changes in historiographical practice an increased need for reader engagement and the widening of history s purview to include the morals manners and material lives of everyday people find their mirror in changes in fiction for children Horne situates hitherto neglected Robinsonades historical novels and fictionalized histories within the cultural social and political contexts of the period to trace the ways in which idealized characters gradually gave way to protagonists who fostered readers sympathetic engagement Horne's study will be of interest to specialists in children's literature the history of education and book history **The Culture of History** Billie Melman, 2006-06-22 In this original and widely researched book Billie Melman explores the culture of history during the age of modernity Her book is about the production of English pasts the multiplicity of their representations and the myriad ways in which the English looked at history sometimes in the most literal sense of looking and made use of it in a social and material urban world and in their imagination Covering the period between the Napoleonic Wars and the Coronation of 1953 Melman recoups the work of antiquarians historians novelists and publishers wax modellers cartoonists and illustrators painters playwrights and actors reformers and educationalists film stars and their fans musicians and composers opera fans and radio listeners Avoiding a separation between high and low culture Melman analyses nineteenth century plebeian culture and twentieth century mass culture and their venues like Madame Tussaud's Chamber of Horrors panoramas national monuments like the Tower of London and films as well as studying forms of minority art notably opera She demonstrates how history was produced and how it circulated from texts visual images and sounds to people and places and back to a variety of texts and images While paying attention to individuals making do with culture Melman considers constrictions of class gender the state and the market place on the consumption of history Focusing on two privileged pasts the Tudor monarchy and the French Revolution the latter seen as an English event and as the framework for narrating and comprehending history Melman shows that during the nineteenth century the most popular longest enduring and most highly commercialized images of the past

represented it not as cosy and secure but rather as dangerous disorderly and violent The past was also imagined as an urban place rather than as rural In Melman's account City not green Country is the centre of a popular version of the past whose Clio's Daughters Lynette Felber, 2007 They discover new central Images are the dungeon the gallows and the guillotine texts and methodologies exploring nineteenth century British women s historiography their writing of history often through unexpected sources not previously regarded as historical venues journalism travel writing architectural preservation and costume balls BOOK JACKET Transnational Women Writers in the Wilmot Coterie, 1798-1840 DR ALEXIS. WOLF, 2024-10-29 Highlights the centrality of non canonical middle ranking women writers to the production of literature and culture in Britain Ireland Europe and Russia in the late eighteenth century The Irish writers and editors Katherine 1773 1824 and Martha Wilmot 1775 1873 left a unique record of middle ranking women's literary practices and experiences of travel in the late eighteenth and early nineteenth century Their manuscripts are notable for their vivid portrayal of the era s political conflicts capturing a flight from Ireland during the Irish Rebellion 1798 time spent in Paris during the Peace of Amiens 1801 03 and extended residences in Russia during the Napoleonic Wars However in their accounts of these key European events the Wilmots manuscripts and published work showcase their participation in a startling range of self educating activities including travel writing biography antiquarianism early ethnographic observation language acquisition translation practices and editorial work Taking an interdisciplinary approach this book explores the collaborative relationships formed by women participating in cosmopolitan networks beyond the typical locations of the Grand Tour Across their travels the sisters met engaged with and learned from numerous key women of the time including Princess Ekaterina Dashkova Margaret King Lady Mount Cashell and Helen Maria Williams In this first full length study to focus on the literary and cultural exchanges surrounding the Wilmot sisters Wolf showcases how manuscript circulation coterie engagement and transnational travel provided avenues for women to engage with the intellectual discourses from which they were often Making Evangelical History Andrew Atherstone, David Ceri Jones, 2019-04-08 This volume makes a significant excluded contribution to the history of ecclesiastical histories with a fresh analysis of historians of evangelicalism from the eighteenth century to the present It explores the ways in which their scholarly methods and theological agendas shaped their writings Each chapter presents a case study in evangelical historiography Some of the historians and biographers examined here were ministers and missionaries while others were university scholars They are drawn from Anglican Baptist Congregationalist Methodist Presbyterian Fundamentalist and Pentecostal denominations Their histories cover not only transatlantic evangelicalism but also the spread of the movement across China Africa and indeed the whole globe Some wrote for a popular Christian readership emphasising edification and evangelical hagiography others have produced weighty monographs for the academy These case studies shed light on the way the discipline has developed and also the heated controversies over whether one approach to evangelical history is more legitimate than the rest As a result this book will be
