Gender Globalization And Gender Democratization:

Gender, Globalization, and Democratization Rita Mae Kelly, 2001 Women's voices and experiences from around the world are brought to bear upon issues of globalization and democratization in this volume of strikingly original and diverse essays From the Comfort Women of Japan to the Mexican maquiladoras from the debt burdened nations of Africa to the new settler societies of Oceania the impact of globalizing forces and uneven democratization yields gender dislocations everywhere This volume charts these trends with original research first hand interviews and surveys and fresh theoretical perspectives Gender regime change may be built on the understandings begun here **Gender, Globalization, and**

Gender Democratization, 2001 **Democracy, Gender, and Social Policy in Russia** Andrea Chandler, 2015-12-17

Through compelling and insightful analysis of the Russian case this book explores the role that social welfare plays in regime transitions It examines the role that gender and social welfare has played in Russia's post communist political evolution from Yeltsin's assumption of the presidency to Putin's return for a third term as president in 2012 **Gender, Globalization,**

and Postsocialism Jacqui True, 2003 True examines political and gendered identities in flux in post communist Czech Republic She argues that the privatization of a formerly state economy and the adoption of consumer oriented market practices were shaped by ideas and attitudes about gender roles This book also offers a provocative general thesis about the inextricable linkages between political and economic changes and gender identities *Gender and Politics* Jane H.

Bayes, 2012-07-10 This timely collection offers a fresh look on the impact of gender perspectives in the discipline of political science at the beginning of the 21st century Jane Bayes combats the Eurocentric focus that has characterised both fields and suggests viable alternatives for the future of the disciplines **The Sociology of Development Handbook** Gregory

Hooks, 2016-09-06 The Sociology of Development Handbook gathers essays that reflect the range of debates in development sociology and in the interdisciplinary study and practice of development The essays address the pressing intellectual challenges of today including internal and international migration transformation of political regimes globalization changes in household and family formations gender dynamics technological change population and economic growth environmental sustainability peace and war and the production and reproduction of social and economic inequality **Gender and the**

Political Opportunities of Democratization in South Korea N. Jones, 2016-02-23 This book explores how political opportunities afforded by democratization including the relative balance of power between conservative and progressive civic actors shape power relations between men and women in post authoritarian Korea Jones reveals that organized women can make a difference depending on their strategic choices and alliances and the manner in which they negotiate evolving political institutions Moreover democratic consolidation need not be led by political parties but can provide surprising opportunities for an organized civil society to press for a deepening of political and human rights **Gender, Politics and**

Institutions M. Krook, F. Mackay, 2010-12-07 Political institutions profoundly shape political life and are also gendered This

groundbreaking collection synthesises new institutionalism and gendered analysis using a new approach feminist institutionalism in order to answer crucial questions about power inequalities mechanisms of continuity and the gendered limits of change **Confucianism, Law, and Democracy in Contemporary Korea** Sungmoon Kim, 2015-03-26

Comparative political theory has grown into a recognized discipline in its own right in the last two decades Yet little has been done to explore how political theory engages with the actual social legal and political reality of a particular polity East Asians are complexly conditioned by traditional Confucian norms and habits despite significant social economic and political changes in their contemporary lives This volume seeks to address this important issue by developing a specifically Confucian political and legal theory The volume focuses on South Korea whose traditional society was and remains the most Confucianized among pre modern East Asian countries It offers an interesting case for thinking about Confucian democracy and constitutionalism because its liberal democratic institutions are compatible with and profoundly influenced by the Confucian habit of the heart The book wrestles with the practical meaning of liberal rights under the Korean Confucian societal culture and illuminates a way in which traditional Confucianism can be transformed through legal and political processes into a new Confucianism relevant to democratic practices in contemporary Korea *Democratization and Gender in Contemporary Russia* Suvi Salmenniemi, 2008-05-20 This book examines civic activism democratization and gender in contemporary Russian society It explores the role of state institutions in the development of democratic civic life showing how under the increasingly authoritarian Putin regime and its policy of managed democracy independent civic activism is both thriving yet simultaneously constrained **Enabling Gender Equality** Barbara Wejnert, Eunice Rodriguez, 2015-11-16

This volume of Research in Political Sociology addresses a broad range of gender equality issues from women s status and opportunities at work education health political participation community involvement and global migration from a vast domain of countries in Europe America Australia Asia and Africa *Guatemaltecas* Susan A. Berger, 2021 After thirty years of military rule and state sponsored violence Guatemala reinstated civilian control and began rebuilding democratic institutions in 1986 Responding to these changes Guatemalan women began organizing to gain an active role in the national body politic and restructure traditional relations of power and gender This pioneering study examines the formation and evolution of the Guatemalan women s movement and assesses how it has been affected by and has in turn affected the forces of democratization and globalization that have transformed much of the developing world Susan Berger pursues three hypotheses in her study of the women s movement She argues that neoliberal democratization has led to the institutionalization of the women s movement and has encouraged it to turn from protest politics to policy work and to helping the state impose its neoliberal agenda She also asserts that while the influences of dominant global discourses are apparent local definitions of femininity sexuality and gender equity and rights have been critical to shaping the form content and objectives of the women s movement in Guatemala And she identifies a counter discourse to globalization that is slowly

emerging within the movement Berger's findings vigorously reveal the manifold complexities that have attended the development of the Guatemalan women's movement *The Gender Question in Globalization* Francien van Driel, 2020-11-25

Orthodox views of globalization assume that it has the same features and impact everywhere i.e. the feminization of poverty labour and even peace As these ideas circulate in official documents and scientific writings they settle practically as truths This challenging and unique book is amongst the first to deconstruct these orthodoxies using a multi-layered gender analysis where globalization is not treated as a linear and top-down process with a known outcome and a pre-conceived definition of gender Instead the authors scrutinize the dynamics of each context on its own merits including the agency of women and men resulting in unexpected and groundbreaking insights into the variety of differences apparent even in sometimes seemingly similar global processes Through this gender lens different and new meanings of gender appear rooted in multiple modernities The book will be a seminal contribution to debates in the fields of international labour sexuality identity feminism peace studies and migration
