Gender Dysphoria Betty W. Steiner, 2013-06-29 In the decade and a half since I coedited *Transsexualism and Sex Reassignment* Green Money 1969 remarkable changes have occurred with Harry Benjamin's transsexual phenomenon 1966 Formerly when writing about this condition in scientific journals it was necessary to define the term transsexualism Now the lay public recognizes it Even the American Psychiatric Association acknowledges it as a disorder with its inclusion in the Third Edition of its Diagnostic and Statistical Manual 1980 Although this elevation to the status of mental illness may seem a Pyrrhic victory it is a recognition of the legitimacy of transsexualism as a source of human suffering The controversy that surrounded the decisions in the early patient cases to perform sex change surgery has largely dissipated The cries of collusion with delusion principally from psychoanalysts have quieted The dire predictions of psychosis and or suicide following surgery as the last psychic defenses are cut away have almost never been realized By contrast many postoperative patients consider the surgery to have been life saving Medical centers worldwide have incorporated programs for evaluating and treating persons requesting sex reassignment Elaborate guidelines for patient management have been developed by an international organization of health care professionals Harry Benjamin International Gender Dysphoria Association 1981 Harry Benjamin's child has come of age

Gender and Trauma Fatima Festić, 2011-11-15 This volume presents eight integrated essays that explore the intersection of the scholarly fields of gender and trauma combining work that can broadly be located in the subject areas of literary studies the humanities and the social sciences The contributors search for a more comprehensive theoretical ground to analyze the overlapping inter agency and also the lines that separate the issues of gender and trauma to establish a more political linking of the materiality of the effects of trauma to the performativity of gender as well as to examine the ways in which the categories of sex sexual difference and sexual identity figure within such a relationship Likewise our discussion is guided by the increasing awareness of the cross cultural delineation dynamics and translatability of these fields the awareness that facilitates the understanding of the instances of their interference in the rhetoric of a dominant culture and in dominant societal structures This specific input which refers to structurally quite comparable identity formations or to their prevention and also to complex terms of symbolic legitimacy and intelligibility is the attainment of a joined intercultural and interdisciplinary work on some of the key concerns we are confronting today
