Gender Perspectives On Peace Conflict:

Gender Perspectives on Peace and Conflict Studies Kari H. Karamé, 2000 *Exploring Betty A. Reardon's Perspective on Peace Education* Dale T. Snauwaert, 2019-05-15 This book presents commentaries by a leading international group of peace education scholars and practitioners concerning Reardon's peace education theory and intellectual legacy. The guiding question throughout the book is: How can her foundational work be used to advance the theory and practice of peace education? In an attempt to find answers, the contributing authors explore three general areas of inquiry: 1. Theoretical Foundations of Peace and Human Rights Education; 2. Feminism and the Gender Perspective as Pathways of Transformation Toward Peace and Justice; and 3. Peace Education Pedagogy and Practices. A contemplative commentary by Reardon herself rounds out the coverage.

Gendered Perspectives on Conflict and Violence Marcia Texler Segal, Vasiliki (Vicky) Demos, 2013-10-25 The chapters in this two-part volume explore components of the emerging global discourse regarding gender and violence from a feminist and social scientific perspective. The authors address gender-based violence broadly as an attribute of social structures as well as individuals and include LGBTQ individuals in its conceptualization of gender.

Southern and Postcolonial Perspectives on Policing, Security and Social Order Roxana Pessoa Cavalcanti, Peter Squires, Zoha Waseem, 2024-11-12 Postcolonial legacies continue to impact upon the Global South, and this edited collection examines their influence on systems of policing, security management, and social ordering. Expanding the Southern Criminology agenda, the book critically examines social harms, violence, and war crimes, human rights abuses, environmental degradation, and the criminalization of protest. The book asks how current states of policing came about, their consequences, and whose interests they continue to serve through vivid international case studies, including prison struggles in Latin America and the misuse of military force. Challenging current criminological thinking on the Global South, the book considers how police and state overreach can undermine security and perpetuate racism and social conflict.

Gender and Peacebuilding Maureen P. Flaherty, Thomas G. Matyók, Sean Byrne, Hamdesa Tusso, 2015-10-16 The twenty-first century has brought with it a shift from the notion of human security being located in secure national borders to the need to secure the safety, freedom, and dignity of all. Despite efforts to equalize women's status in the world, evidenced by changes in many international projects requiring a gender focus, women and men experience most of the world in very different ways according to gender. Further, the reality is that humans do not all fall neatly into one of these categories: male or female. Often, their lives are further challenged. In the 1980s, Peace and Conflict Studies first began to acknowledge and study the different experiences males and females have during war and peace. Since then, there have been books about women and war, women working at grassroots levels to build peace, women and transitional justice, women and peace education, and women's views of human security. All of these works have contributed to the discourse of our changing world. This book brings together some of those themes and voices and adds more, with the final product being more than the sum of its parts. We add to the

conversation a book that considers foundational fundamental issues that span from the interpersonal to the global Many of the chapters describe empirical research completed with author and community shared here for the first time Part One is a collection of case studies documenting challenges and responses to peacebuilding by women from various parts of the world Part Two focuses on Peace and Conflict Studies PACS as a discipline examining not only what is but also what should be taught This section critiques today s efforts at teaching Peace and Conflict Studies and provides suggestions of how this important work might be shared in more open and equitable ways Part Three enters territory found even less in the PACS literature In this section our authors confront patriarchy engage in a discussion about the contribution queer theory makes to PACS and tussle with the notion of inclusivity with considerations of both gender and disability It then ends with a discussion about the contribution feminist methodologies make to PACS

Gender, Conflict, Peace, and UNSC Resolution 1325

Seema Shekhawat,2018-01-15 There is an increasing amount of literature on various aspects of United Nations Security Council Resolution 1325 While appreciating this scholarship this volume highlights some of the omissions and concerns to make a quality addition to the ongoing discourse on the intersection of gender with peace and security with a focus on 1325 It aims at a reality check of the impressive to do list as the seventeen years since the Resolution passed provide an occasion to pause and ponder over the gap between the aspirations and the reality the ideal and the practice the promises and the action the euphoria and the despair The volume compiles carefully selected essays woven around Resolution 1325 to tease out the intricacies within both the Resolution and its implementation Through a cocktail of well known and some lesser known case studies the volume addresses complicated realities with the intention of impacting policy making and the academic fields of gender peace and security The volume emphasizes the significance of transforming formal peace making processes and making them gender inclusive and gender sensitive by critically examining some omissions in the challenges that the Resolution implementation confronts The major question the volume seeks to address is this where are women positioned in the formal peace making seventeen years after the adoption of Resolution 1325

Women and Gender Perspectives in the Military Robert Egnell,Mayesha Alam,2019-02-01 Women and Gender Perspectives in the Military compares the integration of women gender perspectives and the women peace and security agenda into the armed forces of eight countries plus NATO and United Nations peacekeeping operations This book brings a much needed crossnational analysis of how militaries have or have not improved gender balance what has worked and what has not and who have been the agents for change The country cases examined are Sweden the Netherlands Canada the United States the United Kingdom Israel Australia and South Africa Despite increased opportunities for women in the militaries of many countries and wider recognition of the value of including gender perspectives to enhance operational effectiveness progress has encountered roadblocks even nearly twenty years after United Nations Security Council Resolution 1325 kicked off the women peace and security agenda Robert Egnell Mayesha Alam and the contributors to this volume conclude that there is no

single model for change that can be applied to every country but the comparative findings reveal many policy relevant lessons while advancing scholarship about women and gendered perspectives in the military *The Evolving Boundaries of Defence* Renaud Bellais,2014-08-14 This volume analyses key features of recent and ongoing transformations of defence issues from four key perspectives These are defence economics the spatial footprint of defence human resources management by the armed forces and the international landscape of defence *Gender Matters in Global Politics* Laura J. majoritarian politics between South Asia and Europe In India the Hindu majority rebels against wide ranging minority rights anchored in the Constitution In Europe the refugee crisis and Islamic radicalization bring to the forefront the postcolonial legacy Despite all rhetoric there are obvious dangers of majoritarianism Populist parties are divisive partisan disregard minority rights engage in lynching social division stigmatization and exclusion turning minorities into second class citizens There is a profound structural connection between minorities and the current rise of populism in India and Europe But there remains a deep perplexity and also anxiety Does the presence of minorities necessarily have to trigger majoritarian policies Are there no solutions to this dilemma Many observers considered multicultural policies and affirmative action programs in India as a possible model for Europe to adopt in order to achieve greater integration But eventually they seem to have failed Why so Are multiculturalism and the recognition of differences still options today On the other hand most scholars in India typically reject the European model of liberal democracy and secularism as impracticable in India and locate the reason for the current malaise in the west But is liberal democracy really so bad in dealing with pluralism This volume collecting a selection of the Reset DOC Venice Padua Delhi dialogue series is going to answer two fundamental questions First what precisely is the nexus between minorities and populism in South Asia and Europe Starting from those case studies the authors will also draw some general theoretical inferences about the nature of populism Secondly given the dangers of populism for minorities the volume will look for the most adequate and feasible solutions

Global Gender Issues in the New Millennium Anne Sisson Runyan, 2018-04-19 *Global Gender Issues in the New Millennium* argues that the power of gender works to help keep gender race class sexual and national divisions in place despite increasing attention to gender issues in the study and practice of world politics Accessible and student friendly for both undergraduate and graduate courses authors Anne Sisson Runyan and V Spike Peterson analyze gendered divisions of power and resources that contribute to the worldwide crises of representation violence and sustainability They emphasize how hard won attention to gender equality in world affairs can be co opted when gender is used to justify or mystify unjust forms of global governance international security and global political economy In the new and updated fourth edition Runyan and Peterson examine the challenges of forging transnational solidarities to de gender world politics scholarship and practice through renewed politics for greater representation and redistribution Yet they see promise in coalitional struggles to re radicalize feminist world political demands to change the downward conditions of women men children and the planet Updated to include framing questions at the opening of each chapter discussion questions and exercises at the end of each chapter and updated data on gender statistics and policymaking Chapters One and Two have also been revised to provide more support to readers with less of a background in gender politics Case studies and web resources are now also provided

Gender, Governance and International Security Nicola Pratt, Sophie Richter-Devroe, 2016-04-08 The United Nations Security Council in 2000 unanimously passed a resolution calling for women s increased participation in conflict prevention and peacebuilding as well

as their protection during conflict This marked the first time that the UN Security Council explicitly addressed gender issues in conflict and post conflict situations But what difference has this international agenda on Women Peace and Security made to women s lives on the ground and to the governance of international peace and security This volume provides a critical evaluation of the mainstreaming of gender issues in matters of international peace and security resulting from the passage of Resolution 1325 in 2000 It considers how this agenda actually plays out in different contexts and with what implications for women s activism and for peace and security The picture that emerges is not uniform obliging us to reconsider the links between gender conflict different visions of peace and consequently different projects of peacebuilding Consequently the book poses new questions for transnational feminist scholars and activists This book was based on a special issue of the International Feminist Journal of Politics

The Tapestry of Culture Abraham Rosman,Paula G. Rubel,Maxine Weisgrau,2017-01-12 The most exciting thing about anthropology is that it enables the student to become acquainted with people of different cultures The Tapestry of Culture provides the student with the basic concepts necessary to understand these different cultures while showing that cultural variations occur within certain limits Though the forces of globalization have caused cultures of the world around us to become increasingly similar the book shows that people nevertheless cling to ethnic identities and their cultural distinctiveness The tenth edition of this popular textbook incorporates new material throughout such as ethnographic examples in every chapter strengthened discussions of gender transnationalism and globalization and more To enhance the experience of both instructors and students the tenth edition is accompanied by a learning package that includes an instructor s manual with outlines key terms discussion questions lists of films and other resources and more a test bank and a companion website

The Tapestry of Culture Maxine Weisgrau,Abraham Rosman,Paula G. Rubel,2023-07-10 When we think about society and culture often we think of our own culture the culture in which we were raised or currently live as the default The eleventh edition of The Tapestry of Culture uses anthropological tools to translate the concepts ideas and behaviors of other cultures into language recognizable by today s students The book s comparative approach balances the history of ethnography fieldwork and anthropological with today s globalized world including the impact of climate change social movements social media and technology global health issues and shifting political landscapes New to the Eleventh Edition New Chapter 12 Global Health and Wellness examines the historical political and cultural issues that shape disease and health including inequalities in access to physical and mental health services the delivery of health care services and health intervention strategiesNew Chapter 11 Spaces and Places of Creative Expression explores how social media and internet technologies play a major role in how contemporary audiences view and understand creativity including music dance theater film painting and other performance stylesExpanded discussion of the cultural construction of gender and sexuality as well as LGBTQ issues in activism explores gender and sexuality through queer studies and in postcolonial settings Chapter 7 New discussion of critical race theory highlights its contributions to

analyzing multiple forms of racism and discrimination while providing an exploration of the challenges of multiculturalism in contexts of nationality ethnicity and political representation Chapter 14 New discussions of environmental anthropology political ecology climate change inequality social movements globalization and transnationalism highlight these contemporary issues as subjects of anthropological inquiry Chapter 1 The Palgrave Handbook of Disciplinary and Regional Approaches to Peace Oliver Richmond,Sandra Pogodda,Jasmin Ramovic,2016-03-15 In this handbook a diverse range of leading scholars consider the social cultural economic political and developmental underpinnings of peace This handbook is a much needed response to the failures of contemporary peacebuilding missions and narrow disciplinary debates both of which have outlined the need for more interdisciplinary work in International Relations and Peace and Conflict studies Scholars students and policymakers are often disillusioned with universalist and northern dominated approaches and a better understanding of the variations of peace and its building blocks across different regions is required Collectively these chapters promote a more differentiated notion of peace employing comparative analysis to explain how peace is debated and contested *Gender Integration in NATO Military Forces* Lana Obradovic,2016-04-15 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased women s numbers and improved gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award **Gender, Military Effectiveness, and Organizational Change** R. Egnell,P. Hojem,H. Berts,2014-05-15 Through extensive analysis of the Swedish Armed Forces this study explores the possibilities and pitfalls of implementing of a gender perspective in military organizations and operations It established a number of important lessons for similar attempts in other countries and discusses the continued process of implementation in the Swedish military
