## **Gendered Terrain Of Disaster Through Womens Eyes:**

*The Gendered Terrain of Disaster* Elaine Pitt Enarson, Betty Morrow, 1998-06-30 Gender is revealed as a central organizing principle in social life when the unexpected transforms daily routines environments and social institutions Using specific disaster experiences from around the world this book argues for a gendered perspective in policy practice and research Contributing authors challenge the image of women as hapless victim in their accounts of women who rebuilt flooded homes in Bangladesh evacuated families from Australian bushfires reconstructed communities after a Mexican earthquake and mobilized women in Miami in the wake of Hurricane Andrew From Bangladesh to Scotland the case studies document the root causes of women s vulnerability to disaster and the central roles they play before during and after disaster The authors recommend strategies for policy makers and emergency practitioners to more fully engage women in disaster planning and response

**Disaster and Gender in Coastal Bangladesh** Mohammed Moniruzzaman Khan, 2022-07-22 This volume explores the discourse of disaster and women in the existing social settings and state disaster related affairs in coastal Bangladesh It covers various issues ranging from disproportionate vulnerability coping and adaptation mechanisms for women limitations for promoting participation and involvement of women in the decision making process both in family and community and changes in the role and responsibilities of women for reducing disaster risk and vulnerability It contributes to the deconstruction of gender based identity by addressing women s changing practices and roles in the coastal area in terms of the involvement of women with the development process earning income generation activities decision making process access and entitlements to resources This book presents the most current and inclusive circumstances of disaster and women of the coastal area in Bangladesh The insights obtained through the eyes of a sociologist from a holistic perspective make this book different and unique The book is of interest to researchers academics policymakers and professionals engaged in the social understanding of disaster studies as well as to researchers and practitioners in interdisciplinary domains including sociology gender studies social work environmental studies and development studies

*Issues of Gender and Sexual Orientation in Humanitarian Emergencies* Larry W. Roeder, 2014-08-05 Natural and manmade disasters do not affect everyone equally especially when resources are not equally accessible Girls and women in particular face heightened risks of violence and abuse and many countries bar female headed households from receiving aid Across the globe a wider understanding of gender issues is needed to craft effective policies and carry out equitable practices in disaster planning and response The first full length reference of its kind *Issues of Gender and Sexual Orientation in Humanitarian Emergencies* brings together data pinpointing disparities with practical suggestions toward improving post event adjustment for all Arguing forcefully for an egalitarian lens in humanitarian aid the book offers guidelines that governmental agencies and NGOs alike can implement at all levels of preventive and relief efforts to better assist victims and minimize further trauma Salient areas covered include gender differences in the effects of disasters on children and

adolescents the heightened risk of domestic violence in disasters and challenges facing the LGBTI community in relocation In addition examples from a cyclone event in Australia relate the experiences of victims organizations and aid workers to larger social issues Included among the topics Gender and the impact of disaster on youth Personal network structure and gendered well being in disaster and relocation Sexual and gender minorities in humanitarian emergencies Gender as hazard in disaster planning and response The relationship of disaster and domestic violence The impact of disasters on workers and services Addressing a major threat to public and social health Issues of Gender and Sexual Orientation in Humanitarian Emergencies is an essential sourcebook for researchers and professionals working with NGOs disaster management domestic violence humanitarian relief and refugee health

**Research, Action and Policy: Addressing the Gendered Impacts of Climate Change** Margaret Alston, Kerri Whittenbury, 2012-11-13 Research Action and Policy Addressing the Gendered Impacts of Climate Change presents the voices of women from every continent women who face vastly different climate events and challenges The book heralds a new way of understanding climate change that incorporates gender justice and human rights for all

**Disaster's Impact on Livelihood and Cultural Survival** Michele Companion, 2015-03-16 Many facets of disasters generate interest among scholars and practitioners However a vital area of disaster research is consistently underemphasized Little is written about the immediate and long term impacts on a community's livelihood systems and the customs and practices of the culture affected Disaster's Impact on Livelihood and Cultural S

**The Indian Ocean Tsunami** Tad S. Murty, U. Aswathanarayana, Niru Nirupama, 2006-12-14 The Indian Ocean tsunami of December 2004 is considered to have been one of the worst natural disasters in history affecting twelve countries from Indonesia to Somalia 175 000 people are believed to have lost their lives almost 50 000 were registered as missing and 1.7 million people were displaced As well as this horrendous toll on human life

*Men, Masculinities and Disaster* Elaine Enarson, Bob Pease, 2016-06-17 In the examination of gender as a driving force in disasters too little attention has been paid to how women's or men's disaster experiences relate to the wider context of gender inequality or how gender just practice can help prevent disasters or address climate change at a structural level With a foreword from Kenneth Hewitt an afterword from Raewyn Connell and contributions from renowned international experts this book helps address the gap It explores disasters in diverse environmental hazard political and cultural contexts through original research and theoretical reflection building on the underutilized orientation of critical men's studies This body of thought not previously applied in disaster contexts explores how men gain maintain and use power to assert control over women Contributing authors examine the gender terrain of disasters through men's eyes considering how diverse forms of masculinities shape men's efforts to respond to and recover from disasters and other climate challenges The book highlights both the high costs paid by many men in disasters and the consequences of dominant masculinity practices for women and marginalized men It concludes by examining how disaster risk can be reduced through men's diverse efforts to challenge hierarchies around gender sexuality disability age

and culture      **Making Disaster Safer** Ronni Alexander, Siriporn Wajjwalku, 2023-10-16 This edited book was produced through a transnational and transdisciplinary UNESCO Chair Project on Gender and Vulnerability in Disaster Risk Reduction Support Contributors come from five disaster prone Asian countries and the chapters reflect their rich knowledge and practical experience in disaster management and humanitarian assistance The chapters all with a focus on gender and vulnerability illustrate that gender can make people especially women vulnerable The chapters address the experiences of state and non state actors responding to disaster and promoting recovery at the local level However while women and vulnerable people may be victims of disasters they also serve as agents for recovery and voices for better disaster preparedness In sharing both successes and failures as well as suggestions for the future this book speaks to the need for transdisciplinary knowledge and multilevel coordination as well as full equality for all genders and respect for human rights in order to cope with increasingly more frequent intense and complex emergencies This book is of interest as a text to students in a variety of disciplines who are focusing on disaster and health emergencies as well as to practitioners and others promoting disaster risk reduction and resilience      Into the Fire Shelley Pacholok, 2013-11-01 In August 2003 one of the largest wildfires in Canadian history struck near Kelowna British Columbia and the surrounding Okanagan Valley causing unprecedented damage As Shelley Pacholok observes in this innovative study the turbulence and extreme conditions that followed in the wake of this disaster destabilized an important area of social life that of gender relations Into the Fire combines insights from gender studies and disaster studies to explore the extent to which notions of masculinity and femininity are challenged in the wake of crises Pacholok focuses on how gender relations were simultaneously sustained and disrupted among those who fought the fire drawing on media representations as well as interviews with firefighters Into the Fire illuminates how disasters can serve as catalysts for new patterns of gender even in highly masculine spaces      **Human**

**Security and Natural Disasters** Christopher Hobson, Paul Bacon, Robin Cameron, 2014-03-26 Human security is an approach that rejects the traditional prioritization of state security and instead identifies the individual as the primary referent of security It offers a way of broadening our perspective and recognizing that the most pressing threats to individuals do not come from interstate war but from the emergencies that affect people every day such as famine disease displacement civil conflict and environmental degradation Human security is about people living their lives with dignity being free from fear and want To date there has been a strong tendency to focus on insecurity caused by civil conflict with less attention on issues to do with environmental security This volume addresses the threat posed by natural disasters which represent an increasingly major human security threat to people everywhere In looking at natural disasters this book also refines the human security approach It does so through developing its previously unexplored interdisciplinary potential This volume explicitly seeks to bring the human security approach into conversation with contributions from a range of disciplines development disaster sociology gender studies international law international relations philosophy and public health

Collectively these scholars unpack the human element of natural disasters. In doing so an emphasis is placed on how pre-existing vulnerabilities can be gravely worsened as well as the interconnected nature of human security threats. The book presents a variety of case studies that include the Indian Ocean tsunami, Hurricane Katrina, the 2010 Haiti earthquake and the 2011 triple disasters in Japan. **Women and Disasters in South Asia** Linda Racioppi, Swarna Rajagopalan, 2016-04-14 South Asia is one of the most vulnerable areas of an increasingly disaster impacted world with cyclones, earthquakes, floods and droughts causing several casualties and disrupting lives and livelihoods every year. Yet the impacts of disasters are not equally distributed across the peoples of the region. Women and men experience disaster differently and their needs in the aftermath of disaster often differ. Bringing together perspectives from academics, emergency response specialists and development practitioners, the volume investigates to what extent and in what ways gender affects the course of post-disaster reconstruction. Conversely, it also explores in what ways gender politics may be altered by disaster and post-disaster reconstruction. The study includes a comprehensive overview of key issues facing women and men as gendered beings in reconstruction and development, a targeted observation of specific South Asian disaster contexts and a sustained discussion of case studies and their implications and lessons. This book will interest scholars and researchers of disaster management, rehabilitation studies, gender, environment, ecology and sociology. It will also be useful to institutions dealing with natural and man-made disasters, non-governmental organisations and disaster recovery professionals. **Gender-Based Violence and Layered Disasters** Nahid Rezwana, Rachel Pain, 2022-12-30 This book investigates the widespread and persistent relationship between disasters and gender-based violence, drawing on new research with victim survivors to show how the two forms of harm constitute layered disasters in particular places, intensifying and reproducing one another. The evidence is now overwhelming that disasters and gender-based violence are closely connected, not just in moments of crisis but in the years that follow as the social, economic and environmental impacts of disasters play out. This book addresses two key gaps in research. First, it examines what causes the relationship between disasters and gender-based violence to be so widespread and so enduring. Second, it highlights victim survivors' own accounts of gender-based violence and disasters. It does so by presenting findings from original research on cyclones and flooding in Bangladesh and the UK and a review of global evidence on the Covid-19 pandemic. Drawing on feminist theories, it conceptualises the coincidence of gender-based violence, disasters and other aggravating factors in particular places as layered disasters. Taking an intersectional approach that emphasises the connections between culture, place, patriarchy, racism, poverty, settler colonialism, environmental degradation and climate change, the authors show the significance of gender-based violence in creating vulnerability to future disasters. Forefronting victim survivors' experiences and understandings, the book explores the important role of trauma and how those affected go about the process of survival and recovery. Understanding disasters as layered casts light on why tackling gender-based violence must be a key priority in disaster planning, management and recovery. The book concludes by exploring

critiques of existing formal responses which often ignore or underplay gender based violence The book will be of interest to all those interested in understanding the causes and impacts of disasters as well as scholars and researchers of gender and gender based violence     Routledge Handbook of Environmental Anthropology Helen Kopnina,Eleanor

Shoreman-Ouimet,2016-08-12 Environmental Anthropology studies historic and present human environment interactions

This volume illustrates the ways in which today s environmental anthropologists are constructing new paradigms for understanding the multiplicity of players pressures and ecologies in every environment and the value of cultural knowledge of landscapes This Handbook provides a comprehensive survey of contemporary topics in environmental anthropology and thorough discussions on the current state and prospective future of the field in seven key sections As the contributions to this Handbook demonstrate the subfield of environmental anthropology is responding to cultural adaptations and responses to environmental changes in multiple and complex ways As a discipline concerned primarily with human environment interaction environmental anthropologists recognize that we are now working within a pressure cooker of rapid environmental damage that is forcing behavioural and often cultural changes around the world As we see in the breadth of topics presented in this volume these environmental challenges have inspired renewed foci on traditional topics such as food procurement ethnobiology and spiritual ecology and a broad new range of subjects such as resilience nonhuman rights architectural anthropology industrialism and education This volume enables scholars and students quick access to both established and trending environmental anthropological explorations into theory methodology and practice     **Gender and**

Disasters: Core Concepts and Ethical Theories Dónal P. O'Mathúna,Vilius Dranseika,Bert Gordijn,2018-10-16 This Open Access Book is the first to examine disasters from a multidisciplinary perspective Justification of actions in the face of disasters requires recourse both to conceptual analysis and ethical traditions Part 1 of the book contains chapters on how disasters are conceptualized in different academic disciplines relevant to disasters Part 2 has chapters on how ethical issues that arise in relation to disasters can be addressed from a number of fundamental normative approaches in moral and

political philosophy This book sets the stage for more focused normative debates given that no one book can be completely comprehensive Providing analysis of core concepts and with real world relevance this book should be of interest to disaster scholars and researchers those working in ethics and political philosophy as well as policy makers humanitarian actors and intergovernmental organizations

**Gender and the Social Dimensions of Climate Change** Amber J. Fletcher, Maureen G. Reed, 2022-09-01 Dispelling the myth that people in the Global North share similar experiences of climate change this book reveals how intersecting social dimensions of climate change people processes and institutions give rise to different experiences of loss adaptation and resilience among those living in rural and resource contexts of the Global North Bringing together leading feminist researchers and practitioners from three countries Australia Canada and Spain this collection documents gender relations in fossil fuel mining and extractive industries in land based livelihoods in approaches for inclusive environmental policy and in the lived experience of climate hazards Uniquely the book brings together the voices expertise and experiences of both academic researchers and women whose views have not been prioritized in formal policies for example women in agriculture Indigenous women immigrant women and women in male dominated professions Their contributions are insightful and compelling highlighting the significance of gaining diverse perspectives for a fuller understanding of climate change impacts more equitable processes and strategies for climate change adaptation and a more welcoming climate future This book will be vital reading for students and scholars of gender studies environmental studies environmental sociology geography and sustainability science It will provide important insights for planners decision makers and community advocates to strengthen their understanding of social dimensions of climate change and to develop more inclusive and equitable adaptation policies plans and practices

**Water Security Across the Gender Divide** Christiane Fröhlich, Giovanna Gioli, Roger Cremades, Henri Myrtilinen, 2017-10-05 This book examines water security as a prime example of how the economic socio cultural and political normative systems that regulate access to water reflect the evolving and gendered power relations between different societal groups Access to water is characterized by inequalities it depends not only on natural water availability but also on the respective socio political context It is regulated by gender differentiated roles and responsibilities towards the resource which are strongly influenced by among others tradition religion customary law geographical availability as well as the historical and socio political context While gender has been recognized as a key intervening variable in achieving equitable water access most studies fail to acknowledge the deep interrelations between social structures and patterns of water use Proof of these shortcomings is the enduring lack of data on water accessibility availability and utilization that sufficiently acknowledges the relational nature of gender and other categories of power and difference like class and socioeconomic status as well as their comprehensive analysis This book addresses this major research gap

**Gender-Transformative Approaches for Climate Change Adaptation** Anindita Sarkar, Nairwita Bandyopadhyay, 2025-07-14 This book offers an array of narratives and recommendations for gender transformative climate

change adaptation strategies based on research and evidence from the Global South We look at gender transformative adaptation GTA as a process that aims to address gender and power imbalance and strive for a change at the institutional level to enable empowering consequences through the meaningful and equal participation of women and men in leadership policy and decision making processes It makes four main contributions First it collates scholarship on the politics of adaptation and how policies affect men and women differently in communities and different geographical locations Second it captures pathways for parallel goals of climate action SDG 13 and achieving gender equality and empowerment SDG 5 through transformative ideas Third it curates new methodologies and adds knowledge to the gender transformative research GTR and assesses its potential for challenging and addressing gender power equations Fourth it voices the parallel ideas and evidence placing women as both victims of climate change and as the new change makers in the path of climate adaptation

*Disasters* Kathleen Tierney, 2019-05-20 Disasters kill maim and generate increasingly large economic losses But they do not wreak their damage equally across populations and every disaster has social dimensions at its very core This important book sheds light on the social conditions and on the global national and local processes that produce disasters Topics covered include the social roots of disaster vulnerability exposure to natural hazards such as hurricanes and tsunamis as a form of environmental injustice and emerging threats Written by a leading expert in the field this book provides the necessary frameworks for understanding hazards and disasters exploring the contributions of very different social science fields to disaster research and showing how these ideas have evolved over time Bringing the social aspects of recent devastating disasters to the forefront Tierney discusses the challenges of conducting research in the aftermath of disasters and critiques the concept of disaster resilience which has come to be seen as a key to disaster risk reduction Peppered with case studies research examples and insights from very different disciplines this rich introduction is an invaluable resource to students and scholars interested in the social nature of disasters and their relation to broader social forces
