Gene-environment Processes in Social Behaviors and Relationships ,2001 *Gene-Environment Interplay in*

Interpersonal Relationships across the Lifespan Briana N. Horwitz, Jenae M. Neiderhiser, 2015-07-03 Intriguing new findings on how genes and environments work together through different stages of life take the spotlight in this significant collection. Studies from infancy to late adulthood show both forces as shaping individuals' relationships within family and non-family contexts and examine how these relationships in turn continue to shape the individual. Transitional periods in which individuals become more autonomous and relationships and personal identities become more complicated receive special emphasis. In addition, chapters shed light on the extent to which the quantity and quality of genetic and environmental influence may shift across and even within life stages. Included in the coverage: Gene-environment interplay in parenting young children; The sibling relationship as a source of shared environment; Gene-environment transactions in childhood and adolescent problematic peer relationships; Toward a developmentally sensitive and genetically informed perspective on popularity; Spouse, parent and co-worker roles and relationships in adulthood; The family system as a unit of clinical care; the role of genetic systems. Behavioral geneticists, clinical psychologists and family therapists will find in *Gene-Environment Interplay in Interpersonal Relationships across the Lifespan* a window into current thinking on the subject, new perspectives for understanding clients and cases and ideas for further study. *Handbook of Peer Interactions, Relationships, and Groups, First Edition* Kenneth H. Rubin, William M. Bukowski, Brett Laursen, 2011-06-24 This comprehensive authoritative handbook covers the breadth of theories, methods and empirically based findings on the ways in which children and adolescents contribute to one another's development. Leading researchers review what is known about the dynamics of peer interactions and relationships from infancy through adolescence. Topics include methods of assessing friendship and peer networks; early romantic relationships; individual differences and contextual factors in children's social and emotional competencies and behaviors; group dynamics and the impact of peer relations on achievement, social adaptation and mental health. Salient issues in intervention and prevention are also addressed. **Relationship Pathways** W. Andrew Collins, 2012 This volume is designed to guide the reader through the research on close relationships before, during and after adolescence. It begins with a section on developmental pathways and processes. The next section is devoted to family relationships during the transitions into adolescence and young adulthood. The final two sections concern peer relationships. **Handbook of Aging and the Social Sciences** Linda George, 2010-11-26 *Handbook of Aging and the Social Sciences* Seventh Edition provides extensive reviews and critical evaluations of research on the social aspects of aging. It also makes available major references and identifies high priority topics for future research. The book is organized into four parts. Part 1 reviews developments in the field of age and the life course. ALC studies and presents guidelines on conducting cohort analysis. Part 2

covers the demographic aspects of aging longevity trends disability and aging and stratification and inequality research Part 3 includes chapters that examine socioeconomic position and racial ethnic disparities in health at older ages the role of social factors in the distribution antecedents and consequences of depression and aspects of private wealth transfers and the changing nature of family gift giving Part 4 deals with pension reform in Europe the political activities of older Americans the future of retirement security and gender differences in old age The Handbook is intended for researchers professional practitioners and students in the field of aging It can also serve as a basic reference tool for scholars professionals and others who are not presently engaged in research and practice directly focused on aging and the aged Contains all the main areas of social science gerontological research in one volume Begins with a section on theory and methods Edited by one of the fathers of gerontology Binstock and contributors represent top scholars in gerontology
