General Introduction To Hymnody And Congregational Song:

A General Introduction to Hymnody and Congregational Song Samuel J. Rogal, 1991 Emphasizes the English hymn as a literary entity within denominational and historical contexts The author sets forth a number of definitions for hymnody and congregational song and then examines the development of the various forms in England and the United States With a listing of works for further reading an index to all hymns discussed and chronology valuable both for the historical information it provides and for its appreciative evaluation of the religious treasures enshrined in English language hymns

Christian Hymnody in Twentieth-Century Britain and America David Music, 2001-07-30 The 20th century especially the latter decades was a time of explosive growth and importance in hymnody and yet published material about the hymnody of this period has been scattered and difficult to come by The present volume catalogues and categorizes the available writings to guide students and scholars in their research Furthermore this reference does not depend primarily on the view of the author compiler but guides users toward a broad spectrum of viewpoints about 20th century hymnody Listing the principal writings on the repertory language practice and people of hymnody during the last century this annotated bibliography offers students and researchers alike a handy reference for a vast and varied field Beginning with a unique introduction to and summary of hymnody in the 20th century Music arranges the entries by topic dividing each chapter by

helpful subject headings The repertory of the twentieth century and language issues are discussed Practical elements of hymnody are covered while the final chapter lists writings about individual hymn writers and other influential persons in the field Music provides a brief annotation for each entry and uses numerous cross references guiding the reader to relevant material in other sections of the book A comprehensive index concludes this essential reference The Sung Theology of the English Particular Baptist Revival Joseph V.
