Nalla, Graeme R. Newman, 2013-03-04 Indigenous communities are typically those that challenge the laws of the nation states of which they have become often very reluctantly a part Around the world community policing has emerged in many of these regions as a product of their physical environments and cultures Through a series of case studies Community Policing in Indigenous Commun **Bills of Rights in Australia** Andrew Byrnes, Hilary Charlesworth, Gabrielle McKinnon, 2009 Australia is often cited as the only Western nation without a bill of rights While this remains true at a national level the states and territories have recently taken the running on developing local bills of rights The ACT adopted a Human Rights Act in July 2004 and in 2006 Victoria enacted a Charter of Human Rights and Responsibilities in January 2007 Tasmania has now moved formally to consider similar legislation And Western Australia Queensland and New South Wales also seem likely to take this course This book examines the significance and ramifications of these radical developments It is the first to offer a comprehensive examination of this new form of legislation in Australia Provided by publisher **Soldiers of the Pátria** Frank D. McCann, 2004 This book provides an authoritative history of the Brazilian army from the army's overthrow of the monarchy in 1889 to its support of the coup that established Brazil's first civilian dictatorship in 1937 The period between these two events laid the political foundations of modern Brazil a period in which the army served as the core institution of an expanding and modernizing Brazilian state The book is based on detailed research in Brazilian British American and French archives and on numerous interviews with surviving military and civilian leaders It also makes extensive use of hitherto unused internal army documents as well as of private correspondence and diaries It is thus able to shed new light on the army's personnel and ethos on its ties with civilian elites on the consequences of military professionalization and on how the army reinvented itself after the collapse of its command structure in the crisis of 1930 a reinvention that allowed the army to become the backbone of the post 1937 dictatorship of Getulio Vargas **Stand Up and be Counted**, 2007 **Women and Conflict in India** Sanghamitra Choudhury, 2016-02-05 This book analyses the impact that prolonged socio political conflict in India has had on political and social spaces for women Focusing in particular on Assam in the North East of India it looks at how the conflict can be restricting and yet can also have the potential to expand these spaces for women owing to the collapsing of boundaries of gender roles thereby creating niche areas that may be leveraged for socio political transformation Based on empirical material collected from in depth interviews with individuals on both sides of the conflict the book locates the analysis in both a legal and political context It examines the

causes dynamics and impact of the ethno political conflicts in Assam as well as the efficacy and outcomes of capacity building programmes aimed at rehabilitating the surrendered militants as well as assisting affected women The book goes on to look at the role played by civil society especially the Mahila Shanti Sena Women Peace Corp towards conflict transformation It highlights the preventive mitigative and adaptive measures taken by the women and their role as agents of peace in the volatile zones of North East India Analysing the changing role of women in conflict situations as well as the legal measures and regulatory mechanisms in place for women in vulnerable pockets of India this book is a useful contribution to Gender Studies Peace and Conflict Studies and South Asian Politics *Mental Health and Punishments* Paul Taylor, Sharon

Morley, Jason Powell, 2020-06-09 How might we best manage those who have offended but have mental vulnerabilities How are risks identified managed and minimised What are ideological differences of care and control punishment and therapy negotiated in practice These questions are just some which are debated in the eleven chapters of this book Each with their focus on a given area authors raise the challenges controversies dilemmas and concerns attached to this particular context of delivering justice Taking insights on imprisonment community punishments and forensic services this book provides a broad analysis of environments But it also casts a critical light on how punishment of the mentally vulnerable sits within public attitudes and ideas policy discourses and the ways in which those seen to present as risky and dangerous are imagined Written in a clear and direct style this book serves as a valuable resource for those studying working or researching at the intersections of healthcare and criminal justice domains This book is essential reading for students and practitioners within the fields of criminology and criminal justice social work forensic psychology forensic psychiatry mental health nursing and probation Internal Security and Statebuilding B. K. Greener, W. J. Fish, 2014-11-27 This book examines international efforts to provide security in post conflict sites and explains why internal security should be given precedence in statebuilding endeavours The work begins by exploring the evolution of security sectors in mature liberal democratic states before examining the attempts of such states to accelerate that evolutionary process in post conflict sites through statebuilding and security sector reform These discussions suggest interestingly different answers to the question of who should provide for internal security in international operations When considering mature states there are both practical and normative reasons as to why internal security has become the sole domain of police with military forces being excluded from internal affairs In peace and stability operations on the other hand difficulties with utilising police personnel have led to military forces being required to play internal security roles This tension is investigated further through detailed case studies of three recent missions Afghanistan Timor Leste and Solomon Islands These case studies both reinforce and augment the practical and normative reasons for ensuring that internal security remains the domain of police This then impacts upon peace and stability operations in two important ways If we are to provide enduring security in post conflict sites we should both i prioritise internal security agencies in security sector reform efforts and ii prioritise ways of enabling police to play

internal security roles in the contributing mission This book will be of much interest to students of statebuilding peace and conflict studies military studies police studies historical sociology security studies and IR in general Halsbury's Statutes of England and Wales Great Britain,1985 **Statistical Register** Australia. Jones,2008 This study explores the nature of the insurgency in Afghanistan the key challenges and successes of the U S led counterinsurgency campaign and the capabilities necessary to wage effective counterinsurgency operations By examining the key lessons from all insurgencies since World War II it finds that most policymakers repeatedly underestimate the importance of indigenous actors to counterinsurgency efforts The U S should focus its resources on helping improve the capacity of the indigenous government and indigenous security forces to wage counterinsurgency It has not always done this well The U S military along with U S civilian agencies and other coalition partners is more likely to be successful in counterinsurgency warfare the more capable and legitimate the indigenous security forces especially the police the better the governance capacity of the local state and the less external support that insurgents receive Policing the Global South Danielle Watson,Sara N.
