General Sketch of the History of Pantheism Constance E. Plumptre, 2011-06-02 Constance E Plumptre's first published work provides an erudite but accessible introduction to Oriental Greek and modern Pantheism *General Sketch of the History of Pantheism* Constance E. Plumptre, 1882 *Anti-Theistic Theories, Being the Baird Lecture for 1877* Robert Flint, 2025-07-19 Reprint of the original first published in 1880 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage Anti-theistic Theories Robert Flint, 1879 **Anti-theistic theories. Baird lect., 1877** Robert Flint, 1879 *Autonomous Nature* Carolyn Merchant, 2015-08-27 *Autonomous Nature* investigates the history of nature as an active often unruly force in tension with nature as a rational logical order from ancient times to the Scientific Revolution of the seventeenth century Along with subsequent advances in mechanics hydrodynamics thermodynamics and electromagnetism nature came to be perceived as an orderly rational physical world that could be engineered controlled and managed *Autonomous Nature* focuses on the history of unpredictability why it was a problem for the ancient world through the Scientific Revolution and why it is a problem for today The work is set in the context of vignettes about unpredictable events such as the eruption of Mt Vesuvius the Bubonic Plague the Lisbon Earthquake and efforts to understand and predict the weather and natural disasters This book is an ideal text for courses on the environment environmental history history of science or the philosophy of science *The Christian Tradition* Jaroslav Pelikan, 2018-03-26 Jaroslav Pelikan begins this volume with the crisis of orthodoxy that confronted all Christian denominations by the beginning of the eighteenth century and continues through the twentieth century in its particular concerns with ecumenism The modern period in the history of Christian doctrine Pelikan demonstrates may be defined as the time when doctrines that had been assumed more than debated for most of Christian history were themselves called into question the idea of revelation the uniqueness of Christ the authority of Scripture the expectation of life after death even the very transcendence of God Knowledge of the immense intellectual effort invested in the construction of the edifice of Christian doctrine by the best minds of each successive generation is worth having And there can hardly be a more lucid readable and genial guide to it than this marvellous work *Economist* This volume like the series which it brings to a triumphant conclusion may be unreservedly recommended as the best one stop introduction currently available to its subject Alister E McGrath *Times Higher Education Supplement* Professor Pelikan's series marks a significant departure and in him we have at last a master teacher Marjorie O Rourke Boyle *Commonweal* Pelikan's book marks not only the end of a dazzling scholarly effort but the end of an era as well There is reason to suppose that nothing quite like it will be tried again Harvey Cox *Washington Post Book World* *Pantheologies* Mary-Jane Rubenstein, 2018-11-06 Pantheism is the idea that God and the world are identical that the creator sustainer destroyer and transformer of all things is the universe itself From a monotheistic perspective this notion is irremediably

heretical since it suggests divinity might be material mutable and multiple Since the excommunication of Baruch Spinoza Western thought has therefore demonized what it calls pantheism accusing it of incoherence absurdity and with striking regularity monstrosity In this book Mary Jane Rubenstein investigates this perennial repugnance through a conceptual genealogy of pantheisms What makes pantheism monstrous at once repellent and seductive is that it scrambles the raced and gendered distinctions that Western philosophy and theology insist on drawing between activity and passivity spirit and matter animacy and inanimacy and creator and created By rejecting the fundamental difference between God and world pantheism threatens all the other oppositions that stem from it light versus darkness male versus female and humans versus every other organism If the panic over pantheism has to do with a fear of crossed boundaries and demolished hierarchies then the question becomes what a present day pantheism might disrupt and what it might reconfigure Cobbling together heterogeneous sources medieval heresies their pre and anti Socratic forebears general relativity quantum mechanics nonlinear biologies multiverse and indigenous cosmologies ecofeminism animal and vegetal studies and new and old materialisms Rubenstein assembles possible pluralist pantheisms By mobilizing this monstrous mixture of unintentional God worlds Pantheologies gives an old heresy the chance to renew our thinking *Bibliotheca Orientalis* Luzac &co,1911

scientific validation plays an increasing role in everyday thought processes In the scientific and logical world religion faith and beliefs get continuously challenged Many once faithful Christians may begin to question their Christian beliefs or get confused on the validity of the numerous doctrines and teachings of various Christian sects Similarly the agnostic is thrown into confusion amongst the claims of the many Christian sects on the Truth On the other end of the spectrum the hard core atheist begins to increasingly question the intelligence of these individuals that still believe in some sort of divine beings To address these this book utilizes logical arguments and expositions of modern day examples in hopes to bring a clearer picture to issues dealing with a divine creator the search for the truth and certain issues in Christianity
