chemistry the atom allowing the authors to tell a cohesive story that progresses logically through molecules and compounds to help students intuitively follow complex concepts more logically This unified thread of ideas helps students build a better foundation and ultimately gain a deeper understanding of chemical concepts Students can more easily understand the microscopic to macroscopic connections between unobservable atoms and the observable behavior of matter in daily life and are brought immediately into real chemistry instead of being forced to memorize facts Reflecting a true atoms first perspective the Second Edition features experienced atoms first authors incorporates recommendations from a panel of atoms first experts and follows historical beliefs in teaching chemistry concepts based and real experimental data first This approach distinguishes this text in the market based whereby other authors teach theory first followed by experimental data Package consists of Books a la Carte for General Chemistry Atoms First Second Edition NOTE this is the the standalone Books a la Carte for General Chemistry Atoms First 2 e edition if you want the Books a la Carte for General Chemistry Atoms First 2 e and access card order the ISBN below 0321813316 9780321813312 General Chemistry Atoms First Books a la Carte Plus MasteringChemistry with eText Access Card Package Package consists of 0321813030 9780321813039 General Chemistry Atoms First Books a la Carte Edition 0321834186 9780321834188 MasteringChemistry with Pearson eText ValuePack Access Card for General Chemistry Atoms First

General Chemistry Notes Justin C. Ketcham, 2011-12-31 CollegeChemistryNotes.com offers General Chemistry Notes which is an all in one combined lecture notes textbook material substitute that helps undergraduate general chemistry students instantly reduce their study time while increasing their lecture grade in the course General Chemistry Notes is the ONLY product written by actual chemistry professors that is designed to combine both a student's lecture notes AND textbook materials into one easy to read and easy to understand format So STOP spending an hour per page trying to read your complicated textbook Additionally General Chemistry Notes removes the largest distraction that every student faces during lecture taking notes Our Notes are the only complete set of undergraduate General Chemistry notes proven to be so effective that it has been featured in academic magazines and presented at hundreds of science education seminars in the United States Prior to its release and distribution the contents of General Chemistry Notes were used exclusively by the contributing authors while they were teaching their own General Chemistry courses at some of the top universities in the country The contributing professors of General Chemistry Notes noticed that regardless of which university they were teaching at and regardless of which textbook they were using their lecture notes never changed This inspired the professors members of the AFT and ACS to develop and write General Chemistry Notes Now that the Notes are available to all undergraduate chemistry students they are the only system of their kind to be labeled the perfect companion to chemistry students who want perfect notes FACT 95 % of all General Chemistry courses and General Chemistry textbooks are the same This fact is exemplified by the thousands of chemistry students from hundreds of different colleges throughout the U S who have used our Notes to earn A grades in their General Chemistry

courses The enormous popularity of General Chemistry Notes would not be possible unless they were widely applicable to ANY undergraduate General Chemistry course and ANY college level General Chemistry textbook Go online and Google any university's General Chemistry course number 1st or 2nd semester it doesn't matter and examine the course syllabus Invariably the syllabus will look almost identical to your own This is why college transfer credit for General Chemistry is so freely granted to students who transfer from one educational institution to another How quickly will YOU benefit from reading General Chemistry Notes Our Notes instantly reduces the quantity of material that you must read study and learn by 34.7% With years of chemistry teaching experience at the university level the authors of General Chemistry Notes have been able to pinpoint exactly which material is essential and which material is completely irrelevant An average chapter in your textbook is 41.53 pages The average Section in our Notes is only 14.41 pages a reduction of 34.7% And remember those 14.41 pages include the topics and contents of both your textbook and your lecture notes combined into a highly optimized easy to understand format Every major topic is covered in great detail while topics never seen on exams are omitted One particular student was studying chemistry an average of 10 hours week or 160 hours semester before he received General Chemistry Notes Immediately after purchasing our Notes he was able to reduce his chemistry study time to 3.5 hours week or 56 hours semester while earning better scores on his quizzes and midterm exams How much money would you pay to save yourself 6.5 hours of studying per week without sacrificing your grade If time is money you will earn back your investment in a matter of days So Stop Writing We've Already Taken Your Notes

General Chemistry (with LMS Integrated for MindTap General Chemistry, 4 Terms (24 Months) Printed Access Card) William Vining, Young, Roberta Day, Beatrice Botch, 2015-08-17 MindTap General Chemistry is a new homework platform and interactive textbook designed to help you study better MindTap organizes your homework and readings in short manageable chunks so that you read a little then do a little The learning path ramps up your knowledge so that you first learn essential concepts and skills before moving onto more advanced problems like the ones you might get on an exam There's also a MindTap Mobile App to keep you connected with important reminders and on demand study tools This print companion to MindTap for General Chemistry presents the narrative figures tables and example problems but no graded problems or assessments You will need a MindTap access code to complete the interactive activities exercises and assignments

General Chemistry Ralph H. Petrucci, William S. Harwood, 2007 General Chemistry Principles and Modern Applications is recognized for its superior problems lucid writing and precision of argument This updated and expanded edition retains the popular and innovative features of previous editions including Feature Problems follow up Integrative and Practice Exercises to accompany every chapter Example and Focus On application boxes as well as new Keep in Mind marginal notes Topics covered include atoms and the atomic theory chemical compounds and reactions gases Thermochemistry electrons in atoms chemical bonding liquids solids and intermolecular forces chemical kinetics principles of chemical equilibrium acids and bases electrochemistry
