General Chennaults Replacement Crews:

General Chennault's Replacement Crews Bruce Sidney Sholl, 2002-05 This is the story of a small part of a very large war and some of the people who all had a burning desire to fly who were involved in a small way with it To them it was a very large way and they would never forget It was all Top Secret At that time they had no idea of just how secret it was About fifty years later under the Freedom of Information Act some articles began to appear in the media based on their work and other Top Secret World War II assignments This is their Squadron s story Flying Tiger Jack Samson, 2011-12-20 The Flying Tigers and the U S Fourteenth will be the subject of a huge upcoming film from IMAX and director John Woo The film is scheduled to start shooting in spring 2011 with no firm release date stated yet The role of Chennault in the film is likely to be the role of a lifetime for a huge star When a sickly half deaf forty seven year old retired U S Army Air Corps Captain went to China in 1937 to survey Chiang Kai shek s Chinese Air Force little did the world know this would be the man to stem the Japanese tide in the Far East Almost every military expert predicted his handful of pilots of the American Volunteer Group would not last three weeks Yet in seven months in 1942 the AVG fighting a rear guard action over Burma China Thailand and French Indonesia destroyed a confirmed 199 planes with another 153 probables as well They did this losing only four pilots and twelve P 40s in air combat and sixty one on the ground In this definitive biography of General Claire Chennault veteran reporter Jack Samson offers a rare and fascinating inside look at this legendary man behind the Flying Tigers Unlike Eisenhower and MacArthur Chennault was no saintly military leader He was a chain smoking bourbon drinking womanizing man He was the kind of leader his men knew could and did fly better than they in any kind of plane But first and last he was a fighter a tough single minded warrior who was never confused by who the enemy was in Asia regardless of what the State Department thought Following Chennault from this command of the Fourteenth U S Army Air Force during World War II to the part of his life that is not well known the intriguing postwar years in China and Formosa where his Civilian Air Transport CAT became the scourge of the Red Chinese The Flying Tiger is an extraordinary portrait of one of America s great military commanders **Magazine Abstracts** United States. Office of War Information. Bureau of Intelligence, 1942-07 **The Flying Tigers** Braxton Eisel, 2009 Product Description They volunteered For a variety of reasons patriotic altruistic mercenary or just for the hell of it Nearly three hundred U S servicemen and a couple of female nurses volunteered to fight a war in a place they knew little about Recruited at military bases around the country the members of the American Volunteer Group AVG set off for the unknown in the summer and fall of 1941 While U S support for the Allied cause was growing at a steady pace most Americans still felt distanced from the conflict enveloping Europe and Asia and did not want to go to war At the highest levels of the government however entering the war appeared inevitable The AVG was one way of gaining experience in this vicious war while increasing support for the nations fighting the Axis powers Despite incredible odds against them from numerically superior Japanese forces and a near complete lack of supply and replacement parts they took

the first successful fight to the Japanese during a time of Japan's unrelenting successes. It was not pretty and their legend has eclipsed the reality but the reality of the AVG is still an amazing story. Led by Claire Lee Chennault, they made history.

Rhino Tanks and Sticky Bombs Robert P. Wettemann, 2025-06-10. Coming of age during the Great Depression, the American boys who fought in World War II had, through necessity, developed a unique brand of technological resourcefulness. This proficiency, Robert P. Wettemann Jr. contends, provided GIs with another weapon in a distinctly American way of war. *Rhino Tanks and Sticky Bombs* is Wettemann's eminently readable account of how this hard-won use-it-up-wear-it-out-make-it-do-or-do-without mentality was critical to America's success, giving servicemen the know-how and can-do spirit to creatively engineer solutions to wartime problems. More than all the other soldiers in the conflict, American servicemen grew up in a society where the machine was ubiquitous; where enduring an unparalleled period of financial distress meant learning to keep their Model Ts, Fordson tractors, or other machinery operational. Wettemann describes how this tinkerer's mentality promoted a technical aptitude and willingness to adapt unmatched by other armies fielded during World War II. At the same time, the US command structure demonstrated a willingness to evaluate, accept, and employ such efforts to improve both fighting capacity and the general comfort of US servicemen. Seamlessly blending social, military, intellectual, and technological history, *Rhino Tanks and Sticky Bombs* weaves an engaging narrative about the roots of American ingenuity during World War II and makes a compelling case for a specific instance of American distinctiveness that proved crucial to Allied victory.

Commercial America, 1944 *Chennault* Jack Samson, 1987. A biography of Captain Claire Chennault, the man who stemmed the Japanese tide in the Far East with his legendary Flying Tigers during the Second World War. **The War Reports of General of the Army George C. Marshall, Chief of Staff, General of the Army H. H. Arnold, Commanding General, Army Air Forces [and] Fleet Admiral Ernest J. King, Commander-in-Chief, United States Fleet and Chief of Naval Operations**, 1947 **The Threadbare Buzzard** Thomas M. Tomlinson, 2004. In this hilarious and heartbreaking story, the author tells the so-called Threadbare Buzzard among what he saw as the preening fliers of WWII. He tells the stories of dogfights and fighter planes used by the Marine Corps in the Pacific. Before the United States entered World War II, Tomlinson joined the Royal Canadian Air Force to get into action and flying. Following Pearl Harbor, he and most of the other Americans serving in the RCAF were repatriated into the US military, most into the Army Air Corps. Tomlinson was one of the few who chose the Marine Corps, and after training, he was off to the Southwest Pacific and Guadalcanal with VMF 214, the squadron that became the Black Sheep. Late in the war, while flying off a carrier during raids against Japan, Tomlinson's four-plane division was assigned to be a high-altitude radio relay for the attacking forces. During this mission, they encountered the jet stream at that time, a little-known phenomenon, especially among fighter pilots accustomed to lower, less hostile altitudes. Hours later, lost out of radio range and out of fuel, they ditched in the northwest Pacific. Three of the four were rescued by the Sea Devil SS 400. Tomlinson ended up in the naval hospital at Pearl Harbor for the closing months of the
