Generating Energy Alternatives Douglas Cogan, Susan Williams, 1987      **Generating Energy Alternatives** Douglas Cogan, Susan Williams, 1983      **Energy Abstracts for Policy Analysis**, 1989      The Code of Federal Regulations of the United States of America, 2001 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government      The Global Greenhouse Regime Kirk R. Smith, 2013-12-16 Effective policies to prevent global warming and climatic change are urgently required by the world community However international negotiations on this issue repeatedly come up against the problems of allocating responsibility for the greenhouse effect and bearing the costs of remedying the situation This volume offers a multidisciplinary response to the challenge It presents the scientific economic and political issues and goes on to describe the policy options available The different ways of determining responsibility for greenhouse gases and calculating obligations to pay for hazards to the environment are analyzed The contributors examine the implications for various countries while a concluding chapter explores climatic change negotiations what is at stake and for whom      *Congressional Record* United States. Congress, 1992      **A Shock to the System** Timothy J. Brennan, Karen L. Palmer, Raymond J. Kopp, Alan J. Krupnick, Vito Staglino, Dallas Burtraw, 2014-04-04 A Shock to the System is a guide to the decisions that will be faced by electricity providers customers and policymakers Produced by a team of analysts at Resources for the Future this concise and balanced work provides background necessary to understand the increasing role of competition in electricity markets The authors introduce important concepts and terminology and offer the history of public policy regarding electricity They identify the significant proposals for implementing competition and examine the potential consequences for regulation industry structure cost recovery and the environment      St. Louis River Basin Hydroelectric Projects, St. Louis County and Carlton County, 1995      **Federal Energy Regulatory Commission Reports** United States. Federal Energy Regulatory Commission, 1993      **The Energy Index**, 1988      *Technology Options for Electricity Generation* Hadi Dowlatabadi, Michael A. Toman, 2016-03-22 Environmental constraints and market uncertainties create new challenges for electricity generation In this title originally published in 1991 the authors present a simulation model with a capability for highly detailed activity to identify cost minimising investment options under different assumptions about demand costs regulation and other economic and environmental factors Applying the model to two U S regions having sharply different electricity demand and supply characteristics they identify the importance of advanced technologies and augmented electricity trade among regions This title is ideal for students interested in environmental studies      **Electricity Restructuring in the United States** Steve Isser, 2015-04-16 The electric utility industry in the US is technologically complex and its structure as a classic network industry makes it intricate in business terms as well so deregulation of such a complicated industry was a particularly detailed process Steve Isser provides a detailed and comprehensive analysis of the history of the transformation of this

complex industry from the 1978 Energy Policy Act to the present covering the economic legal regulatory and political issues and controversies in the transition from regulated utilities to competitive electricity markets The book is a multidisciplinary study that includes a comprehensive review of the economic literature on electricity markets the political environment of electricity policymaking administrative and regulatory rulemaking and the federal case law that restrained state and federal regulation of electricity Isser offers a valuable case study of the pitfalls and problems associated with the deregulation of a complex network industry
