The Gifting God Stephen H. Webb, 1996-04-18 Theories of generosity or gift giving are becoming increasingly important in recent work in philosophy and religion Stephen Webb seeks to build on this renewed interest by surveying a distinctively modern and postmodern approach to the issue of generosity and then developing a

theological framework for it He contends that in many ways society has become suspicious of charity and generosity This cynicism has led to quick and easy judgments that in turn have led to a new orthodoxy with its own troubling consequences Webb believes that we need to recover the generosity that our culture obscures behind this monologue on self interest and that theology as a form of critical thought can play a helpful role Throughout the book Webb argues for a theory of giving that is other oriented without being self negating He maintains that the generosity of God s grace properly understood can reorient our own idea of the gift and must be correlated to our own practices of exchange and reciprocity **iSERVE: Why Do "I" Serve?** Tanya R Townsend, Cornerstone Christian Center, Have you ever thought about what it means to really serve like Jesus Are we reflecting His love and sacrifice or just following the crowd The iSERVE Reflection Booklet asks you to take a deep dive and see for yourself At Cornerstone Christian Center we re all about Loving God Loving People and Going to Revolutionize the world The iSERVE Booklet is your chance to experience that for real The lowercase i in iSERVE is a reminder that it s not about you it s about surrendering being humble and putting others and God first This booklet challenges you to think about how serving can change you It s not just something you do it s how you love how you connect with people and how you grow in your relationship with Christ Can you truly love someone if you re not willing to serve them iSERVE shows you how to live out your faith with action just like Jesus did When you serve you create a ripple effect that can transform lives including your own So are you ready to make a real difference Upload your reflection booklet and let s grow

Giving Women Jill Rappoport, 2011-08-01 Altruism and self assertiveness went hand in hand for Victorian women During a period when most lacked property rights and professional opportunities gift transactions allowed them to enter into economic negotiations of power as volatile and potentially profitable as those within the market systems that so frequently excluded or exploited them They made presents of holiday books and homemade jams transformed inheritances into intimate or aggressive bequests and in both prose and practice offered up their own bodies in sacrifice Far more than selfless acts of charity or sure signs of their suitability for marriage such gifts radically reconstructed women s personal relationships and public activism in the nineteenth century Giving Women examines the literary expression and cultural consequences of English women s giving from the 1820s to the First World War Attending to the dynamic action and reaction of gift exchange in fiction and poetry by Charlotte Bront Elizabeth Barrett Browning Elizabeth Gaskell and Christina Rossetti as well as in literary annuals Salvation Army periodicals and political pamphlets Rappoport demonstrates how female authors and fictional protagonists alike mobilized networks outside of marriage and the market Through giving women redefined the primary allegiances of their everyday lives forged public coalitions and advanced campaigns for abolition slum reform eugenics and suffrage

Habits of Grace David Mathis, 2016-02-12 The Christian life is built on three seemingly unremarkable practices reading the Bible prayer and fellowship with other believers However according to David Mathis such habits of grace are the God designed channels through which his glorious grace flows making them life giving practices for all Christians Whether it s hearing God s voice the Word having his ear prayer or participating in his body fellowship such spiritual rhythms of the Christian life have the power to awaken our souls to God s glory and stir our hearts for lifelong service in his name What s more these seemingly simple practices grant us access to a host of spiritual blessings that we can only begin to imagine this side of eternity and the incredible joy that such blessings bring to God s children today

A Theory of Virtue Robert Merrihew Adams, 2008-10-23 The distinguished philosopher

Robert M Adams presents a major work on virtue which is once again a central topic in ethical thought A Theory of Virtue is a systematic comprehensive framework for thinking about the moral evaluation of character Many recent attempts to stake out a place in moral philosophy for this concern define virtue in terms of its benefits for the virtuous person or for human society more generally In Part One of this book Adams presents and defends a conception of virtue as intrinsic excellence of character worth prizing for its own sake and not only for its benefits In the other two parts he addresses two challenges to the ancient idea of excellence of character One challenge arises from the importance of altruism in modern ethical thought and the question of what altruism has to do with intrinsic excellence Part Two argues that altruistic benevolence does indeed have a crucial place in excellence of character but that moral virtue should also be expected to involve excellence in being for other goods besides the well being and the rights of other persons It explores relations among cultural goods personal relationships one s own good and the good of others as objects of excellent motives The other challenge the subject of Part Three of the book is typified by doubts about the reality of moral virtue arising from experiments and conclusions in social psychology Adams explores in detail the prospects for an empirically realistic conception of excellence of character as an object of moral aspiration endeavor and education He argues that such a conception will involve renunciation of the ancient thesis of the unity or mutual implication of all virtues and acknowledgment of sufficient moral luck in the development of any individual s character to make virtue very largely a gift rather than an individual achievement though nonetheless excellent and admirable for that
