The Tree of Life and the Holy Grail Sylvia Francke, 2007 Recent works of fiction and popular history have promoted the idea that the Holy Grail symbolizes a physical bloodline that resulted from a union of Jesus Christ and Mary Magdalene It is claimed by some that this is the secret kept tirelessly by certain esoteric movements for the past two millennia Based on her groundbreaking research Sylvia Francke exposes this notion as a blatant misinterpretation of the mystery traditions that preceded and ran parallel to the birth of Christianity She traces the ancient spiritual paths of knowledge from the Cathars the Knights Templar and the enigmatic Rosicrucians to the work of Rudolf Steiner in the twentieth century Here she concludes is true Grail knowledge the Tree of Life and the Holy Grail itself explained in their metaphysical context She suggests a solution to the mystery of sudden wealth and the strange behavior of Breton Saunière the mysterious priest of Rennes le Château in southern France True Grail knowledge Francke concludes has nothing to do with bloodlines or worldly status rather it is an ancient lifeline to the spiritual origins of creation Its energetic forces radiate out from the Earth and in from the constellations and planets while interacting with human individuals It represents the key to fulfilling humanity's quest and the next step in human evolution The recent explosion of interest in revisionist Christianity history the shadow Grail prompted Sylvia Francke to revise *The Tree of Life and the Holy Grail* first published in 1996 The result is a completely reworked and expanded book that offers a powerful and convincing refutation of distorted esoteric truths

scholarship and speculation this landmark work presents startling new evidence that traces archaeology's most enduring mysteries back to the lost civilization of Atlantis The Great Pyramid Stonehenge Machu Picchu For centuries these and other sacred sites have inspired wonder among those who ponder their origins Conventional science tells us they were constructed by local peoples working with the primitive tools of a fledgling civilization But these megaliths nonetheless continue to attract pilgrims scholars and adventurers drawn by the possibility that their true spiritual and technological secrets remain hidden Who could have built these elaborate monuments How did they do it And what were their incomprehensible efforts and sacrifices designed to accomplish Now comes a revolutionary theory that connects these mysteries to reveal a hidden global pattern the ancient work of an advanced civilization whose warnings of planetary cataclysm now reverberate across one hundred millennia International bestselling author Colin Wilson and Canadian researcher Rand Flem-Ath join forces to share startling evidence of a fiercely intelligent society dating back as much as 100 000 years one that sailed the oceans of the world building monuments to preserve and communicate its remarkable wisdom The Atlantis Blueprint is their term for a sophisticated network of connections between these sacred sites that they trace to Atlantis a sophisticated maritime society that charted the globe from its home base in Antarctica until it was obliterated by the devastating global changes it anticipated but could not escape Here is adventure to realms beyond our imaginings to shifting poles changing latitudes into the world of ancient mariners who recharted the globe to astonishing discoveries about our ancestors Here are the great mysteries the incredibly complex geography of the Temple of Luxor the startling sophistication of Egyptian science and math and tantalizing similarities among the Hebrew Greek and Mayan alphabets to the Chinese lunar zodiac The Atlantis Blueprint opens up a Pandora's box of ancient mysteries lost worlds and millennial riddles It is a story as controversial fascinating dangerous and inspiring as any ever told
