Global Economics and Religion James Finn, 1983 *Religion, Economics, and Public Policy* Andrew D. Walsh, 2000-06-30

As Americans seem bent on dismantling the safety net of the New Deal era the most popular version of the culture wars thesis paints an arguably cosmic battle between defenders of religious orthodoxy who embrace laissez faire capitalism and secular elites who have imposed a Marxist welfare state upon an unsuspecting populace Walsh shows that this thesis ignores the role of religious leaders in legitimizing the types of programs embodied in America's approach to the welfare state Walsh explores the arguments of William Jennings Bryan America's foremost fundamentalist who opposed the Social Darwinism often associated with the defense of laissez faire capitalism John Ryan the Catholic priest whose writings foreshadowed Roosevelt's New Deal legislation Reinhold Niebuhr the influential mainstream Protestant leader who defended America's Cold War strategy of containment while opposing laissez faire capitalism and the arguments of influential African American Protestant and Jewish leaders Finally he looks at the role of religious leaders in the contemporary debates over issues such as health care and welfare reform Whenever possible the relationship between the official views of the religious leaders is analyzed in light of the opinions and voting patterns of their constituents The opinions and voting patterns of secular Americans are also contrasted to those of religious Americans Of particular interest to scholars students and general readers concerned with the role of religion in American politics *Islam and the Political* Amr G. E. Sabet, 2008-05-20 This book compares Islamic and Western political formulations highlighting areas of agreement and disparity Building on this analysis the author goes on to show that political Islam offers a serious alternative to the dominant political system and ideology of the West Sabet argues that rather than leading to a Clash of Civilizations or the assimilation of Islam into the Western system a positive process of interactive self reflection between Islam and liberal democracy is the best way forward Beginning this process Sabet highlights key concepts of Islamic political thought and brings them into dialogue with Western modernity The resulting synthesis is essential reading for advanced undergraduate and graduate students of Islamic and Middle Eastern politics political theory comparative politics and international relations The Korean Tradition of Religion, Society, and Ethics Chai-sik Chung, 2016-11-10 By making Korea a central part of comparative history of East Asian religion and society this book traces the evolution of Korean religion from the oldest representation to that of the current day by utilizing wide ranging interdisciplinary and comparative resources This book presents a holistic view of the enduring religious tradition of Korea and its cultural and social significance within the wider horizons of modern and globalizing changes Reflecting nearly five decades of the author's work on the subject it presents an understanding of the main current in Korean religion and social thought throughout history It then goes on to examine discourses on values and morality involving the relationship between religion and society in particular the human meaning of economy and society which is one of the most central and practical problems in the contemporary world with global relevance beyond Korea and Asia Addressing the overview of the

Armed Forces, Conflict, And Change In Africa Henry S. Bienen, 2019-03-04 Nigeria has not evolved political formulas that explicitly allow religion or religious authorities to define legitimacy There have however been struggles carried out in religious terms over constitutional mechanisms for adjudicating conflict Religion also has been an element in the conflict between ethnic language groups Finally religion provides a language a set of values and institutions through which groups struggle and over which groups contend both within and between religious communities It has been necessary for northern leaders to stress Islam in order to maintain northern unity However Islam itself has worked to intensify fissures opened up by social and economic change in Nigeria Islam in Nigeria continues to be contentious in both domestic and foreign policy

Private Virtue and Public Policy James Finn, 1990-01-01 Private virtue is a major factor in forming public policies including those that affect the material well being of citizens This is a central thesis of Catholic social thought but it is not a parochial view As this affluent nation grapples with resistant social issues of all kinds drugs homelessness poverty the consequences of sexual permissiveness inadequate education and the breakdown of families it is becoming increasingly evident that the need for private virtue is a central fact of our political and social life In this respect Catholic social thought and the American experience are mutually supportive This volume examines the implications of this statement In a sense it is the next step in the dialogue and debate initiated by the Catholic bishops in the United States over a period of years in the mid eighties The pastoral letter that resulted from their deliberations asked how the economic life of the United States could best serve the material and spiritual well being of people both those in the United States and those in other countries It also proposed some answers Even before the bishops released their statement the Lay Commission on Catholic Social teaching and the U S Economy joined the debate with its own lay letter which both overlaps and differs in significant respects from the bishops statement This volume which is initiated by the Lay Commission takes the debate even further Various experts discuss the relationship between public policies and private virtue and examine specific aspects of economic life Among these are the meaning of economic rights what to do about Third World debt economic justice and the family and certain macroeconomic issues Their view is independent authoritative clearly articulated and inevitably they will be controversial They also enrich and further the ongoing dialogue on how best to make the economy serve the people and in particular the most deprived Contributors include William E Simon and Michael Novak chairman and vice chairman of the Lay Commission J Brian Benestad Allan Carlson J Peter Grace Howard J Wiarda John P Cullity James Q Wilson and the editor of this volume James Finn

Merging Eric L. Jones, 2016-06-28 Economists agree about many things contrary to popular opinion but the majority agree about culture only in the sense that they no longer give it much thought So begins the first chapter of *Cultures Merging* in which Eric Jones one of the world's leading economic historians takes an eloquent pointed and personal look at the question of whether culture determines economics or is instead determined by it Bringing immense learning and originality to the issue of cultural change over the long term course of global economic history Jones questions cultural explanations of much social behavior in Europe East Asia the United States Australia and the Middle East He also examines contemporary globalization arguing that while centuries of economic competition have resulted in the merging of cultures into fewer and larger units these changes have led to exciting new syntheses Culture matters to economic outcomes Jones argues but cultures in turn never stop responding to market forces even if some elements of culture stubbornly persist beyond the time when they can be explained by current economic pressures In the longer run however cultures show a fluidity that will astonish some cultural determinists Jones concludes that culture's ghostly transit through history is much less powerful than noneconomists often claim yet it has a greater influence than economists usually admit The product of a lifetime of reading and thinking on culture and economics a work of history and an analysis of the contemporary world *Cultures Merging* will be essential reading for anyone concerned about the interaction of cultures and markets around the world Annual Report Woodrow Wilson International Center for Scholars, 1980 **Multilateral Investment Insurance and Private Investment**
