**Spirituality and Global Ethics** Mahmoud Masa'eli, Rico Sneller, 2017-05-11 This volume addresses three fundamental questions about the interplay between the ethics of globality and spirituality What are the practical implications of spirituality for the condition of life in a turbulent era of violent religious non religious extremism In what way can spirituality the view of love compassion tolerance and mutual recognition encounter mistrust enmity separateness and violence How and in what way can spirituality contribute to the newly emerging global

ethics Religious scholars distinguish between the esoteric and exoteric sides of belief systems Esotericism centres on the inner awareness and conceals a certain spirituality that is only transmittable to those who could successfully pass through a process of initiatic preparation and transpersonal practices to understand the mystical dimensions of existence In contrast exotericism takes the outer dimension of every day consciousness into account and favours the possibility of the popular understanding of the essence of existence In this perspective truth could be grasped by the public without the need of any transpersonal initiative and transformation of consciousness Esotericism extends beyond religion and has become the spiritual philosophy of life without the need of being essentially religious It has become common notably in the West to identify oneself as spiritualist without having religious affiliations The condition of globality has provided an unprecedented opportunity for spiritual perspectives to grow Ideas perspectives beliefs and philosophies of life are growing outside local national containers to express themselves in different global settings while the forces of globalisation are influencing local identities and cultures While evolving global transformations strengthen people s capability to leave institutionally ordered belief systems it simultaneously enables them to rearrange themselves around alternative perspectives These fundamental transformations cultivate a fabulous landscape for the growth of spirituality

Philosophy Theories Social and Social Media      *Normative Justification of a Global Ethic* Uchenna B. Okeja, 2013 The focus of this book is the normativity of global ethic Over the years different cultures and civilizations have been brought closer than never before by globalization This trend has both its negative and positive dimensions Overall the main problem of this present trend of societal organization and human interaction called globalization is a moral issue namely the question how should we treat one another Okeja s global ethic seeks to answer this question It underscores that we should treat one another in our current age of globalization in accordance with the Golden Rule principle The suggestion of this ethic is therefore that we should not treat others the way we would not want to be treated This sounds simple enough The problem however is that it is not exactly clear what this principle of moral conduct would suggest in both simple and complex moral situations Most importantly it is not clear why it is reasonable to treat people the way we would not want to be treated Why in other words should we act in accordance with the Golden Rule principle What is the justification of the demand the Golden Rule makes on us This book answers these and other questions about the normative plausibility of the Golden Rule and thus global ethic from the comparative perspective of ethics in African philosophy It analyzes three stages of the possible normative justification of the moral imperative of global ethic and proposes a deliberative form of justification      **The Crisis in Global Ethics and the Future of Global Governance** Peter Burdon, Klaus Bosselmann, Kirsten Engel, 2019 p p1 margin 0 0px 0 0px 0 0px 0 0px font 10 0px Arial This thought provoking book stimulates dialogue and action on the role of global ethics in the governance of individual societies and the international order Such inquiry is imperative given the extraordinary challenges that face the world today Leading figures in environmental ethics philosophy and law approach questions surrounding global ethics and governance from a range of cultural and philosophical perspectives
