Global Guide To Media And Communications:

Global Guide to Media & Communications John A. Lent, 1987 **Global Guide to Media and Communications** John A. Lent, 1986-02-01 **The Handbook of Global Media and Communication Policy** Robin Mansell, Marc Raboy, 2014-03-03

The Handbook of Global Media and Communication Policy offers insights into the boundaries of this field of study, assesses why it is important, who is affected, and with what political, economic, social, and cultural consequences. It provides the most up-to-date and comprehensive collection of essays from top scholars in the field. Includes contributions from Western and Eastern Europe, North and Central America, Africa, and Asia. Offers new conceptual frameworks and new methodologies for mapping the contours of emergent global media and communication policy. Draws on theory and empirical research to offer multiple perspectives on the local, national, regional, and global forums in which policy debate occurs. The No-nonsense Guide to Global Media Peter Steven, 2003

The power and influence of the mass media grows daily, crucially affecting the way all of us see and understand each other. The No Nonsense Guide to Global Media introduces readers to the political economy of the major media: film, television, radio, recording, publishing, and the Internet. Peter Steven looks at the ever greater concentration of ownership and at the convergence of technologies and media functions. At the same time, he emphasizes the diversity of local media production and media around the world. The media is more than the economics of ownership and the technology of production; he stresses it is also audiences in all their annoying and wonderful diversity. **Telecommunications Update**, 1990 Journalism Jo A. Cates, 2004-05-30

Journalism: A Guide to the Reference Literature is a critically annotated bibliographic guide to print and electronic sources in print and broadcast journalism. The first edition was published in 1990, the second in 1997. It has been described as one of the critical reference sources in journalism today, and it is a key bibliographic guide to the literature. Choice magazine called it a benchmark publication for which there are no comparable sources. The format is similar to the second edition. What makes this edition significantly different is the separation of Commercial Databases and Internet Resources. Commercial Databases includes standard fee-based resources. The new chapter on Internet sources features Web-based resources not included in the commercial databases chapter, as well as portals, other online files, listservs, newsgroups, and Web logs, blogs. All chapters have been revised, and there are significant revisions in Directories, Yearbooks, and Collections, Miscellaneous Sources, Core Periodicals, Societies and Associations, and Research Centers and Archives. The second edition has 789 entries. The third edition contains almost 1,000 entries. James Carey of Columbia University, who provided the foreword for the first two editions, has updated his foreword for this edition.

Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

Media Literacy Around the World Robert Kubey, 2018-10-24 At the dawn of the twenty first century education about and through the media has become a worldwide phenomenon and is playing an increasingly important role in educational reform The theory and practice of media education have profited greatly from recent and intensive development and application of new information and telecommunications technologies Consequently the importance of media and information literacy is taking on an even greater urgency With this in mind the contributors to this volume survey what has taken place over the last decade in different parts of the world examine the current state of theoretical conceptual and research development and consider where media education is going and where it ought to go With two thirds of its 22 contributions coming from outside the United States Media Literacy around the World is a genuine international effort with many leading media and information educators in the world taking part The work converts the notion of globalism from a slogan into a working hypothesis The concerns in this volume are with literacy not just in computer technology but as a broad concern of the educational process
