Hearing Maskanda Barbara Titus, 2022-01-13 Hearing Maskanda outlines how people make sense of their world through practicing and hearing maskanda music in South Africa Having emerged in response to the experience of forced labour migration in the early 20th century maskanda continues to straddle a wide range of cultural and musical universes Maskanda musicians reground ideas hi stories norms speech and beliefs that have been uprooted in centuries of colonial and apartheid rule by using specific musical textures vocalities and idioms With an autoethnographic approach of how she came to understand and participate in maskanda Titus indicates some instances where her acts of knowledge formation confronted bridged or invaded those of other maskanda participants Thus the book not only aims to demonstrate the epistemic importance of music and aurality but also the performative and creative dimension of academic epistemic approaches such as ethnography historiography and music analysis that aim towards conceptualization and visual representation In doing so the book unearths the colonialist potential of knowledge formation at large and disrupts modes of thinking and academic research that are globally normative

'Blerwytirhwng?' The Place of Welsh Pop Music Sarah Hill, 2017-07-05 In the 1960s Welsh language popular music emerged as a vehicle for mobilizing a geographically dispersed community into political action As the decades progressed Welsh popular music developed beyond its acoustic folk roots adopting the various styles of contemporary popular music and ultimately gaining the cultural self confidence to compete in the Anglo American mainstream market The resulting tensions between Welsh and English amateur and professional rural and urban the local and the international necessitate the understanding of Welsh pop as part of a much larger cultural process Not merely a Celtic issue the cultural struggles faced by Welsh speakers in a predominantly Anglophone environment are similar to those faced by innumerable other minority communities enduring political social or linguistic domination The aim of *Blerwytirhwng The Place of Welsh Pop Music* is to explore the popular music which accompanied those struggles to connect Wales to the larger Anglo American popular culture and to consider the shift in power from the dominant to the minority the centre to the periphery By surveying the development of Welsh language popular music from 1945 2000 *Blerwytirhwng The Place of Welsh Pop* examines those moments of crisis in Welsh cultural life which signalled a burgeoning sense of national identity which challenged paradigms of linguistic belonging and out of which emerged new expressions of Welshness

Pop-Rock Music Motti Regev, 2013-07-10 Pop music and rock music are often treated as separate genres but the distinction has always been blurred Motti Regev argues that pop rock is best understood

as a single musical form defined by the use of electric and electronic instruments amplification and related techniques The history of pop rock extends from the emergence of rock n roll in the 1950s to a variety of contemporary fashions and trends rock punk soul funk techno hip hop indie metal pop and many more This book offers a highly original account of the emergence of pop rock music as a global phenomenon in which Anglo American and many other national and ethnic variants interact in complex ways Pop rock is analysed as a prime instance of aesthetic cosmopolitanism that is the gradual formation in late modernity of world culture as a single interconnected entity in which different social groupings around the world increasingly share common ground in their aesthetic perceptions expressive forms and cultural practices Drawing on a wide array of examples this path breaking book will be of great interest to students and scholars in cultural sociology media and cultural studies as well as the study of popular music

The Cambridge History of Twentieth-Century Music Nicholas Cook,Anthony Pople,2004-08-05 Publisher Description

Ethnomusicology in East Africa Sylvia A. Nannyonga-Tamusuza,Thomas Solomon,2012 Ethnomusicology in East Africa brings together thinkers and artists from Uganda East Africa and further afield to discuss an area of vital importance to Africans as a people The book presents selected papers from the First International Symposium on Ethnomusicology in Uganda held at Makerere University in Kampala on 23 25 November 2009 and represents an important step in the continued professionalisation of ethnomusicology in Uganda It presents new work by Uganda based researchers from students to academic staff and solidly places that work within the international scholarly ethnomusicological conversation Cover

Haunted Soundtracks Kevin J. Donnelly,Aimee Mollaghan,2023-10-05 The turn of the millennium has heralded an outgrowth of culture that demonstrates an awareness of the ephemeral nature of history and the complexity underpinning the relationship between location and the past This has been especially apparent in the shifting relationship between landscape memory and sound in film television and other media The result is growing interest in soundtracks as part of audiovisual culture as well as an interest in the spectral aspects of culture more generally This collection of essays focuses on audiovisual forms that foreground landscape sound and memory The scope of inquiry emphasises the ghostly qualities of a certain body of soundtracks extending beyond merely the idea of scary films or haunted houses Rather the notion of sonic haunting is tied to ideas of trauma anxiety or nostalgia associated

with spatial and temporal dislocation in contemporary society Touchstones for the approach are the concepts of psychogeography and hauntology pervasive and established critical strategies that are interrogated and refined in relation to the reification of the spectral within the soundtracks under consideration here **Extreme Metal** Keith

Kahn-Harris,2007-01-15 Includes interviews with band members and fans from countries ranging from the UK and US to Israel and Sweden this book demonstrates the power and subtlety of an often surprising and misunderstood musical form It draws on first hand research to explore the global extreme metal scene *Essays on Music, Politics and Resistance* Helen

Lawlor,Adrian Scahill,2025-08-11 This volume explores the relationship between music power and politics examining how music serves as a tool for empowerment resistance and alternative worldviews The essays highlight how music can help minority groups establish a voice fostering community and identity Drawing on recent fieldwork and ethnographic research the book features international perspectives from ethnomusicology and engages with contemporary discussions on music s role in shaping social and political realities By focusing on music s potential for empowerment and social justice the volume goes beyond viewing music merely as a form of protest offering a broader perspective on its transformative power for marginalized communities *Soda Goes Pop* Joanna K. Love,2019-07-10 From its 1939 Nickel Nickel jingle to pathbreaking

collaborations with Michael Jackson and Madonna to its pair of X Factor commercials in 2011 and 2012 Pepsi Cola has played a leading role in drawing the American pop music industry into a synergetic relationship with advertising This idea has been copied successfully by countless other brands over the years and such commercial collaboration is commonplace today but how did we get here How and why have pop music aesthetics been co opted to benefit corporate branding What effect have Pepsi s music marketing practices in particular had on other brands the advertising industry and popular music itself Soda Goes Pop investigates these and other vital questions around the evolving relationships between popular music and corporate advertising Joanna K Love joins musical analysis historical research and cultural theory to trace parallel shifts in these industries over eight decades In addition to scholarly and industry resources she draws on first hand accounts pop culture magazines trade press journals and other archival materials Pepsi s longevity as an influential American brand its legendary commercials and its pioneering relentless pursuit of alliances with American musical stars makes the brand a particularly instructive point of focus Several of the company s most famous ad campaigns are prime examples of the practice of redaction whereby marketers select censor and restructure musical texts to fit commercial contexts in ways that revise their aesthetic meanings and serve corporate aims Ultimately Love demonstrates how Pepsi s marketing has historically appropriated and altered images of pop icons and the meanings of hit songs and how these commercials shaped relationships between the American music business the advertising industry and corporate brands Soda Goes Pop is a rich resource for scholars and students of American studies popular culture advertising broadcast media and musicology It is also an accessible and informative book for the general reader as Love s musical and theoretical analyses are clearly presented

for non specialist audiences and readers with varying degrees of musical knowledge

Local Music Scenes and

Globalization Thomas Burkhalter, 2014-04-16 This book offers the first in depth study of experimental and popular music scenes in Beirut looking at musicians working towards a new understanding of musical creativity and music culture in a country that is dominated by mass mediated pop music and propaganda Burkhalter studies the generation of musicians born at the beginning of the Civil War in the Lebanese capital an urban and cosmopolitan center with a long tradition of cultural activities and exchanges with the Arab world Europe the US and the former Soviet Union These Lebanese rappers rockers death metal jazz and electro acoustic musicians and free improvisers choose local and transnational forms to express their connection to the broader musical cultural social and political environment Burkhalter explores how these musicians organize their own small concerts for insider audiences set up music labels and network with like minded musicians in Europe the US and the Arab world Several key tracks are analyzed with methods from ethnomusicology and popular music studies and contextualized through interviews with the musicians Discussing key references from belly dance culture 1960s psychedelic rock in Beirut 1970s the noises of the Lebanese Civil war 1975 1990 and transnational Pop Avant Gardes and World Music 2 0 networks this book contributes to the study of localization and globalization processes in music in an increasingly digitalized and transnational world At the core this music from Beirut challenges ethnocentric perceptions of locality in music It attacks both Orientalist readings of the Arab world the Middle East and Lebanon and the focus on musical difference in Euro American music and culture markets On theoretical grounds this music is a small but passionate attempt to re shape the world into a place where modernity is not euro modernity or euro american modernity but where possible new configurations of modernity exist next to each other

Music and Identity Politics

Ian Biddle, 2017-07-05 This volume brings together for the first time book chapters articles and position pieces from the debates on music and identity which seek to answer classic questions such as how has music shaped the ways in which we understand our identities and those of others In what ways has scholarly writing about music dealt with identity politics since the Second World War Both classic and more recent contributions are included as well as material on related issues such as music s role as a resource in making and performing identities and music scholarship s ambivalent relationship with scholarly activism and identity politics The essays approach the music identity relationship from a wide range of methodological perspectives ranging from critical historiography and archival studies psychoanalysis gender and sexuality studies to ethnography and anthropology and social and cultural theories drawn from sociology and from continental philosophy and Marxist theories of class to a range of globalization theories The collection draws on the work of Anglophone scholars from all over the globe and deals with a wide range of musics and cultures from the Americas Australasia Europe the Middle East and Africa This unique collection of key texts which deal not just with questions of gender sexuality and race but also with other socially mediated identities such as social class disability national identity and accounts and analyses of inter group encounters is an invaluable

resource for music scholars and researchers and those working in any discipline that deals with identity or identity politics
