Rapoport, 2022-05-31 Terrorism is a persistent form of political violence but it appears intermittently afflicting certain places in certain eras while others remain unscathed Since the late nineteenth century it has risen and fallen in recurrent generation long spasms in which hundreds of short lived groups wreak havoc Why have past outbreaks of terror tended to come in waves and how does

this pattern shed light on future threats David C Rapoport a preeminent scholar of political violence identifies and analyzes four distinct waves of global terrorism He examines the dynamics of each wave contrasting their tactics targets and goals and placing them in the context of the much longer history of terrorism Global terror emerged in the 1880s after technological changes transformed communication and transportation and dynamite enabled individuals or small groups to carry out bombings Emanating from Russia a first wave of anarchists assassinated prominent figures in what they called propaganda of the deed This was followed by a second wave of anticolonial terrorism that arose in the British Empire in the 1920s Beginning in the 1960s a third wave of New Left movements took hostages and hijacked airplanes Most recently religious movements mostly but not entirely in the Islamic world have constituted a fourth wave pioneering self martyrdom or suicide bombing Rapoport also considers whether a fifth wave of anti immigrant or white supremacist terror is emerging today Recasting the complex history of modern political violence Waves of Global Terrorism makes a major contribution to our understanding of the roots of contemporary terrorism

Intelligence and Human Rights in the Era of Global Terrorism Steve Tsang, 2008 Facing the threats posed by dedicated suicide bombers who have access to modern technology for mass destruction and who intend to cause maximum human suffering and casualties democratic governments have hard choices to make The premise of this book is that for intelligence organizations in democratic states to be able to face up to the challenges of global terrorism they must think outside the box and utilize all of their resources effectively and creatively To overcome the enemy we must also secure the peace Winning the hearts and minds of the terrorists pool of potential recruits will be essential to cutting off the supply of suicide bombers This book therefore addresses not only the question of how intelligence organizations can improve their efficacy in pre empting terrorist outrages but also the wider issue of removing the forces that sustain global terrorism as a scourge of the twenty first century The general public in the target countries and recruiting grounds must also be persuaded that despite their rhetoric the terrorists are not engaged in a holy war Intelligence services of various countries need to find convincing evidence to prove this point But it is up to governments civil society and the media in different parts of the world to work together if the evidence

unearthed by national intelligence services is to be accepted by the general public Unless the emotional or quasi religious appeal of the global terrorists can be removed the simple arrest of bin Laden and his close associates or even the destruction of Al Qaeda as an organization will not be sufficient to prevent others from rising to replace them
